LIST OF TABLES -REPORT OF THE BOARD OF DIRECTORS AND MANAGEMENT

Report of the Board of Directors and Management

GENERAL OVERVIEW, GOALS AND STRATEGY

REPORT OF THE BOARD OF DIRECTORS AND MANAGEMENT AS AT JUNE 30, 2016

The meeting of the Board of Directors held on August 15, 2016, resolved to approve and publish the unaudited consolidated financial statements of the First International Bank of Israel Ltd. (hereinafter - "the Bank") and its consolidated subsidiaries (hereinafter - "the Bank Group"), as at June 30, 2016.

GENERAL OVERVIEW, GOALS AND STRATEGY

The Bank Group is one of the five large banking groups in Israel.

The business operations of the Bank Group focus on several principal areas:

- Financial brokerage between depositors and borrowers, which is the basis for commercial banking. Income from such operation is reflected in net interest income comprising the main source of profit of the Group.
- Financial and banking services producing commission income in a variety of operations in the foreign currency, international trade, securities, information services, credit cards, derivative financial instruments, etc.
- Investment and pension consulting.
- The "nostro" investments of the Bank and market and liquidity risk management.
- Operational banking services for the capital market with respect to provident funds and mutual funds.
- Trusteeship services for private and institutional customers through the Bank's trust company.

The Bank Group operates through three principal business divisions:

- The corporate division, which conducts all operations relating to corporate and middle-market customers, as well as business and institutional customers active on the capital market. Operating within this division is the business region, covering the operation of all business branches of the Bank.
- The banking division, which conducts all operations relating to private customers of the Bank, including private banking, households and small business. The division operates through 101 branches, while in addition, Otzar Hachayal Bank operates 47 branches and Massad Bank operates 22 branches (a total of 170 branches in the whole Group).
- The customer asset division which centralizes the whole capital market operations, monies and foreign currency with private, commercial customers, institutional bodies and capital market professionals.

In addition to the Bank, the Group operates today two additional commercial banks in Israel, which cater to unique customer populations: Otzar Hachayal Bank, specializing in services to retail and commercial customers, mostly employees and retirees of Israel's Ministry of Defense agencies; and Massad Bank, specializing in providing services to to teaching staff population in Israel. The Group has a subsidiary in Switzerland - FIBI Bank (Swiss) - located in Zurich and specializing in private banking.

FORWARD-LOOKING INFORMATION

Part of the information detailed in this report which does not refer to historical facts is forward-looking information as defined in the Securities Law, 1968. Actual results are likely to be substantially different from those included in the context of forward-looking information due to a large number of factors, including changes in legislation and supervisory directives, macroeconomic developments in Israel and abroad and their effect on the liquidity position and stability in the capital markets at business companies in Israel and abroad, exceptional economic developments such as extreme changes in interest rates, exchange rates and inflation, stock prices, bond prices, competitors' behavior and changes in the terms of competition.

Forward-looking information is notable for such words or expressions as: "forecast," "expected," "in the Bank's estimation" and "the Bank intends," as well as expressions such as "will be able," "might be" and "will be." These forward-looking expressions involve risks and uncertainty because they are based on the Management's assessments regarding future events that may not occur or that may occur in a different manner than expected as the result inter alia of the aforementioned factors or as the result of the materialization of one or more of the risk factors detailed in the table of risk factors presented in the annual report for 2015.

The information in this report is based, among other, on the publication of the Central Bureau of Statistics, the Treasury department and the data from the Bank of Israel, as well as on public information given by different factors operating and connected with the capital and money markets.

Net profit attributed to the Bank's shareholders amounted to NIS 281 million in the first half of 2016, compared with NIS 243 million in the same period last year, an increase of 15.6%.

Net return on equity attributed to the Bank's shareholders amounted to 8.0% compared with 7.2% in the same period last year and 6.5% in 2015.

Set out below are the central factors which affected the profit of the Group in the first six months of 2016 compared with the same period last year:

- Increase in interest income, net, in the amount of NIS 103 million (10.8%).
- Decline in non-interest financing income of NIS 36 million, due mainly to the decrease in gains on realization of bonds and profits from investment in shares amounting to NIS 40 million.
- Decrease of NIS 45 million in commission income (6.4%).
- Increase in other income in the amount of NIS 45 million, deriving mainly from the Bank's share in the proceeds from the transaction of the sale of Visa Europe shares (see Note 17 to the financial statements).
- Increase in salaries and related expenses in the amount of NIS 53 million explained by one time reduction in the salaries expenses in the amount of NIS 72 million in the same period last year from the implementation of the special collective labor agreement and from one time provision in the amount of NIS 25 million for the gradual closure of operations in the framework of efficiency. Excluding these effects, a decrease in the salaries and related expenses occurred in the amount of NIS 44 million (5.1%) deriving, among other things, from the decrease of the manpower in the group and from a decrease deriving from the conversion of jubilee rights (see note 16 to the financial statements).
- Decrease in operating and other expenses, excluding salaries and related expenses, in the amount of NIS 21 million.
- A one time increase in the taxes on income expense in the amount of NIS 37 million.

- An increase of the Bank's share in the profit of investee company in the amount of NIS 41 million, deriving mainly from the investee company's share in the proceeds from the transaction of the sale of Visa Europe shares.

Basic earnings per NIS 0.05 share amounted to NIS 2.81 in the first six months of the year compared with NIS 2.42 in the same period last year.

The Bank Group's total assets on June 30, 2016 amounted to NIS 127,307 million compared with NIS 121,424 million on June 30, 2015 and NIS 125,476 on December 31, 2015, an increase of 4.8% and 1.5%, respectivly.

Credit to the public, net on June 30, 2016 amounted to NIS 76,097 million compared with NIS 70,589 million on June 30, 2015 and NIS 72,555 million at the end of 2015, an increase of 7.8% and 4.9%, respectivly.

Deposits from the public on June 30, 2016 amounted to NIS 105,316 million, compared with NIS 98,634 million on June 30, 2015 and NIS 103,262 million at the end of 2015, an increase of 6.8% and 2.0% respectivly.

Capital attributed to shareholders totaled NIS 7,339 million on June 30, 2016, compared with NIS 6,966 million on June 30, 2015 and NIS 7,073 million at the end of 2015, an increase of 5.4% and 3.8%, respectivly.

The ratio of Tier I equity capital to risk component as of June 30, 2016 amounted to 9.97%, as compared to 9.81% at the end of 2015.

The ratio of comprehensive capital to risk components as of June 30, 2016 amounted to 13.65%, as compared to 13.26% at the end of 2015.

Net profit attributed to the Bank's shareholders amounted to NIS 134 million in the second quarter of 2016, compared with NIS 118 million in the same period last year, an increase of 13.6%.
Net return on equity attributed to the Bank's shareholders annualized amounted to 7.6% compared with 7.0% in the same period last year.

Set out below are the central factors which affected the profit of the Group in the second quarter of 2016 compared with the same period last year:

- Increase in interest income, net, in the amount of NIS 21 million (4.1%).
- An increase in the expenses for credit losses in the ampunt of NIS 78 million. According to the guidelines of the Supervisor of Banks to the Banking corporations from July 2016, the Bank included the rate of write-offs from 2011 in the average rate of loss which is the base of determining the group provision. In accordance to the Bank's tests, the implementation of this directive resulted in an increase in the group provisioning for credit losses in an amount of NIS 57 million. The Bank elected to report this effect in the second quarter of the year.
- Increase in other income in the amount of NIS 39 million, deriving mainly from the Bank's share in the proceeds from the transaction of the sale of Visa Europe shares.
- Decrease in operating and other expenses, in the amount of NIS 17 million.

- An increase of the Bank's share in the profit of investee company in the amount of NIS 39 million, deriving mainly from the investee company's share in the proceeds from the transaction of the sale of Visa Europe shares.

Principal Risks to which the Bank is exposed

The Bank group activity involves exposure to risk, the more significant of which are: credit risk, including credit concentration (borrower and sectorial), market risks, the principal of which is interest rate risk (a cross-system risk), liquidity risks, operating risks and compliance and money laundering risks.
All material risks are managed by and the responsibility of appointed members of Management. A regulatory requirement for capital adequecy exists in respect of credit, market and operating risks, according to the instructions of Pillar I of Basel.
Within the framework of the Internal Capital Adequacy Assessment Process ("ICAAP"), the Group performs an intensive process for the identification of additional risk centers and the challenging of identified risk centers, in accordance with Pillar I. Where required, a supplementory allocation of capital is made in respect of Pillar I risks, and an additional allocation of capital in respect of other risks and sub-risks.

The Bank sees in the cyber risks, information technology risk and regulatory risk, leading evolving material risks. For additional information see chapter general overview, objectives and strategy, which was published in the annual financial statements for 2015.

Objectives and Strategy

Management of the Bank is guided and directed by the Board of Directors and its committees, with respect to the strategy and business policy of the Bank. In this framework, the Board of Directors approves the quantitative and qualitative targets and goals as well as the lines of operation of the Bank.

On the basis of the multi-annual strategic plans of the Bank, Management presents to the Board of Directors annual work plans and budgets, giving quantitative and qualitative details of the income, expenses and investment mix, which Management had determined as the long-term goals and specific targets for the current year of operation.

The Board of Directors and its committees supervise and control the work of Management in everything relating to the implementation of the strategy and business policy, as approved by them. The Board of Directors approves also the comprehensive risk management policy, including the determination of different limitations to exposure regarding credit risk and market and liquidity risks. The various units of the Bank, of the branch layout and of the Head Office, operate within the framework of written procedures and circular letters, guiding them in their current operations. These procedures define, among other things, the authority of the different units of the Bank and the manner of operation which they have to adopt.

The Bank operates according to a multi-annual strategic plan, validated by the Board of Directors at half-yearly intervals. The plan is based upon appropriate conduct in all areas of operation, with aspiration for proper and stable profitability over a period of time.

The Bank has a strategic plan for the years 2016-2018, which was approved by the Board of Directors in September 2015. The supreme goals of the plan are in terms of return on capital in excess of riskless interest rate and efficiency ratio.

Within the framework of the plan, the Bank would continue to focus on private banking, on financial wealth customers and on medium to large businesses, by providing a comprehensive response modified to the needs of the customer, including in the digital area and technological answer; the Bank is to maintain the leadership of its subsidiaries (Otzar Hachayal and Massad) and the merged banks (UBank and PAGI) in their unique operating niches, mostly in the retail and small business sectors. The Bank is to maintain leadership in the capital market; would conduct actions leading to efficiency in expenses, while improving its manpower position, improving procedures, continue efficiency measures in the branch layout and increase the use of online banking channels, and support performance directed culture and measurement in the Group.

As stated, the Bank reviews the plan at half-yearly intervals, in relation to the macro-economic environment, to developments in market competition, to the regulatory environment, to technological developments and frequent changes in the digital and cyber area, as well as to changes occurring in the Bank Group, and if necessary updates the plans and the moves stemming from the strategic plan.

EXPLENATION AND ANALYSIS OF RESULTS AND BUSINESS POSITION

EXPLENATION AND ANALYSIS OF RESULTS AND BUSINESS POSITION

TRENDS, EVENTS, DEVELOPMENTS AND MATERIAL CHANGES

THE PRINCIPAL ECONOMIC DEVELOPMENTS IN ISRAEL

Non-financial developments

The published indicators for non-financial activity show that the Israeli economy continued to grow also in the first quarter of 2016, at a moderate rate that marked it in recent years. According to the most recent assessment published by the Central Statistical Bureau (hereinafter – "CSB") in July 2016, the economy grew in the first quarter of 2016 by 1.7% in annualized terms, following a growth of 3.5% in the last quarter of 2015 and a growth of 2.3% in the third quarter of 2015. The growth of the product in the first quarter of the year reflects an increase in the private consumption expense items and in investments in fixed assets, and a reduction in the export of goods and services (5.3% in annualized terms) and in public consumption expenditure.

The composite state-of-the-economy index of Bank of Israel indicates a certain slowdown in the growth rate, when during the first five months of 2016 this index rose by 0.25%, in contrast to a rise of 0.53% in the first five months of 2015.

The Research Division of Bank of Israel reduced in June 2016 the product growth forecast for 2016 to 2.4%, in contrast to 2.8% in the previous forecast published in march 2016, principally on background of the low growth in the first quarter of he year, a development impacted by the weakness in exports. Moreover, the growth forecast for 2017 has also been reduced to 2.9% in contrast to 3.0% in the previous forecast, on background of Bank of Israel assessments for the continuation of the expected weakness in a part of the export sectors.

The State budget

The first half of 2016 saw a reduction in the Government's budgetary operations deficit amounting to NIS 3.4 billion, in comparison with a deficit of NIS 3.8 billion in the corresponding period last year. The planned deficit for 2016 amounts to NIS 35 billion, comprising 2.9% of GDP, while in the last twelve months (July 2015 to June 2016) the State budgetary deficit amounted to only 2.1% of GDP. In the first half of the year, the expenditure of the civilian offices increased by 10.5% (similarly to the planned increase in the budget for 2016) while the expenditure of the Defense Ministry increased by 1.1% (in contrast to a planned reduction of 3.7% in the budget for 2016), in comparison with the corresponding period last year.

Tax revenues in the period from January to June 2016 totaled NIS 142.3 billion, a nominal increase of 5.7%, in comparison with the corresponding period last year. The growth in revenues related to both direct and indirect taxes.

During the month of April, Fitch rating agency raised the forecast for the credit rating of the State of Israel regarding its foreign currency debt from "stable" to "positive" and ratified it at a level of "A". The upward updating of this forecast stems from the further strengthening of Israel's foreign accounts (a growing surplus on the current account and an increase in the foreign currency balances of Bank of Israel) and the improvement in the reduction of the ratio of the public debt to the product, while emphasizing the political risks burdening the credit rating.

Inflation

The inflationary environment in the economy continues to be relatively low. The Consumer Price Index (CPI) remained unchanged during the first half of 2016. Most of the reduction -4.7% and 1.2% - referred to the fruit and vegetable items, and to foodstuffs without fruit and vegetable, respectively. Most of the increases – 1.5% and 1.4% - referred to the education, culture and entertainment items and to the apparel and footwear items, respectively. A negative inflation rate of 0.8% was recorded in the last twelve months, while the CPI, excluding the housing item, declined by 1.7%.

The Research department of Bank of Israel estimated in June 2016, that the inflationary environment in 2016 will continue to be negligible, mainly on background of the employment market being in a full employment environment, and is even marked by limited supply in certain sectors, but also due to the continued pressure for increase in competition. Inflation is expected to gradually rise in 2017 up to a level of 1.2%, still near to the lower limit of the inflationary target.

According to Bank of Israel, as of May 2016, the inflationary expectations derived from the capital market for the next twelve months, are still low amounting to 0.4%.

The housing market

According to assessments of the housing price index of the CSB published in July 2016, a moderate increase of 0.3% was recorded in the price of housing in the months April-May 2016, as compared with March-April 2016, while in the period of twelve months ended in May 2016, housing prices rose steeply by 7.8%.

The construction of 11,810 new housing units began in the first quarter of 2016 (a reduction of 8.1% in comparison with the corresponding period last year) while construction of 9,640 housing units was completed (a reduction of 15.4%, in comparison with the corresponding period last year). The first quarter of 2016, was the fourth consecutive quarter marking a reduction in the number of completed housing units. In the months January- May 2016, the demand for new housing units increased, and 13,800 new units were sold, an increase of 4.1%, in comparison with the corresponding period last year.

In June 2016, the public took mortgage loans amounting to NIS 5.6 million, slightly higher than the average monthly amount in the past twelve months of NIS 5.3 billion. The rate of mortgage loans taken for the purchase of housing units as an investment continues to decline, amounting in May to 13.5%, in comparison with an average of 15% in the last twelve months.

Labor market

Unemployment data continue to be positive and even to improve. The unemployment rate in May 2016 (among those aged 15 and above) dropped to 4.8%, in contrast to 4.9% in April. In parallel, among the principal working age (25-64) the rate of unemployed dropped in may to 4.1%, as compared with 4.3% in April 2016.

Exchange rate

The exchange rate of the shekel against the US dollar strengthened in the first half of 2016 by 1.7%, while the exchange rate against the Euro declined by 0.7%.

During the first half of 2016, Bank of Israel purchased an amount of US$3.4 billion (of which US$0.9 billion were purchases offsetting the effect of the natural gas production in Israel on the shekel exchange rate). In November

2015, Bank of Israel announced that within the framework of the plan designed to offset the effect of the gas production in Israel on the exchange rate, it would purchase in 2016 an amount of US$1.8 billion.

	Exchange rate as of			Change %	
	30.6.16	**31.12.15**	**30.6.15**	**First half 2016**	**First half 2015**
Dollar	**3.85**	3.90	3.77	(1.3%)	(3.1%)
Euro	**4.28**	4.25	4.22	0.7%	(10.7%)

Bank of Israel interest rate

The monetary committee of Bank of Israel decided in February 2015 to reduce the interest rate for the month of March to a level of 0.1%. This decision was taken on background of the growing rate of appreciation of the shekel and its possible implications on economic activity and inflation, and inter alia, was intended to return the inflation rate back into the price stability target. Since then, the interest rate remained unchanged, on background of the low inflation. The committee estimated that the monetary policy would remain expansionary for a considerable period of time.

The Research Department of Bank of Israel estimated in June 2016 that the Bank of Israel interest rate is expected to remain at its present level throughout 2016, and would gradually rise only as from the third quarter of 2017.

The global environment

The trend of moderation in the global economic activity continues, especially in the emerging markets. The global economic growth forecast of the International Monetary Fund for 2016, was revised downwards in April 2016 from 3.4% to 3.2%. The reduction in the global growth forecast stems mainly from the weakness in global economy, the decline in the volume of trade and the low oil prices. The forecast for 2017 was also reduced from 3.6% to 3.5%.

In June 2016, a Referendum held in Britain voted by a tiny majority for the exit of Britain from the European Union ("Brexit"). The results of the Referendum were received with surprise by the financial markets and led to high market fluctuations. The force of the impact of Brexit is largely dependent on the new trade agreement between Britain and the European Union and on the period of time required for the formation thereof.

According to estimates of the International Monetary Fund, it is expected that the Brexit would lead to a reduction in the global economic growth. According to estimates, the principal impact on Israel, is expected to be reflected in increasing uncertainty on the financial markets, the strengthening of the shekel against the Pound Sterling and the currency basket, and in a possible reduction in the volume of trade between Britain and Israel. In the United States, the FED announced in December 2015 a rise of 0.25% in the interest rate, for the first time after seven years of infinitesimal interest environment

In June 2016, the interest rate remained at that rate, mostly on background of the Brexit implications on the US economy and the reduction in the rate of creation of new jobs. Concurrently, the US economic growth assessment for the first quarter has been revised upwards, and a growth of 2.4% is expected for the second quarter. Recent indicators for the activity in the industrial sector were positive, and the private consumption data continued to be steadfast, though customer confidence weakened following the Brexit. A moderate growth in

the industrial sector of only 0.5% was recorded in Europe, in comparison with the corresponding period last year, with a decline in Germany and in Italy; a low growth was recorded also in retail sales.
According to publications, the purchase managers' indices do not indicate a significant impairment as a result of the Brexit. The inflation in the Eurozone increased slightly and returned to the positive range.
In Japan, economic activity data continue to indicate weakness, and according to estimates, further expansionary measures will be taken on background of the success of the ruling party in the election. In China, the official growth data indicate a relatively high growth in the second quarter, relying on extensive government investments.

The capital markets

The principal share indices of the local capital market dropped in the first half of 2016. The TA 100 index fell by 7.9% and the TA 25 index fell by 8.6%. The comprehensive government bond index rose by 2.7%.
The trading turnover in shares included in the TA 25 index remained stable in the first half of 2016, while trading turnover in shares included in the TA 100 index rose by 1.9%, in comparison with the corresponding period last year, alongside a decline in the trading turnover of bonds at the rate of 16.1%.

	Rate of change		Average daily trading turnover	
	in %		NIS million	
	First half 2016	**First half 2015**	**First half 2016**	**First half 2015**
Tel Aviv 25 index	**(8.6%)**	12.6%	**700**	697
Tel Aviv 100 index	**(7.9%)**	10.0%	**893**	876
Comprehensive bond index	**2.7%**	0.6%	**3,968**	4,732

The total amount of capital funds (shares and bonds) raised during the first half of 2016, increased by 7%, in comparison with the corresponding period last year. This growth referred both to shares and convertibles and to government bonds. On the other hand, the volume of issuance of corporate bonds declined in this period.

	Funds raising volume		
	NIS million		
	First half 2016	**First half 2015**	**Rate of change**
Shares and convertibles	**4,019**	3,552	13.1%

Corporate bonds (including institutions)	**31,367**	32,782	(4.3%)
Total	**60,802**	56,958	6.7%

The S&P 500 index rose by 2.7% during the first half of 2016. In Europe, the Eurostock 600 index dropped by 9.8% and the developing countries index (the EM-MSCI) rose by 5.0%.

MATERIAL DEVELOPMENTS IN REVENUES, EXPENSES AND OTHER COMPREHENSIVE INCOME

PROFIT AND PROFITABILLITY

Net profit attributed to the shareholders of the Bank amounted to NIS 281 million in the first half of 2016, as compared to NIS 243 million in the same period last year, an increase of 15.6%.

The basic net profit per share of NIS 0.05 amounted to NIS 2.81 in the first six months of the year, as compared to NIS 2.42 in the same period last year.

The return of net profit to the capital attributed to the shareholders of the Bank amounted to 8.0% in the period January – June 2016, as compared to 7.2% in the same period last year and 6.5% in 2015.

DEVELOPMENT IN INCOME AND EXPENSES

Financing profit on all assets and liabilities of the Bank include net interest income together with non-interest financing income. Non-interest financing income includes financing income in respect of derivative instruments comprising an integral part of exposure management of the Bank. Income from derivative instruments include, inter alia, the effect of the time factor on the fair value of derivatives, comprising an integral part of the interest risk management at the Bank, as well as the effect of the rise in the rate of the "known" CPI on derivatives comprising an integral part of exposure to the consumer price index.

Set out below is the composition of net financing earnings:

Income from realization and reconciliations to fair value of bonds	**34**	54
Earnings from investments in shares	**16**	36
Net financing earnings	**1,127**	1,060

The increase in the earnings from current operations compared with the first half of 2015 in partly explained by increase in the average balance sheet balances and partly from interest begin previous years.

Set out below are main data regarding interest income and expenses:

	For the six months ended June 30	
	2016	2015
		in %
Income rate on asset bearing interest	**2.19**	2.13
Expense rate on liabilities bearing interest	**0.43**	0.43
Total interest spread	**1.76**	1.70
Ratio between net interest income and assets bearing interest balance	**1.90**	1.83

For details regarding the report on rates of interest income and expenses of the Bank and of its consolidated subsidiaries and the analysis of changes in interest income and expenses, see Appendix 1 to the Chapter "Corporate governance ".

Expenses from credit losses amounted to NIS 25 million compared with NIS 26 million in the same period last year.

Expenses from credit losses as a ratio of total credit to the public amounted to 0.07% similar to the same period last year and 0.02% in 2015.

Set out below are details of Expense in respect of credit losses in respect of debts and off-balance sheet credit instruments:

	For the six months ended June 30	
	2016	**2015**
		NIS million
Expense in respect of commercial credit	**6**	5
Expense in respect of housing credit	**7**	3
Expense in respect of other private credit	**12**	18
Total Expense in respect of credit losses	**25**	26

For additional information regarding expenses for credit loss, see Chapter "Structure and developments of assets and liabilities, capital and capital adequacy" and Chapter "Review of Risks" below.

Fees and other income totaled NIS 710 million, similar to the same period last year.

Set out below are details of fees income and other income:

	For the six months ended		Change
	30.6.16	**30.6.15**	**30.6.15**
		NIS million	In %
Fees:			
Account management	**123**	132	(6.8)
Credit cards	**51**	49	4.1
Transactions in securities	**216**	239	(9.6)
Financial product distribution fees	**36**	42	(14.3)
Management, operation and trusteeship for institutional investors	**49**	54	(9.3)
Credit processing	**14**	17	(17.6)
Conversion differentials	**71**	71	-
Foreign trade activity	**30**	28	7.1
Fees from financing transactions	**38**	38	-
Other Fees	**28**	31	(9.7)
Total Fees	**656**	701	(6.4)
Other income	**54**	9	
Total Fees and other income	**710**	710	-

Fees totaled to NIS 656 million, compared with NIS 701 million in the same period last year.
NIS 34 million of the decrease is explained by decline in the activity in the capital market due to the decrease in the volume of activity in the capital markets.

Other income totaled NIS 54 million, compared with NIS 9 million in the same period last year, an increase stemming mainly from the share of the Bank in the proceed of the sale of Visa Europe shares to Visa Inc. due the Bank being a Principal Member in Visa Europe (see note 17 to the financial statements) and from gain from the realization of buildings.

Operating and other expenses totaled NIS 1,356 million compared with NIS 1,324 million in the same period last year, an increase of 2.4%. Offseting these one-time effects, detailed bellow, operating and other expenses declined in the amount of NIS 65 million (4.7%).

Salaries and related expenses totaled NIS 839 million compared with NIS 786 million in the same period last tear, an increase of 6.7% explained mainly from a one-time decline in the salaries and related expenses in the amount of NIS 72 million in the same period last year deriving by the implementation of the special collective agreement and from a one time provision in the amount of NIS 25 million for the gradual closure of operations in the framework of efficiency moves. Offseting this effect, a decrease of NIS 44 million (5.1%) occurred deriving from, among other things, reduction in the number of employees in the group and from the coversion of jubillee grants (see note 16 to the financial statements).

Expenses on depreciation and maintenance of premises and equipment totaled NIS 205 million, compared to NIS 213 million in the same period last year, a decrease of 3.8%. The decrease stems from efficiency moves including the merger and closure of branches.

Amortizations of intangible assets totaled NIS 62 million compared with NIS 68 million in the same period last year. Amortization of the excess of cost of the acquisition attributed to customer relations which was included in this item amounted to NIS 22 million, similar to the same period last year. Since amortization of the excess of cost of the acquisition is not a recognized expense for tax purposes, it has the effect of reducing net earnings by the full amount of the amortization.

The provision for taxes on operating earnings amounted to NIS 212 million compared with NIS 178 million in the same period last year. The effective tax rate as a proportion of earnings before taxes amounted to 46.5%, compared with the statutory rate of tax of 35.9%.

Set out bellow is the reasons effecting the effective tax rate:

- On January 4 the plenum of the Knesset approved the law amending the Income Tax Ordinance (amendment No. 216), 2016, which stipulated, among other things, the decline in the corporate tax starting with 2016 and onwards in a rate of 1.5%, that the rate will be 25%. In light of the said chanje in legislation, the statutorical tax rate as from 2016 is 35.89%. The effect of the change is a one-time increase in the tax expenses in the amount of NIS 16 million.
- A one-time expense in the reporting of deffered taxes liability in the amount of NIS 21 million in respect of temporary differences steming from previous years profits.
- Unrecognized expenses, mainly the amortization of intangible assets.

The Bank's share in the operating earnings of investee company after the tax effect amounted to NIS 59 million, compare to NIS 18 million in the same period last year. Most of the increase is explained by the share of the investee company in the proceeds of the sale of Visa Europe (see note 17 to the financial statements).

The total comprehensive profit attributed to the shareholders of the Bank amounted to NIS 260 million. This amount was affected by the net profit for the period attributed to the shareholders of the Bank of NIS 281 million, by adjustments in respect of available-for-sale securities in an amount of NIS 21 million, and by other comprehensive loss in respect of employee benefits of NIS 42 million, deriving mainly by the decline in the discount rate on the actuarial liabilities.

COMPOSITION AND DEVELOPMENT OF ASSETS, LIABILITIES, CAPITAL AND CAPITAL ADEQUACY

The consolidated balance sheet as of June 30, 2016 amounted to NIS 127,307 million compared with NIS 121,424 million as of June 30, 2015 and NIS 125,476 million as of December 31, 2015, an increase of 4.8% and 1.5%, respectively.

Total	**1,271**	1,555

* Including NIS 356 million guaranteed by the Israel Government (31.12.15 - NIS 354 million).

Set out below is the composition of the foreign-currency bond portfolio at the Bank Group:

- **Non asset-backed bonds denominated in or linked to foreign currency**-amounting to NIS 6,162 million (Dollar 1,602 million) (includes foreign corporations amounting to NIS 1,615 million, foreign currency denominated bonds of Israeli corporations, mostly traded abroad, amounting to NIS 202 million, foreign currency denominated Israel Government bonds amounting to NIS 2,274 million and foreign government bonds amounting to NIS 2,071 million). All of the foreign bonds are investment grade and 92% of the portfolio is rated A or higher; 16% of the exposure is to leading banking and financial institutions in OECD countries. This portfolio is diversified, in a manner whereby exposure to any single issuer does not exceed 3% of the total foreign currency bond portfolio. The duration (average term-to-maturity) of the foreign currency bond portfolio is 2.5 years. The balance of unrealized gross losses (included in shareholders' equity under reconciliations to fair value in respect of the presentation of securities available for sale) as of the report date in respect of this portfolio amounted to NIS 10 million (Dollar 3 million) compared with NIS 20 million (Dollar 5 million) on December 31, 2015.
- **Mortgage Backed Securities (MBS)** - amount to NIS 433 million (Dollar 113 million).
  The bonds were issued by federal agencies in the USA. Of these, NIS 423 million (Dollar 110 million) were issued by Ginnie Mae, which is wholly owned by the US government. The balance of NIS 10 million (Dollar 3 million) was issued by the US federal agencies Fannie Mae and Freddie Mac.
  Set out below is a sensitivity analysis as of June 30, 2016 of the effect of changes in the interest rate on the rate of early repayments and the fair value of the MBS portfolio (including economic hedging of interest rate swaps):

	Change in rate of early repayments	Change in fair value
	Percentage points	Dollar million
Increase of 100 base points	**(14.8)**	**(0.06)**
Decrease of 100 base points	**15.6**	**(1.19)**

  The credit risk inherent in the portfolio is managed by economic hedging.

- **Private equity funds -** investments in private equity funds amounted to NIS 115 million (Dollar 29 million). The balance of Commitments to invest in private equity funds amounted to NIS 65 million as of June 30, 2016.

The balance of gains, net (before the tax effect), included in other cumulative comprehensive profit, in respect of the difference between the fair value of securities included in the available-for-sale portfolio and their amortized cost, as of June 30, 2016, amounted to NIS 3 million.

Cash and deposits with banks on June 30, 2016 totaled NIS 30,635 million compared with NIS 30,727 million at the end of 2015, a decrease of 0.3%

Deposits from the public on June 30, 2016 totaled NIS 105,316 million compared with NIS 103,262 million at the end of 2015, an increase of 2.0%.

Securities portfolios belonging to customers of the Bank Group

The total of the securities portfolios of customers of the Bank Group as of June 30, 2016, amounted to NIS 239 billion, as compared to NIS 246 billion at the end of 2015.

Bonds and deferred debt notes amounted at June 30, 2016 to NIS 5,693 million, as compared with NIS 5,862 million at December 31, 2015, a decrease of 2.9%.

On June 26, 2016 the First International Issuance Ltd, a wholy owned subsidiary of the Bank, issued on public issuance, subordinated capital notes with mechanism of loss absorbance, for the proceeds of NIS 580 million. The proceeds of the issuance was deposited at the Bank. The Bank is obligated to fulfill the conditions of the issued subordinated capital notes (see note 8f. to the financial statements).

CAPITAL AND CAPITAL ADEQUACY

The capital attributed to the shareholders of the Bank amounted on June 30, 2016 to NIS 7,339 million, as compared with NIS 7,073 million on December 31, 2015, an increase of 3.8%.
For detailes regarding the development of the other comprehensive profit, see the Chapter "Material developments in income, expenditure and in other comprehensive profit".

CAPITAL ADEQUACY

Minimum capital ratios

Bank of Israel issued on May 30, 2013 an amendment to Proper Conduct of Banking Business Directives Nos. 201-205, 208, 211 and 299, in the matter of "Measurement and capital adequacy", which adopt the Basel 3 instructions. The initial implementation was set to January 1, 2014, and the implementation will be gradual in accordance to the transitional instructions in Proper Conduct of Banking Business Directive No. 299 "Measurement and capital adequacy– supervisory capital – transitional instructions". In accordance with these instructions, the minimum capital targets are as follows:

1. The ratio of Tier I equity capital to weighted average risk assets should be no less than 9% by January 1, 2015. A banking corporation, the total consolidated stated assets of which equals or exceeds 20% of total stated assets of the banking sector as a whole, shall have to attain a minimum Tier I equity capital ratio of 10% by January 1, 2017. This additional instruction does not apply to the Bank.
2. The ratio of comprehensive capital to average risk assets should be no less than 12.5% by January 1, 2015. A banking corporation, the total consolidated stated assets of which equals or exceeds 20% of total stated assets of the banking sector as a whole, shall have to attain a minimum capital ratio of 13.5% by January 1, 2017. This additional instruction does not apply to the Bank.

An additional instruction was published by the Supervisor of Banks on September 28, 2014. According to this instruction and to the transitional instructions for the year 2014, an additional capital requirement was added as from January 1, 2015, to the minimum capital ratios at a rate reflecting 1% of the outstanding balance of housing loans at the reporting date, so that the minimum ratio of Tier I equity capital required by the Supervisor of Banks as of June 30, 2016, shall not be lass than 9.17%, and the minimum ratio of the comprehensive capital shall no be less than 12.67%. This requirement is applied gradually over eight quarters until January 1, 2017.

Within the framewotk of the ICAAP process, the Board of Directors has set minimum capital goals in relation to Tier I equity capital and to the comprehensive capital, to apply in regular business situations and in stress situations. These capital goals have, inter alia, been determined in view of that stated above and in view of the ICAAP findings relating to the data as of June 30, 2015. The minimum capital goals are as follows:

- In a regular business situation - the ratio of Tier I equity capital shall be no less than 9.30%, and the ratio of the comprehensive capital, which is determined gradually, shall be no less than 12.70% by June 30, 2016, and no less than 12.73% by December 31, 2016.
- In stress situations - the ratio of Tier I equity capital shall not be less than 6.50%, and the ratio of comprehensive capital shall not be less than 9.00%.

In accordance with the transitional instructions, the supervisory adjustments and the deduction from capital as well as the minority rights, which are not qualified for inclusion in the supervisory capital, shall be gradually deducted from the capital at the rate of 20% per annum, beginning on January 1, 2014 and until January 1, 2018. Capital instruments, which are no longer qualified as supervisory capital, shall be recognized, up to the maximum of 80%, on January 1, 2014, and in each consecutive year, this maximum would be reduced by 10% until January 1, 2022. As of January 1, 2016, the rate of deductions from the regulatory capital amounts to 60%, and the maximum rate of instruments qualified as supervisory capital amounts to 60%.

Operational efficiency

On January 12, 2016 Bank of Israel letter was circulated in respect of operational efficiency of the banking system in Israel. According to the letter, the board of directors of banking entity will outline a multi-year efficiency plan. Banking entity which will fulfill the condition stipulated in the letter will receive a relief according to which it will be able to spread the effect of the plan in a straight line period of five years. The Bank is preparing to build an efficiency plan as requested.

Implementation of the instructions

As stated above, in accordance with Bank of Israel instructions, the Bank started to implement the Basel 3 instructions as from January 1, 2014.

Pillar I –the Bank is implementing the standard approach in accordance with Bank of Israel instructions.

Pillar II – the Bank is required to conduct an internal process for the assessment of capital adequacy (the ICAAP process). This process is designed to ensure the maintenance of an adequate level of capital means supporting the overall risks inherent in the operations of the Bank. The ICAAP document relating to the data as of June 30, 2015, has been dully submitted to bank of Israel. The infrastructure for the capital adequacy, as approved by the Bank, serves as a basis for the internal process conducted at each of the banking subsidiaries, subject to required adjustments, and on the basis of the specific risk profile of each subsidiry. The subsidiary companies had conducted the ICAAP process in relation to the June 30, 2014 data, and have started to conduct the process in relation to the December 31, 2015 data.

			As of
		30.6.16	**31.12.15**
1.	**Capital for calculation of capital ratio, after deduction and supervisory adjustments**		
	Tier 1 capital, after deductions and supervisory adjustments	**7,580**	7,349
	Tier 2 capital	**2,798**	2,580
	Total capital	**10,378**	9,929
2.	**Weighted balances of risk assets**		
	Credit risk	**69,017**	67,766
	Market risk	**874**	995
	Operational risk	**6,149**	6,141
	Total weighted balances of risk assets	**76,040**	74,902
3.	**Ratio of capital to risk assets**		
	Raito of tier 1 equity capital to risk assets	**9.97%**	9.81%
	Total ratio of capital to risk assets	**13.65%**	13.26%
	Minimal ratio of equity capital tier 1 required by the Supervisor of banks	**9.17%**	9.10%
	Minimal ratio of capital required by the Supervisor of Banks	**12.67%**	12.60%

The Tier I equity capital ratio as of June 30, 2016, amounted to 9.97%, in comparison with 9.81% on December 31, 2015. The ratio of comprehensive capital to risk components as of June 30, 2016, amounted to 13.65%, in comparison with 13.26% on December 31, 2015. The comprehensive capital as of June 30, 2016 amounted to

NIS 10,378 million, in comparison with NIS 9,929 million on December 31, 2015. The increase in the capital base stemmed mostly from an issuance of subordinated capital notes with loss absorbtion mechanism through principal delete in the amount of NIS 580 million and the profits for the period in the amount of NIS 281 million. This increase was partly offset by reduction of NIS 349 million in instruments issued by the Bank qualified for inclusion in the supervisory capital. Risk assets as of June 30, 2016 amounted to NIS 76,040 million as compared with NIS 74,902 million on December 31, 2015.

The comprehensive capital ratios and the Tier I equity capital ratios of the significant subsidiaries, in accordance with the "framework for measurement and capital adequacy" of Basel, are:

	June 30, 2016	December 31, 2015
		In percent
Significant subsidiaries		
Bank Otsar Hahayal Ltd.		
Ratio of Tier 1 capital to risk assets	**10.90**	9.83
Ratio of overall capital to risk assets	**14.08**	13.25
Bank Massad Ltd.		
Ratio of Tier 1 capital to risk assets	**13.62**	13.76
Ratio of overall capital to risk assets	**14.83**	15.01

Leverage ratio in accordance with instructions of the Supervisor of Banks - On April 28, 2015, the Supervisor of Banks published Proper Conduct of Banking Business Directive No. 218 in the matter of leverage ratio. The leverage ratio is expressed in percentages and is defined as the ratio between capital measurement and exposure measurement. Capital for the purpose of measuring the leverage ratio is the Tier I equity capital, as defined in Proper Conduct of Banking Business Directive No. 202, taking into consideration the prescribed transitional arrangements. In accordance with the Directive, a banking corporation should attain a leverage ratio of no less than 5% on a consolidated basis. A banking corporation, the total consolidated stated assets of which equals or exceeds 20% of total stated assets of the banking sector as a whole, should attain a leverage ratio of no less than 6%. In accordance with the above, the minimum leverage ratio required from the Bank is 5%. The minimum leverage ratio for a banking corporation applies as from January 1, 2018 and thereafter. The leverage ratio of the Bank at June 30, 2016, amounts to 5.49%.

DIVIDEND DISTRIBUTION POLICY

On June 9, 2015, the Bank Board of Directors resolved to update the dividend distribution policy of the Bank. According to the updated dividend distribution policy, the Bank will distribute annual dividends of up to 50% of its distributable annual net earnings, subject to the Bank's ratio of capital to risk elements being no less than the target specified by the Bank's Board of Directors from time to time. Such distributions will be made subject to legislative provisions and to Proper Conduct of Banking Business Regulations, providing that no adverse changes occur in the Bank's earnings and/or business and/or financial position and/or the overall state of the economy and/or the legal environment.

This resolution is not to be construed as detracting from the Board of Directors' authority to review policy from time to time and to resolve at any time, after taking due account of business considerations and of the legislative provisions applying to the Bank, changes in policy or the rate of dividend to be distributed for a specific period, or to resolve not to distribute any dividend at all.

It is clarified that any dividend distribution shall be subject to specific approval by the Board of Directors and to all the restrictions applying to the Bank regarding dividend distribution, and shall be made public with all required details in accordance with the law.

It should be noted that in addition to the provisions of the Companies Law, dividend distribution by the Bank is subject to additional restrictions that are detailed in Note 33.g. to the financial statements of 2015.

SUPERVISORY SEGMENTS OF OPERATIONS

A. General

According to the letter of the Supervisor of Banks dated November 7, 2014, requires that, as from the financial report for the year 2015, the report on segments of operation would be in accordance with the format and classifications determined in the public reporting instructions of the Supervisor of Banks.

The supervisory segments of operations were defined by the Bank of Israel in an amendment to the directive based on the characteristics of their customers, such as operation character (regarding private customers) or commercial turnover (regarding commercial customers).

B. Definitions and characteristic of the supervisory segments of operations

- **Private banking segment** - private individuals the balance of their financial asset portfolio exceeds NIS 3 million.
- **Households** - private individualsthe balance of their financial asset portfolio is less than NIS 3 million.
- **Minute business** - a business the turnover of which is less than NIS 10 million.
- **Small business** - a business the turnover of which is higher then or equals NIS 10 million, and is less than NIS 50 million.
- **Middle-market business** - a business the turnover of which is higher then or equals NIS 50 million, and is less than NIS 250 million.
- **Large business** - a business the turnover of which is higher then or equals NIS 250 million.

Where the income turnover of business customer does not represents its volume of activity, the activity of the business customer was classified according to the said below: where the total indebtness of the business customer is equal to or exceeds NIS 100 million, the customer was classified to large business segment.

According to the transition directive set in the FAQ file of the Bank of Israel, it was determined that business customer, which is indebtness to the bank is up to NIS 300 thousands (including credit facilities etc.) and the bank does not have information regarding its activity turnover, will be classified to the relevant supervisory segment of activity according to the total assets in the balance sheet of the business, and in the event that this information is also unavailable, the bank is entitled to classify the customer according to its total financial assets at the bank (including financial deposits, securities portfolio and other financial assets), where instead of total balance sheet assets the classification will be according to total financial assets after multiplying them by 10.

- **Financial management segment** - shall include the following activities: trading activity - investment in securities for trading, market making activity in securities and in derivative instruments, activity involving derivative instruments not intended for hedging and do not form part of the asset and liability management of the banking corporation, buyback transactions and the lending of securities for trading, the short-sale of securities, securities underwriting services; asset and liability management activity - including investment in available-for-sale bonds and in bonds held to maturity, which are not allocated to other segments of operation (where the borrower has no indebtedness to the Bank except for securities), derivative instruments intended for hedging and derivative instruments being part of the asset and liability management, deposits with banks and from banks in Israel and abroad, deposits with governments and from governments; non-financial investment activity - investment in available-for-sale shares and in equity base business corporations; other - management, operating, trusteeship and safe-deposit services for banks, consulting services, sale and management of credit portfolio activities, and development of financial products activity.

- **Other segment** - including discontinued operations, profits from funds and other results related to employee rights not allocated to other segments of operation, activities not allocated to other segments, and adjustments between total items allocated to the segments and the total items stated in the consolidated financial statements.
- **Managed assets** - including assets of provident funds, mutual funds, further education funds, customer securities, loans managed by the bank and assets stemming from operations based on the extent of collection of loans.

The following is a summary of the results of activity by segments:

a. Total income*

PRIVATE INDIVIDUALS – HOUSEHOLDS AND PRIVATE BANKING – ACTIVITY IN ISRAEL

Principal changes in result of activity in the first half of 2016 compared with the same period last year

The net profit attributed to the shareholders of the Bank in respect of the private individuals segment, which includes households and private banking, amounted to NIS 6 million compared with a loss of NIS 17 million in the corresponding period last year. The growth in profits stems mainly from an increase in income, which was partly offset by an increase in operating expenses, stemming from a decrease in payroll expenses in the corresponding period last year as a result of the implementation of the special collective labor agreement.

Total net interest income amounted to NIS 482+ million, as compared with NIS 378 million in the corresponding period last year. This increase is partly explained by the growth in credit balances and partly by interest recognized in respect of prior years.

Non-interest income amounted to NIS 314 million, in comparison with NIS 349 million in the corresponding period last year. Most of the decrease in this income is explained by a reduction in capital market activity stemming from a decline in the scope of operation.

Operating and other expenses amounted to NIS 746 million, as compared to NIS 728 million in the corresponding period last year, a growth stemming from the increase in payroll expenses, as explained above.

Credit to the public as of June 30, 2016 amounted to NIS 38,986 million, in comparison with NIS 35,967 million on June 30, 2015.

Deposits from the public as of June 30, 2016 amounted to NIS 52,020 million, in comparison with NIS 45,748 million on June 30, 2015.

SMALL AND MINUTE BUSINESSES, MEDIUM SIZED AND LARGE BUSINESSES - ACTIVITY IN ISRAEL

Principal changes in result of activity in the first half of 2016 compared with the same period last year

The net profit attributed to the shareholders of the Bank in respect of the small and minute, medium sized and large businesses, amounted to NIS 126 million, in comparison with NIS 147 million in the corresponding period last year. The decrease in profits is explained by the increase in operating expenses stemming from the reduction in payroll expenses in the corresponding period last year as a result of implementation of the special collective agreement.

Total net interest income amounted to NIS 467 million, as compared with NIS 461 million in the corresponding period last year.

Non-interest income amounted to NIS 257 million, in comparison with NIS 262 million in the corresponding period last year.

Operating and other expenses amounted to NIS 472 million, compared with NIS 451 million in the coresponding period last year, a growth stemming from the increase in payroll expenses, as a result of implementation of the special collective agreement.

Credit to the public as of June 30, 2016 amounted to NIS 36,898 million, in comparison with NIS 34,008 million on June 30, 2015.

Deposits from the public as of June 30, 2016 amounted to NIS 31,503 million, in comparison with NIS 28,643 million on June 30, 2015.

FINANCIAL MANAGEMENT SEGMENT

Principal changes in result of activity in the first half of 2016 compared with the same period last year

Total income attributed to this segment amounted to NIS 194 million compared with NIS 185 million in the same period in 2015.

The net earnings of the Financial Management Segment amounted to NIS 142 million compared with NIS 87 million in the same period in 2015. The increase in earnings is attributed to an increase in the Bank's share in the profit of investee company due to its share in the proceeds of the Visa Europe sale transaction (see note 17 to the financial statements).

PRINCIPAL INVESTEE COMPANIES

INVESTEE COMPANIES IN ISRAEL

The Bank's investments in investee companies in Israel totaled NIS 2,350 million on June 30, 2016, compared with NIS 2,765 million on December 31, 2015, a decrease of 15.0%. The decrease in investments of the Bank in investee companies in Israel stems from the merger of PAGI, a wholly owned subsidiary, with and into the Bank.

The Bank's share in the net earnings of investee companies in Israel amounted to NIS 101 million compared with NIS 62 million in the same period last year. The increase is explained by the share of ICC in the proceeds of the sale of Visa Europe transaction.

Bank Otsar Hahayal (hereinafter - "Otsar Hahayal") - in which the Bank holds 78.0% of the share capital and voting rights, is a commercial bank that operates via 47 branches and sub-branches.

The Bank's investment in Otsar Hahayal amounted to NIS 1,226 million on June 30, 2016. Total assets of Otsar Hahayal on June 30, 2016 amounted to NIS 20,155 million compared with NIS 19,172 million on December 31, 2015, an increase of 5.1%. Shareholders' equity of Otsar Hahayal on June 30, 2016 amounted to NIS 1,219 million compared with NIS 1,165 million on December 31, 2015, an increase of 4.6%.

Net earnings of Otsar Hahayal amounted to NIS 53.9 million compared with NIS 36.0 million in the same period last year, an increase of 49.7%. The increase is mainly explained by increase in interest income derived mainly from interest income in respect of previous years partially offset by decline in gain from realization of securities and from an increase in the provision for credit losses, as a result of a gap in the effect of changes in the coefficients of the group provision. The Bank's share of Otsar Hahayal's results, net of amortization of excess of cost of the acquisition, amounted to NIS 25.1 million compared with NIS 11.0 million in the same period last year.

The unamortized balance of the excess of cost of the acquisition of Otsar Hahayal amounted to NIS 7 million on June 30, 2016.

Net return on equity amounted to 9.3% compared with 6.5% in the same period last year.

The ratio of capital to risk assets in accordance with the Proper Conduct of Banking Business Regulations concerning capital measurement and capital adequacy (Basel) amounted to 14.08% compared with 13.25% at the end of 2015. The Tier 1 equity capital ratio amounted to 10.90% compared with 9.83% at the end of 2015.

On April 2016, The Board of Directors of Otsar Hahayal resolved after discussion of the ICAAP document regarding the evaluation of the capital adequacy, that during 2016 the overall capital ratio of Otsar Hahayal will not be less than 12.5%, and that the Tier 1 equity capital ratio will not be less than 9.3%.

Bank Massad Ltd. (hereinafter - "Massad") - in which the Bank owns 51.0% of share capital, is a commercial bank which operates a network of 22 branches and sub-branches.
The Bank's investment in Massad amounted to NIS 301 million on June 30, 2016. Total assets of Massad on June 30, 2016 amounted to NIS 6,890 million compared with NIS 6,421 million on December 31, 2015, an increase of 7.3%. Shareholders' equity of Massad on June 30, 2016, totaled NIS 560 million compared with NIS 538 million on December 31, 2015, an increase of 4.1%.
Net earnings of Massad totaled NIS 20.2 million compared with NIS 18.6 million in the same period last year, an increase of 8.6%.
The Bank's share in Massad's operating results, net of amortization of excess of cost of the acquisition, amounted to NIS 6.0 million compared with NIS 5.1 million in the same period last year.
The unamortized balance of the excess of cost of the acquisition of Massad amounted to NIS 15 million on June 30, 2016.
Net return on equity amounted to 7.5% similar to the same period last year. The ratio of capital to risk assets calculated in accordance with the Proper Conduct of Banking Business Regulations concerning capital measurement and capital adequacy (Basel), amounted to 14.83%, compared with 15.01% at the end of 2015. The Tier 1 capital ratio amounted to 13.62% similar to the end of 2015.
As part of the ICCAP process for December 31, 2015 data and in line with the definition of capital targets, the Tier 1 equity capital ratio will be no less than 10.5% until December 31, 2018 and the overall capital ratio was set gradualy at no less than 13.25% until December 31, 2018.

Israel Credit Cards Ltd. ("ICC") - The Bank holds 28.2% of equity and 21.0% of voting rights in ICC.
ICC markets and issues credit cards and settles credit card transactions of the international Visa brand, markets and operates Diners credit cards on an exclusive basis in Israel, and also markets to an only limited extent MasterCard credit cards.
The Bank's investment in ICC amounted to NIS 505 million on June 30, 2016.
The ratio of capital to risk assets on June 30, 2016, calculated in accordance with the Proper Conduct of Banking Business Regulations concerning capital measurement and capital adequacy (Basel), amounted to 16.4%, compared to 15.4% at the end of 2015.
The Bank's share in the net earnings of ICC before the tax effect amounted to NIS 67.0 million compared with NIS 20.0 million in the same period last year, an increase of 235%. Most of the increase is explained by ICC's share in the proceeds in the sale of Visa Europe transaction.
On November 2, 2015, VISA Inc. (Hereinafter – "VISA Inc.") and VISA Europe Ltd. (hereinafter – "VISA Europe") announced the entry into an agreement, by which VISA Inc. will acquire VISA Europe (hereinafter- "the transaction" from the principal members holdings its shares.
On June 21, 2016, after consumation of obtaining regulatory approvals, the proceed of the transaction was received, including immediate proceed in cash of Euro 71 million. A future proceed of Euro 6 million is expected in the terms set out in the agreement. In addition, ICC received prefferal shares blocked for a period of 4 to 12 years, convertible to Visa Inc. shares, which value at the date of the transaction is estimated at Euro 26 million (naive value). It is clarified that the convertible ratio of the preffered shares may decrease in the future, in specific conditions.

The proceed of the transaction was distributed between ICC (68% of the proceed) Discount bank and the Bank, all in the position of Principal Members in Visa Europe.

The distribution is carried out and will be carried out according to agreed mechanism. The distribution mechanism was approved by the competant organism of the parties.

ICC acknowledged an income of NIS 262 million in this quarter regarding the transaction.

According to a preliminary estimation of ICC, on the base of the facts known today, the purchase of VISA Europe by VISA Inc, when it is consumated, is not anticipated to effect the relationship between VISA organization and ICC, except for the ownership in Visa Europe.

See note 9 regarding motions for approval of class actions against ICC, a motion for approval of a derivative lawsuit against officers and functionaries officiating at ICC during the relevant period, and a notice received by ICC from the State Prosecution informing of the intention of the Prosecution to serve an indictment against ICC.

On April 20, 2015 the Supervisor of Banks notified ICC, that in light of the notice from the State Prosecution as above and the "letter of suspicions" attached to it, he instruct ICC not to distribute dividends until the end of the procedure, clarification of its results and its implementation on ICC financial situation.

In its report for the first half of 2016, ICC reported as set out below:

In the second half of 2009 and the beginning of 2010, ICC faced claims made by VISA Europe and International MasterCard Organization (hereinafter – "the international organizations") regarding alleged violations of the rules of these international organizations with respect to the clearing of international electronic trade, applying to transactions cleared by a subsidiary of ICC – ICC International – since then merged with and into ICC. In this respect, fines have been imposed on ICC and its activity in this field has been restricted for a period of several months. In this framework VISA Europe Organization has informed ICC International that it expects ICC International to take vigorous and strict action with respect to treating these violations and the implementing of a plan for the reduction of risk, to which it is committed, within a period of time allotted for this purpose, or else, the withdrawal of its international clearing license may be considered, and in extreme circumstances, also the termination of its membership of the Organization. ICC has taken immediate action for the implementation of the risk reduction plan in order to comply with the demands of the intenational organizations. The plan adopted various measures, including changes in the Management of ICC, conducting advanced monitoring procedures for the enforcement of compliance requirements, various organizational changes and more. ICC has also adopted measures for compliance with the rules of VISA Europe and MasterCard in addition to terminating business relations with several trading houses, which had caused most of the exposure. At a later stage, ICC has also terminated the international electronic trading activity (extensive information regarding this matter was disclosed by ICC in the annual reports for 2009 and 2010).

In view of the action taken by ICC, VISA Europe informed ICC in a letter dated March 15, 2010, that it had noted the progress made by ICC in complying with the rules of the organization and that it permits ICC to reestablish relations with new trading houses.

In an additional letter dated January 17, 2011, the VISA Europe Organization reiterated its satisfaction regarding the action taken by ICC, and informed ICC that it has removed all restrictions on the international clearing activity of ICC forthwith.

In a letter dated July 21, 2010, MasterCard informed ICC that it is aware of all the direct efforts and clarifications made by it and of all actions taken by ICC to rectify the deficiencies found in its operations, and that it appreciates the responsibility demonstrated by ICC, inter alia, the efforts made vis-à-vis trading houses in the rectification of deficienies. MasterCard further informed, inter alia, that in view of the measures adopted by ICC, past operations performed by ICC during the period of the previous Management, would not be examined, and examinations that had been started in this respect would be terminated.

Several trading houses and coordinators have raised claims regarding monetary sanctions that had been charged to them and regarding the reduction in international electronic trade clearing operations relating to them, which, as alleged by them, had caused them heavy damage.

OVERSEAS SUBSIDIARY

FIBI Bank (Switzerland) Ltd. - is a wholly owned banking subsidiary of the Bank, operating in Zurich. The company's principal area of specialization is private banking and capital market activity.

The activity of this subsidiary is regulated by the Swiss FINMA (Financial Market Supervisory Authority) by means of an external CPA office that audits the company and serves as the long arm of the Swiss regulator. The Bank's investment in FIBI Bank (Switzerland) amounted to NIS 242 million on June 30, 2016. Total assets of FIBI Bank (Switzerland) on June 30, 2016 amounted to CHF 266 million compared to CHF 296 million as of December 31, 2015 a decrease of 10.1%. Total customer assets under management on June 30, 2016 amounted to CHF 875 million compared with CHF 916 million on December 31, 2015.

Net loss amounted to CHF 219 thousand compared with a loss of CHF 45 thousand in the same period last year.

REVIEW OF RISKS

REVIEW OF RISKS

This chapter was written in great detail in the financial statements for 2015. Therefore it should be read together with the chapter of the risk review published in the financial statements for 2015.

General

a. The Group's activity is accompanied by exposure to risks, the most significant of which are: credit risk (including concentration of economy segments and borrowers), market risk, for which the main risk is the interest risk (cross system risk), liquidity risk, operational risk and compliance risk and AML risk. Members of the Board of Management are responsible for management of these risks. With respect to credit risk, market risk and operational risk, a regulatory requirement for capital adequacy in accordance with the Pillar 1 Basel directives exists. With respect to Pillar 1 risks and other risks, the Group makes an additional capital allocation in accordance with Basel Pillar 2-ICAAP (Internal Capital Adequacy Assessment Process).

b. The Group's risk management policy is directed at achieving the strategic and business objectives defined by the Group and at increasing its earnings expectancy by developing areas of specialization at the Group, exploiting economies of diversity and scale, keeping to the levels of risk which have been approved, and by operating suitable management, control and reporting mechanisms.

c. The overall risk perceptive of the Group is in line with the regulatory framework set by the Supervisor of Banks and in line with the Sound Practices of the Basel Committee, based on the principal that every banking activity involving risk, the following will be defined and characterized: risk policy and apetite, limitations for bordering and defining the volume of exposure, control and auditing circles, reporting arrangement and earnings estimation mechanism, its measurement and reporting according to acceptable standard.

d. Risk management and control at the Group are implemented by means of a suitable infrastructure of control, supervision, review and auditing mechanisms, and are applied via three lines of defense: The first line of defense consists of those responsible for the creation and management of risk. The second line is maintained by units of the Risk Management Division and by means of independent control. The third line consists of the internal and external auditing functions.

e. Chief Risk Manager and member of Management incharge of the risk management division- Mr. Bentzi Adiri CPA.

f. Those responsible for risk management at the Group are:

   Mr. Ilan Batzri CPA, Head of the Business Division-serves as Credit Risk Manager and Settlement Risk Manager;

   Mr. Avi Sterenshous- head of the financial sub-division- serves as financial risk manager.

   Nachman Nitzan, CPA- head of the chief accounting division- reputation risk manager;

   Bentzi Adiri CPA- operational risk manager, supervisor of the internal enforcement and manager of business continuity.

   Mr. Yaacov Konortov- compliance and AML risk manager;

   Yossi Levi- head of resources division- Strategic risk manager;

   Amnon Beck- CEO of MATAF- IT risk manager;

   Mr. Yehoshua Peleg, manager of cyber defence and information security- cyber risks manager;

Adv. Dalia Belnek, Chief Legal Counsel-Legal Risk Manager.

g. Additional risks to which the Bank is exposed- regulatory and legislative risks - are managed and supervised as part of overall business management members of the Board of Management and department heads in the areas for which they are responsible.

h. Risk management is carried out at each banking subsidiary in the Group separately, in accordance with the policy determined by the subsidiary's board of directors on the basis of Group policy, and on the basis of Group risk management methodology with an emphasis on the special nature of each subsidiary's activity. In accordance with the Supervisor of Banks' directive on "the Chief Risk Manager and the risk management function," a Chief Risk Manager was appointed at each banking subsidiary, subordinate to the subsidiary's CEO and guided professionally by the Bank's Chief Risk Manager.

i. Every quarter, the Risk Management Division, which is independent of the risk-taking units, compiles a risks document which is presented to the Management of the Bank, the Risk Management Committee and the Board of Directors of the Bank.

j. The risks document contains an examination of all the risks to which the Bank Group is exposed in the course of its activity, with details of the findings at the specific risk level as well as the results of stress scenarios that were conducted.

   Presented in the document is the Chief Risk Manager's review of the risk management situation at the group and of the effectiveness and the quality of the risk management. Also reviewed in the document are developments in the business environment and in the financial markets, and the measures taken by the division with respect to the main process involved with the different types of risks and special action which the division took during the relevant quarter.

k. In addition, the Bank applies stress scenarios for reviewing capital adequacy. In this respect, the Bank also examines stress scenarios in the area of interest risks (as well as scenarios combining the materialization of interest risks and several other risks simultaneously). Here, the Bank examines the effect of the materialization of risk on the capital base and the ratio of capital to risk assets. The scenarios which the Bank operates include sensitivity tests, historic scenarios, hypothetical scenarios and macro-economics scenarios. The scenarios infrastructure includes various scenarios, amongst them global holistic scenario, domestic holistic scenario and reverse scenario.

   The results and significance of the scenarios are reported once a quarter to the Management, the Risk Management Committee and the Board of Directors.

l. The management risks division challenges the working plan of the Bank in order to support its propriety by performing stress tests. Stress tests are conducted on the planed working paln and it is tested if the group conforms with the capital targets that were set up under stress tests.

For discussion of the risk appetite and risk management principles, see reference in the description of principal risks, published in the annual financial statements of the Bank for 2015.

For detailed information regarding risk, provided in accordance with the disclosure requirements of Pillar III of Basel, and addtional information regarding risk - see sub-chapter "addtional supervisory disclosure in the Chapter "Financial information" on the Internet website of the Bank.

CREDIT RISK

Significant exposures to borrower groups

As of June 30, 2016 there is no borrower group which its indebtness on consolidated basis, after deductions of permissible deduction according to section 5 of directive 313, exceeds 15% of the bank's capital, calculated according to to directive of Proper Conduct of Banking Business regulation concerning measurement and capital adequacy.

Credit quality and problematic credit risk

Problematic credit risk, including off-balance-sheet components, totaled NIS 1,850 million compared with NIS 2,219 million at the end of 2015, a decrease of 16.6%

The ratio of problematic credit risk to total credit risk at the group amounted to 1.6% at the end of June 2016, compared with 2.0% at the end of 2015. 18.8% of problematic credit risk at the group are attributed to the manufacturing sector, 16.8% to the real estate sector, 27.2% to the private customers sector including housing loans, 26.4% to the commerce sector, and 2.4% to the communications and computer services sector. The ratio of problematic credit risk to total credit to the public amounted to 2.0%, compared with 2.4% at the end of 2015.

Counter-party credit risk management

Present credit exposure to counter-parties that are foreign financial institutions

Most of the Bank Group's credit exposure to foreign financial institutions is to banks, mainly the banking systems in Western Europe and North America. The exposure to other financial institutions is negligible.

Present credit exposure to foreign financial institutions,(1) consolidated

External credit rating	As of June 30, 2016			As of December 31, 2015

Of which: Balance of problem loans (4)	**-**	**-**	**-**	-	-	-

* Restated

NOTES:

(1) Foreign financial institutions include: banks, investment banks, brokers/dealers, insurance companies, institutional investors and entities under their control.

(2) Deposits at banks, credit to the public, investments in bonds, securities that have been lent and other assets in respect of derivative instruments. As of June 30, 2016 the investment in shares in respect of foreign financial institutions amounted to NIS 54 million (December 31, 2015, NIS 47 million).

(3) Mainly guarantees and liabilities for the granting of credit, including guarantees for securing third-party indebtedness.

(4) Credit risk that is impaired, inferior or under special supervision.

(5) For the purpose of rating the financial institutions, the Bank used the ratings that were determined for the purpose of applying the Basel standardized approach. The Bank uses the rating of S&P for rating the foreign financial institutions to which credit exposure exists. When no S&P rating is available, the Bank uses the ratings of other rating agencies.

GENERAL NOTES:

a. Credit positions and problematic loans balances are presented after deduction of the provision for credit losses.

b. The credit positions do not include exposures to financial institutions that have an explicit and full government guarantee, and do not include investments in asset-backed securities.

c. For further information regarding the composition of credit positions in respect of derivative instruments against banks and (local and foreign) dealers/brokers, see Note 10 to the financial statements. Off-balance-sheet credit risk in respect of transactions in derivative financial instruments which were conducted with foreign financial institutions as calculated for the purpose of borrower indebtedness restrictions totaled NIS 298 million on June 30, 2016 (December 31, 2015 - NIS 308 million).

The conservative risk appetite defined by the Board of Directors of the Bank is reflected by the distribution of the exposure of credit to financial institutions that are almost entirely graded at high ratings.
The Group also manages counter-party positions by means of netting agreements, which significantly reduce the risk to the Group's income and capital in situations of repayment default by these institutions.
Most of the Group's present credit exposure (87%) is attributed to leading financial institutions in OECD countries, which are graded AAA to A-, and 33% of the total exposure is rated in the range between AAA to AA-.

The Group's balance-sheet credit exposure to foreign financial institutions includes an NIS 1.0 billion investment in foreign currency bonds. All these bonds are investment grade bonds, 77% of which are rated A- or higher. The average duration of the portfolio is two years.
In addition, balance-sheet credit risk includes NIS 2.7 billion of deposits placed with foreign banks, mainly for a short period of a day to a week.

Following credit exposure to in which the credit exposure to sovereigns of the Bank group exceeding 15% of the Bank's equity capital, which amounted to NIS 1,557 million (as defined in Proper Conduct of Banking Business Regulation No. 202 concerning capital components).

Country	**Overall credit exposure**
	NIS million
USA	1,725

Exposure to foreign countries

Balance-sheet exposure to foreign countries consists of deposits, bonds, credit to the public and the fair value of financial instruments.

Off-balance-sheet exposure consists of guarantees, off-balance-sheet credit risk with respect to financial derivatives and unutilized facilities.

The Bank holds inter alia NIS 80 million of Italian government bond rated BBB- and due for redemption in 2017. The interest payments on the bond are being paid as required.

A. Information regarding total exposures to foreign countries(1) and exposures to countries where total exposure to each country is greater than 1% of total assets or greater than 20% of capital, whichever is lower (5)

Risks in the Housing loans portfolio

Mortgage activity at the Bank Group

Exclusive of refinancing transactions, the Bank extended mortgages to the public at an overall amount of NIS 2,416 million in the first half of 2016 compared with NIS 2,706 million in the same period last year, a decrease of 10.7%. These data include housing loans from the Bank's own sources (excluding credit from Treasury funds) in the amount of NIS 2,415 million compared with NIS 2,704 million in the same period last year, a decrease of 10.7%. Rollovers deriving from early repayments in the first half of 2016, totaled NIS 240 million compared with NIS 811 million in the same period last year, a decrease of 70.4%.

The Group's credit policy in the area of mortgage activity

In view of the risk to which the Israeli banking system is exposed in its mortgage activity, developments in the housing loan market and the Supervisor of Banks' directives, the Bank adopts a conservative credit policy that is approved by the Board of Directors of the Bank and that is examined yearly. This conservative approach is reflected by an examination of LTV, the repayments as a percentage of the borrower's debt-to-income ratio and the ability to maintain current repayments in interest rate adjustment scenarios. In addition, restrictions are applied on loan size per single borrower. When examining applications for large loans, the Bank ensures that information on "warning signs" is obtained from the BDI system. The Bank adopts a particularly cautious approach to properties notable for a complex registration situation, taking due account of the quality of the customer and the LTV.

When granting credit to purchase groups, the Bank focuses on groups that are building in demand areas. The Supervisor of Banks' directives concerning purchase groups are fully applied at the Bank. Apart from conducting current examinations, the Bank holds a quarterly discussion on all purchase groups' portfolios, examines the projects in question, and ascertains whether an allowance for credit losses is necessary with respect to the purchase groups, over and above the individual risk of each member of the groups.

The Bank ensures that each transaction is priced in accordance with the risk involved and the capital retention required by means of advanced yield calculation tools.

The Bank performs monthly control on the development of risks charechteristics, among them: LTV, income-debt ratio, loan purpose etc.

Loan to value

One of the main parameters used by the Bank in examining the risk in the housing loan portfolio is the loan to value ratio (LTV). The LTV is calculated in accordance with the Banking Supervision Division's Directive No. 876-"Report on housing loans," and is the ratio between the amount of credit and the value of the assets serving as collateral on the date at the time the loan is approved. It should be noted that in itself, a rise in the value of the property does not constitute an event for the purpose of re-calculating the LTV. However, when additional credit secured by the same property is granted, the LTV can be calculated on the basis of a revised value appraisal.

The portfolio of housing loans extended from the Bank's sources on June 30, 2016 amounted to NIS 21,070 million, including 70% of credit granted at an LTV of up to 60% compared to 69% at June 30, 2015. 95% of total loans were granted at an LTV of up to 75%, compared to 93% on June 30, 2015.

Housing loan extensions from the Bank's sources in the first half of 2016 totaled NIS 2,415 million, including 69% of credit granted at an LTV of up to 60%, compared with 70% in the same period last year. All loan extensions were granted at an LTV of up to 75%, similar to the same period last year.

Debt-income ratio

Another key parameter used by the Bank in examining the risk in the housing loan portfolio is the debt-income ratio. This ratio enables the Bank to assess a borrower's ability to maintain current loan repayments in an orderly manner from the borrower's regular income at the date of the extension of the loan.

The portfolio of housing loans extended from the Bank's sources as of June 30, 2016 included 78% of credit granted at a debt-income ratio of up to 35% compared with 77% on June 30, 2015. 90% of the credit was extended to borrowers on the basis of a debt-income ratio of up to 50%, compared with 88% on June 30, 2015.

Housing loan extensions from the Bank's sources in the first half of 2016 included 84% of credit granted at a debt-income ratio of up to 35% compared with 83% in the same period last year. 92% of the credit was extended to borrowers on the basis of a debt-income ratio of up to 50% similar to the same period last year. This information includes loans secured by residential apartments.

Floating-rate loans

The portfolio of housing loans from the Bank's sources as of June 30, 2016 includes 63% of credit that was granted at floating-rate interest and amounts to NIS 13,426 million.

Housing loan extensions from the Bank's sources in the first half of 2016 include NIS 764 million of credit granted at floating-rate interest of up to five years constituting 32% of extentions. An amount of NIS 482 million (20% of the extensions) is floating-rate credit five years and above.

Long-term loans

The portfolio of housing loans from the Bank's sources as of June 30, 2016 includes 65% of credit whose redemption period as of the report date is up to 20 years and amounts to NIS 13,677 million.

Housing loan extensions from the Bank's sources in the first half of 2016 include 51% of credit whose redemption period as of the report date is up to 20 years and amounts to NIS 1,229 million.

Amendment of Proper Conduct of Banking Business Regulation No. 329- restriction on housing loans extensions

On May 1, 2016 the Supervisor of Banks published an amendment to Proper conduct of banking business regulation no. 329- restrictions on housing loans extensions. The amendment includes the addition of reference to "appartment at reduced price" such as "target price" and "resident price" and the determination of rules for calculating the asset value in a loan for the purchase of an appartment in a reduced price (base on apraisor evaluation instead of the purchase price for appartments the value of which is less than NIS 1.8 million).

Changes in the assitence rules for entitled individuals with no appartment according to amendment no. 13 to housing loans law

Staring with May 15, 2016 the mechanism for determining the interest was changed, the threshhold of the minimal points for entitlement was reduced, a change in the repayment period was made and new settelements grants were determined.

Set out below are data on the development of the housing loan portfolio at the Bank alone by linkage segments (excluding credit from Treasury funds and after deduction of the allowance for credit losses)

Leveraged Finance

In accordance with Bank of Israel Directive No. 327, which took effect on January 1, 2016, the Bank has revised the definition of leveraged finance. As a general rule, Leveraged finance is defined as credit used for the finance of capital transactions made by corporations (as defined in Bank of Israel Directive No. 323), which agrees with certain tests, and credit granted to borrowers characterized by high financial leverage levels. In particular, the Bank considers leveraged finance as credit included in one of the following groups:

A. Credit granted for the purpose of a capital transaction, as defined in Bank of Israel Directive No. 323 (the acquisition of another corporation, the purchase of own shares by a corporation and the distribution of capital), which agrees with certain tests regarding the scope of credit, the ratio of financing involved therein and the scope of tangible security as determined by the Bank.

B. Credit for different business transactions, which agrees with certain tests indicating weak financial data, as determined by the Bank.

C. Credit for the financing of income producing real estate, which agrees with certain tests as to the scope of credit, the ratio of financing involved therein and the scope of tangible security as determined by the Bank.

D. Credit for the purpose of closed finance building projects, which agrees with certain tests as to the scope of credit, the ratio of financing involved therein and the scope of tangible security and the possible exposure of the Bank to this transaction as determined by the Bank.

In view of the high risk profile involved in leveraged finance, the credit policy of the Bank prescribes strict underwriting guidelines and restrictions on the scope of exposure to leveraged finance.

As of June 30, 2016, the total combined credit balances (net stated credit and off-balance sheet credit, after deducting provisions for credit losses and deductible collateral) considered as leveraged finance, amounted to NIS 1,353 million.

MARKET RISK

Methodology for the estimation of exposure to market risk

The Bank manages and controls exposure to market risks by means of a number of generally accepted models and tools which include VaR calculations and the operation of stress tests.

Risk appetite

The Bank Board of Directors has determined that total exposure to market risk, as reflected by the Value at Risk (VaR), shall not exceed 5% of total capital on the basis of a horizon of 21 days under the historical method.
As of June 30, 2016 the Group's historical VaR amounted to NIS 24 million.
The VaR as percentage of total capital, as of June 30, 2016, amounted to 0.3%.

Back Testing

The Bank consistently operates to improve the quality of the prediction of the historical VaR by current back testing.
The back testing of the historical VaR shows that during the year ended June 30, 2016 no incidents were recorded where the daily theoretical loss exceeds the VaR value anticipated**.**

According to the test the model meets the criteria as defined by the Basel Committee.

Interest exposure

Risk appetite

- The Board of Directors of the Bank has determined restrictions on the overall exposure to interest risk by limiting the maximum exposure to the erosion in the fair value of equity capital resulting from a parallel change of 1% in the interest rate curve in the CPI-linked segment, in the non-linked shekel segment and in the foreign currency segment. Under these restrictions, the maximum permitted exposure to erosion in the fair value of equity capital is 3.5% in the CPI-linked segment, 3.5% in the non-linked shekel segment and 2% in the foreign currency segment. The restriction on the overall exposure is 4.5%.
- Apart from determining restrictions on the overall risk appetite for exposure interest risks at the level of fair value exposure, the Board of Directors of the Bank has determined restrictions on the extent of interest exposure at the level of the dealing rooms and the interest-risk generating units.
- Stress scenarios- The Board of Directors of the Bank has determined a restriction on the maximum erosion in fair value in respect of the running of a number of stress scenarios in the area of exposure to market risks-including interest risks as well as restriction on the effect of interest standard crisis (2%) on the banking portfolio. This restriction has been set at up to 10% of shareholders' equity.

Actual exposure on the report date

Interest risk is measured on the basis of assumptions regarding the redemption times of assets and liabilities.
Non-interest bearing current accounts have credit balances at a stable amount over time. The Bank determined that the redemption period of the stable current accounts will be for several years. The effect of the early repayment of CPI-linked housing loans is also taken into account in risk management.

Set out below is a description of the sensitivity of the Group's capital to parallel changes in the interest rate curve- the theoretical change in economic value resulting from a parallel increase of 1% in the interest curve:

	June 30, 2016		December 31, 2015	
	% actual exposure	% restriction	% actual exposure	% restriction
Non-linked local currency	**(0.25)**	**(3.50)**	(0.24)	(3.50)
CPI-linked local currency	**(1.21)**	**(3.50)**	(1.69)	(4.00)
Foreign currency and foreign-currency linked	**(0.39)**	**(2.00)**	(0.74)	(1.00)

Analysis of sensitivity to the effect of exposure to interest rate adjustments based on the fair value of financial instruments

Set out below is information on assets and liabilities that are exposed to changes in interest rates on the basis of their fair value, including a sensitivity analysis of the effect of theoretical changes in the interest rate on the fair value of financial instruments, excluding non monetary items, according to accounting rules:

Set out below are details of the effect of changes in the interest rate on the fair value of the asset surplus in the segment:

1. The fair value of the financial instruments of the Bank and its consolidated companies, with the exception of non-monetary items (before the effect of theoretical changes in interest rates):

As of June 30, 2016	Local currency		Foreign currency (2)			
	Non-linked	CPI-linked	Dollar	Euro	Other	Total
						NIS million

Notes:
- Further details regarding the exposure to changes in interest rates in each segment of the financial assets and financial liabilities, according to the different balance-sheet items, will be provided upon request.
- In this table, data by period reflect the present value of future cash flows of each financial instrument, discounted by the interest rate used for deduction to the fair value, in consistency with the assumptions used to calculate the fair value of the financial instrument. For further details regarding the assumptions used in the calculation of the fair value of the financial instruments, see Note 15.A. to the Financial Statments.
- The internal return rate is the interest rate for the deduction of the expected cash flows from the financial instrument to the fair value included in respect thereof.
- The effective average duration of a group of financial instruments constitutes an approximation of the change, in precent, in the fair value of the group of financial instruments which whould be caused by a small change (an increase of 0.1%) in the internal return rate of each of the financial instruments.

(1) Excluding balance-sheet balances of derivative instruments, fair value of off-balance sheet financial instruments and hybrid financial instruments.
(2) Average weighted by fair value of effective average duration.
(3) Including shares stated in the column "with no repayment period".
(4) Including Israeli currency linked to foreign currency.
(5) First application of new accounting standards and directives of the supervisor of banks. See note 1.D.4 to the financial statements.

Basis exposure

Actual basis exposure

Set out below is a description of the actual exposure of active capital, at the Group level, compared with the Board of Directors' restrictions (NIS millions):

	Actual exposure		% of active capital		Approved exposure limit as % of active capital
	As of		As of		
	30.6.16	**31.12.15**	**30.6.16**	**31.12.15**	
Non-linked local currency	**5,240**	5,290	**90**	96	NON
CPI-linked local currency	**611**	197	**11**	4	(30)-60
Foreign currency and f-C linked	**(42)**	(10)	**(1)**	-	(10)-10

NOTES:

(1) The negative rates express a surplus of liabilities over assets as a percentage of active capital.

(2) The Bank adopts an economic approach in the management of basis risk and reconciliations are made taking into account the economic nature. In its current management, the Bank takes into account the lack of reconciliation that sometimes arises between the accounting exposure and the economic exposure in order to hedge the reported accounting profit.

Sensitivity of capital to changes in the exchange rate

The Bank operates in the currency markets by means of spot transactions, forward transactions and options on its own behalf and on behalf of its customers. The Bank operates using global negotiable currencies, and the total net currency exposure for the Group is low.

Most of the activity in derivative financial instruments is carried in the currency derivatives Shekel/Dollar for the Bank's customers. The Bank is not exposued in its derivative activity to material currency risks.

Set out below is the sensitivity of the Bank's capital to theoretical changes in the exchange rates of the principal currencies as of June 30, 2016 (NIS millions).

The measurement refers to the effect of changes on capital and includes activity in balance-sheet and off-balance-sheet instruments:

Percentage change in exchange rate	Dollar	Euro
5% decrease	**(2)**	**5**
10% decrease	**-**	**11**
5% increase	**11**	**4**
10% increase	**26**	**17**

NOTES:

(1) This effect is calculated in accordance with the expected change in the economic positions managed in different currencies, given the scenarios that were determined by the Supervisor of Banks.

(2) An increase implies a strengthening of the currency in question against the shekel.

(3) The data express the effects of changes in exchange rates on fair value after the tax effect.

(4) Changes in the exchange rates of other currencies have a negligible effect on the Bank's earnings.

Management of risks in derivative financial instruments

Dealing rooms

The Bank's dealing rooms are intended for diverse capital market and foreign currency activities. The foreign currency dealing room trades in a wide variety of financial instruments, and is one of the most active dealing rooms in the banking system in derivative instruments as well, including market making in currencies and government bonds. The Bank engages inter alia in MAOF activity on the stock exchange.

The exposure created in the base and in the interest rate as a result of this activity is included within the restrictions approved by the Board of Directors for base and interest exposures.

Set out below is the volume of activity in derivative financial instruments (nominal value NIS millions):

	As of June 30,	As of December 31,
	2016	2015
Hedging transactions:		
Interest rate contracts	**2,794**	2,350
Foreign currency contracts	**402**	402
ALM and other transactions:		
Interest rate contracts	**18,413**	16,924
Foreign currency contracts (including spot)	**73,784**	79,112
Contracts on shares, share indexes, commodities and other contracts	**75,657**	105,192
Total derivative financial instruments	**171,050**	203,980

LIQUIDITY AND FINANCING RISK

For information regarding liquidity coverage ratio (LCR) see note 8 to the financial statements.

Liquidity position and the composition of assets and liabilities

The liquidity assets at the group, which includes cash, deposits at the Bank of Israel, deposits at banks and liquid securities, amounted to NIS 43.2 billion on June 30, 2016, compared with NIS 43.3 billion at the end of 2015. Of this amount, the balance of cash, deposits with the Bank of Israel and deposits with banks accounted for NIS 30.6 billion, and NIS 12.6 billion were invested in securities, principally Israel government bonds.

The ratio of deposits from the public to credit to the public on June 30, 2016 amounted to 138.4% compared with 142.3% on December 31, 2015.

At the end of June 2016, deposits from the public, bonds and subordinated notes totaled NIS 111.0 billion compared with NIS 109.1 billion at the end of 2015.

The composition of the assets and liabilities of the Bank shows high liquidity. This, as a result of the policy to raise deversified and stable funds, while emphsizing on raising sources for medium and long periods from deversified customers sectors and in different currencies.

The Bank monitors the volume and concentration of the sources according to different criteria, such as: size, duration on a current basis and sets goals and restrictions to the volume of the large deposits and the mix of the sources.

The Bank operates in derivatives and is required for securities in the different clearing houses in respect of this activity. The requirement for securities has low effect on the level of liquidity and the liquidity coverage ratio of the group.

During the reported period actions were taken to meet higher coverage ratios than required in the Proper Conduct of Banking Business Regulations 221 and 342.

Balance of deposits from the public of the three largest depositors in the Group:

	As of June 30, 2016	As of December 31, 2015
		NIS million
1.	**2,784**	3,369
2.	**2,626**	3,742
3.	**2,131**	1,921

For detailed information regarding risk, provided in accordance with the disclosure requirements of Pillar III of Basel, and addtional information regarding risk - see sub-chapter "addtional supervisory disclosure in the Chapter "Financial information" on the Internet website of the Bank.

DISCUSSION OF RISK FACTORS

There were no changes in the risk factors table compared with the table reported on the financial statements of 2015, except for legislation and regulation risk for which the level rose from "low-medium" to "medium", in light of the continuance of the strengthening of the regulation, its volume and frequency for all concerning the banking system, including core issues of the system and the needed preparations for implementation of the regulation.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES, CONTROLS AND PROCEDURES

General

The estimates and assessments regarding critical accounting policy matters were made in accordance with the best knowledge and judgment of the professional entities engaged in their preparation, and that they were applied in an appropriate manner in the financial statements of the Bank.

A review of the significant areas, which in the opinion of the Bank Management consist critical accounting policies, are detailed in the Director's report for the annaual financial statements for 2015 and no change has occurred.

CONTROLS AND PROCEDURES

ASSESSMENT OF CONTROLS AND PROCEDURES CONCERNING DISCLOSURE IN THE FINANCIAL REPORT

In accordance with the Supervisor of Banks' directives for reporting to the public and the guidelines of Proper Conduct of Banking Business Regulation 309 that was issued in September 2008, the Bank has for a number of years maintained controls and procedures regarding disclosure, and has deployed an internal control network for financial reporting which was first applied in the financial report for the year ending December 31, 2008.

The directives, which concern Management's responsibility on the internal control of financial reporting and the external auditor's statement of opinion regarding the audit of the internal control of financial reporting, were compiled in accordance with the provisions of Sections 302 and 404 of the law known as the Sarbanes-Oxley Act of 2002 that was enacted in the USA, and directives and guidelines that were determined in the USA, including those determined by the PCAOB.

Enclosed with the financial statements are declarations by the CEO of the Bank and the Chief Accountant, each one separately, concerning the assessment of controls and procedures in the matter of disclosure.

The Management of the Bank, in cooperation with the CEO of the Bank and the Chief Accountant, assessed for June 30, 2016 the effectiveness of the controls and procedures in the matter of disclosure by the Bank. On the basis of this assessment, the CEO of the Bank and the Chief Accountant concluded that as at the end of this report period, the controls and procedures in the matter of disclosure by the Bank were effective for the purpose of recording, processing, summarizing and reporting the information which the Bank is required to disclose in the report in accordance with the Supervisor of Banks' directives for reporting to the public, and at the time determined in those directives.

During the second quarter ending on June 30, 2016, no change occurred in the Bank's internal control over financial reporting which exerted a material effect, or which can reasonably be expected to exert a material effect on the Bank's internal control over financial reporting except for the modification of controls with respect to the merger of PAGI with and into the Bank.

Tel Aviv, August 15, 2016	R. Hezkiyahu Chairman of the Board of Directors	Smadar Barber-Zadik CEO

CERTIFICATION

I, Smadar Barber-Tsadik, declare that:

1. I have reviewed the quarterly report of the First International Bank of Israel Ltd. (hereinafter: "the Bank") for the quarter ended June 30, 2016 (hereinafter: "the Report").
2. Based on my knowledge, the Report contains no incorrect presentation of a material fact, and there is no presentation of a material fact missing from the Report that is necessary so that the presentations included therein, in light of the circumstances under which such presentations were included, are not misleading with regard to the period covered by the Report.
3. Based on my knowledge, the financial statements and other financial information included on the Report correctly reflect the financial condition, results of operations, changes in shareholders' equity, and cash flows of the Bank, in all material aspects, for the dates and periods covered in the Report.
4. I, and others at the Bank making this declaration, are responsible for the establishment and application of controls and procedures with regard to the Bank's disclosure(1) and internal control of financial reporting(1). furthermore:
   - A. We have established such controls and procedures, or caused such controls and procedures to be established under our supervision, aimed at ensuring that material information pertaining to the Bank, including its consolidated corporations, is brought to our knowledge by others at the Bank and at such corporations, in particular during the preparation of the Report.
   - B. We have established such internal controls of financial reporting or caused such internal control of financial reporting to be established under our supervision, intended to provide a reasonable degree of confidence with regard to the reliability of the financial reporting, and that the financial reports for external purposes are prepared in accordance with generally accepted accounting principles and with the directives and guidelines of the Supervisor of Banks.
   - C. We have assessed the effectiveness of the controls and procedures concerning disclosure at the Bank, and we have presented our findings with regard to the effectiveness of the controls and procedures concerning disclosure, as at the end of the period covered in the Report, based on our assessment; and
   - D. We have disclosed in the Report any change in the internal control of financial reporting at the Bank that occurred during the fourth quarter, and that had a material effect, or could reasonbly be expected to have a material effect, on the internal control of financial reporting at the Bank; and
5. I, and others at the Bank making this declaration, have disclosed to the auditor, to the Board of Directors, and to the Audit Committee of the Board of Directors of the Bank, based on our most current assessment of the internal control of financial reporting;
   - A. Any significant deficiencies or material weaknesses in the establishment or application of internal control of financial reporting that can reasonably be expected to impair the Bank's ability to record, process, summarize, or report financial information; and
   - B. Any fraud, whether material or immaterial, in which the Board of Management was involved, or in which other employees were involved who have significant role in the internal control of financial reporting at the Bank.

The aforesaid shall not detract from my responsibility, or from the responsibility of any other person, under any law.

(1) As defined in the public reporting directives concerning the "board of Directors' report".

AUDITORS' REPORT TO THE SHAREHOLDERS' OF THE FIRST INTERNATIONAL BANK OF ISRAEL LTD.

Introduction

We have reviewed the accompanying financial information of The First International Bank of Israel Ltd. And its subsidiaries (hereinafter- "the Bank"), comprising of the condensed consolidated interim balance sheet as of June 30, 2016 and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the three months and six months period then ended. The Board of directors and Management are responsible for the preparation and presentation of this interim financial information in accordance with generally accepted accounting principles in Israel (Israeli GAAP) for interim accounting and in accordance with the directives and guidelines of the Supervisor of Banks. Our responsibility is to express a conclusion on this interim financial information based on our review.

We did not review the interim financial information of a consolidated company which its assets included in the consolidated assets amounted to 0.7% of total consolidated assets as of June 30, 2016, and the net interest income amounted to 0.5% of total consolidated net interest income included in the consolidated statement of income for the period of three months and six months then ended. The interim financial information of that company was reviewed by other auditors which their review report was presented to us and our conclusion, as it relate to the financial information of that company, is based on the review report of the other auditors.

Scope of Review

We conducted our review in accordance with Standard on Review Engagements 1, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" of the Institute of Certified Public Accountants in Israel and a review standard applied in the review of banking institutions according to the directives and guidelines of the Supervisor of Banks. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in Israel and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying financial information was not prepared, in all material respect, in accordance with generally accepted accounting principles in Israel (Israeli GAAP) for interim accounting and in accordance with the directives and guidelines of the Supervisor of Banks.

As explained in Note 1A, the accompanying financial statements represent a translation into English from the original financial statements in Hebrew.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - PRINCIPAL ACCOUNTING POLICIES

A. General

The first International bank of Israel Ltd. (hereinafter - "the Bank") is an Israeli corporation. The condensed consolidated interim financial statements of the Bank as of June 30, 2016 include those of the Bank and of its subsidiary companies (hereinafter – "the Group") as well as the rights of the Group in equity basis investees. The condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in Israel ("Israeli GAAP") and in accordance with directives and guidelines of the Supervisor of Banks, and they do not include all the information required in full annual financial statements. The condensed statements should be read together with the financial statements as of and for the year ended December 31, 2015 (hereinafter – "the Annual Report").

The accounting policy of the Group applied in these condensed consolidated interim financial statements, is the same policy applied in the Annual Report, with the exception of that stated in subsection "D" below.

In accordance with the guidelines of the Supervisor of Banks, the Bank publishes only the condensed consolidated financial statements. The condensed consolidated interim financial statements were approved by the Board of Directors for publication on August 15, 2016.

The accompanying financial statements represent a translation into English from the original financial statements in Hebrew.

B. Financial reporting principles

The financial statements of he Bank are prepared in accordance with accepted accounting principles in Israel (Israeli GAAP) and in accordance with the public reporting instructions and guidelines of the Supervisor of Banks. In most matters, these directives are based on accounting principles accepted by US banks. In other matters, which are less material, the directives are based on international financial reporting standards (IFRS) and on accepted accounting principles in Israel (Israeli GAAP). Where the international financial reporting standards (IFRS) allow several alternatives, or do not include specific reference to a certain situation, these instructions set specific implementation guidelines, based mainly on accounting principles accepted by US banks.

C. Use of estimates

Preparation of financial statements in accordance with generally accepted accounting principles in Israel (Israeli GAAP) and the directives and guidelines of the Supervisor of Banks requires Management to use judgment, make estimates and assumptions which affect the implementation of the accounting policy and the reported amounts of assets and liabilities and the amounts of income and expenses. It should be noted that actual results may differ from these estimates.

Upon the formation of accounting estimates used in the preparation of the financial statements of the Bank, Management is required to make assumptions as to circumstances and events which involve significant uncertainty. When using judgment in determining the assessments, Management of the Bank relies upon past experience, various facts, outside factors and upon reasonable assumptions in accordance with the circumstances applying to each assessment.

The assessments as well as the assumptions supporting them are being reviewed on a current basis. Changes in accounting assessments are recognized in the period in which these changes occur as well as in all future periods affected by them.

D. Initial implementation of accounting standards, updates of accounting standards and instructions of the Supervisor of Banks

Starting with the periods beginning on January 1, 2016, the Bank implements new accounting standards and instructions regarding the matters detailed below:

1. Reporting in accordance with US accepted accounting principles in the matter of business combinations, consolidation of financial statements and investment in investee companies.
2. Reporting in accordance with US accepted accounting principles in the matter of intangible assets.
3. Supervisory segments of operation and segment reporting according to Management's approach.
4. Problematic debts secured by state guarantee.
5. Collective provision for credit losses.

Following is a description of the substance of the changes made to the accounting policy applied in these condensed consolidated interim financial statements, and a description of the manner and effect of the initial implementation, if at all:

1. Reporting according to US accepted accounting principles in the matter of business combinations, consolidation of financial statements and investment in investee companies:

   On June 10, 2015, a circular letter was published in the matter of banking corporations and credit card companies in Israel in accordance with US generally accepted accounting principles in the matter of business combinations, consolidation of financial statements and investments in investee companies. In accordance with the letter, it is required to implement the US accepted accounting principles regarding these matters, as detailed below:

   - Presentation, measurement and disclosure principles determined in the provisions of Item 805 of the Codification regarding "business combinations";
   - Provisions of Item 810 of the Codification regarding "consolidation";
   - Provisions of Item 350-20 regarding 'intangible assets – goodwill and other assets" with respect to the accounting treatment of impairment of goodwill acquired in a buainess combination;
   - Accounting principles accepted by US banks in the matter of investee companies, including, presentation, measurement disclosure rules, as well as the guidelines relating to impairment determined by the provisions of Item 323 of the Codification in the matter of "investments – equity basis value and joint ventures";
   - The treatment determined in Section 74 B(b) of the public reporting instructions with respect to non-current assets held for sale according to IFRS 5, shall not apply to ivestments in equity base investees.

   The instruction determined by the circular letter took effect as from January 1, 2016, onwards. Upon their initial implementation it is required to act in accordance with the transitional instructions applying to these matters according to the US standards, mutatis mutandis, including the retroactive restatement of the comparative data where required by the US standards in these matters.The instructions in the matter of "push down accounting" shall apply to busuiness combinations effected as from January 1, 2016.

Following is a review of the principal new instructions applying to the implementation of the US standards in the matter of the equity basis method:

- Measurement – The entity has the option of treating the investment in investee companies at fair value instead of by the equity basis method;
- Decline in the rate of holdings – upon a decline in the rate of holdings, whether or not the holding company has lost its material influence, a profit or loss is to be recognized in the amount of the difference between the proceeds of sale and relative part of the written down cost of the sold interest.

  Upon the loss of material influence, the remaining interest in the investee shall be presented according to the stated value of the investment prior to the sale.
- Impairment – As a general rule, the amount of impairment equals the excess of the written down cost of the investment over its fair value. A recognized other than temporary impairment shall not be reversed in future periods.
- Losses – According to US standards, in general, the investor has to terminate the equity basis method following the recognition of losses on the investment leading to its elimination. In consecutive periods, the investor has to reapply the equity basis method only after having made good the unrecognized losses on the investment. Notwithstanding, the investor has to recognize an additional loss where the investee's return to profitability is ensured.
- Uniform accounting policy – US standards do not require the investor and the investee to apply a uniform accounting policy, though both have to implement US GAAP.

Following ia a review of the principal new instructions regarding the the US standards rules in the matter of consolidation of financial statements:

- Uniform accounting policy - US standards do not require the parent company and the subsidiary companies to apply a uniform accounting policy, though preparation of the financial statements of the group must be in accordance with US GAAP.
- Non-controlling interests – As a general rule, the purchaser has to measure non-controlling rights according to their fair value. Non-controlling interests are classified as capital but are presented separately from the capital attributed to the parent company. Notwithstanding, to the extent that the non-controlling interests may be redeemed in circumstances which are not controlled by the issuer, the rules of the SEC require to present the non-controlling interests separately from the equity capital. As to changes in the rate of holdings which do not cause the loss of control, and whereas the non-controlling interests must be measured according to fair value, then goodwill must always be allocated between the parent company and the non-controlling interests.

Following is a review of the principal new instructions applying to the implementation of the US standards in the matter of business combinations:

- Allocation of goodwill created by business combination for the purpose of review of impairment – Goodwill is allocated to the entity's reporting units in accordance with the provisions of ASC 350-20. As a general rule, a reporting unit is defined as a segment of operation or as one level below it. For impairment purposes, goodwill shall be reviewed at least once in each year, or in shorter periods than one year if circumstances occur indicating impairment.

- Review of impairment of goodwill – When impairment of goodwill is being reviewed, qualitative considerations have to be applied at first in order to assess whether it is required to perform the two stage test of impairment (the two stage test may be directly performed). In the event that the entity considers that the fair value of the reporting unit is more likely than not lower than its stated value, it is required to perform the two stage test of impairment.

  Stage one – The stated value of the reporting unit including goodwill is to be compared with its fair value. In the event that the fair value of the reporting unit is lower than its stated value, then stage two has to be performed in order to determine the amount of impairement to be recognized in respect of goodwill.

  Stage two – Impairment of goodwill shall be measured according to the amount in excess of the stated value (of the goodwill) over the difference between the fair value of the reporting unit and the fair value of the assets and liabilities included in the reporting unit ("implied fair value").

  A loss in excess of the stated value of goodwill shall not be recognized.

- Push down accounting - Companies may apply the push down accounting method in their standalone financial statements, namely, the acquired company may make adjustments to fair value and recognize them in the financial statements.

  The Bank treated the above instructions by way of retroactive application. Implementation of the letter had no material impact on the financial statements.

2. Reporting in accordance with US accepted accounting principles in the matter of intangible assets:

   A circular letter was published on October 22, 2015, in the matter of the reporting by banking corporations and credit card companies in Israel according to US accepted accounting principles in the matter of intangible assets. The letter requires the application of accounting principles accepted by US banks in the matter of intangible assets, and among other things, the presentation, measurement and disclosure rules stated in the provisions of Item 350 of the Codification regarding "intangible assets - goodwill and other". In particular, according to the letter, a banking corporation is required to apply the rules detailed in Item 350-40 of the Codification regarding "software for own use".

   Banks are required to implement the instructions as determined in the letter, as from January 1, 2016 and thereafter. Upon the initial implementation, it is required to act in accordance with the transitional instructions stated in the US Standards with respect to these matters, with the necessary modifications. The above stated includes an amendment to the data relating to prior periods, if this is required with respect to these issues.

   Following is a review of the principal new instructions applying to the implementation of the US standards in the matter of intangible assets:

   - Impairment

     Intangible assets having a defined lifespan – An intagible asset shall be reviewed when indications for impairement appear at "asset group" level. An asset group is the smallest level of assets and liabilities producing a separate cash flow.

     At first, an examination is made as to whether the stated value of the asset group is higher than the nondiscounted amount of cash flows expected to be produced by this group. If so, impairment shall be recognized in the amount of the difference between the stated value and the fair value of the asset group.

Impairment shall be allocated pro-rata only to the assets composing the asset group, on condition that the value of a single asset shall not fall below its fair value.

Intangible assets having no defined lifespan – An intangible asset having no defined lifespan, shall be reviewed for impairment at least once in each year. A test is made as to whether the stated value of the asset exceeds its fair value. If so, impairment shall be recognized in the amount in which the stated value exceeds the fair value.

A qualitative test (known also as "0 stage") may first be applied. Where the qualitative test leads to the conclusion that more likely than not, the fair value of the intagible asset is higher than its stated value, than there is no need for a quantitative test for impairment as described above.

- Reversal of loss on impairment – as a general rule, a loss on impairment of intangible assets may not be reversed.
- Capitalization of costs of an intangible asset – as a general rule, costs incurred in the creation of an intangible asset are recognized as an expense when incurred. However, specific rules are in effect regarding certain cases, such as costs for the development of software for own use, as described below.
- Capitalization of software development costs for own use – costs incurred in the development stage of software for own use may be capitalized on condition that Management is committed to finance the project, and that it is expected that the project would be completed and the software will serve its purpose. It is noted, that already at present, the public reporting instructions in the matter of software development costs for own use are based, among other things, on US Standard SOP 98-1 (included in ASC 350-40).

  Implementation of the letter had no material impact on the financial statements of the Bank.

3. Supervisory segments of operation and segment reporting according to Management approach

A. Supervisory segments of operation

A circular letter was published on November 3, 2014, in the matter of the reporting of operating segments, which revises the public reporting instructions respecting the reporting requirements regarding supervisory segments of operation, and among other things includes the change of certain definitions and guidelines, according to which banks would be required to classify customers to supervisory segments and update their reports in accordance with the uniform definitions determined by the Supervisor of Banks, which are principally based on the classification of customers according the their operating turnover.

B. Segments of operation according to Management approach

In addition to the uniform reporting according to supervisory segments of operation, the circular states that disclosure of "operating segments according to Management approach" shall be presented in accordance with accounting principles accepted by US banks in the matter of segments of operation (included in ASC 280), where a material difference exists between Management approach and segment reporting according to the guidelines of the Supervisor of Banks.

An operating segment according to Management approach, based on ASC 280-10, is a component of a bank engaged in operations expected to produce income and incur expenses, which comply with the following criteria:

- The results of its operations are reviewed regularly by the principal decisionmakers at the bank for the purpose of making decisions as to the allocation of resources and performance evaluation; as well as
- Separate financial information exists in respect thereof.

The reporting of operating segments is in accordance with the approach of Management, while disclosing segments and reporting items as determined by the bank.

The new rules apply in a reduced format as from the financial statements for 2015. Enlarging the report to its full format shall be made in the following manner:

- Starting with the financial report for the first quarter of 2016, full disclosure is required regarding the supervisory segments, which include segments as private banking, households, minute and small businesses, middle-market businesses, large businesses and institutional bodies, excluding the separate disclosure of the financial management segment. The comparative data shall be retroactively restated. It is permitted to present in financial statements in 2016 comparative data for only one year regarding the Note on supervisory segments of operation. For the purpose of presentation of the comparative data, it is permitted to rely on the classification of customers to supervisory segments as of January 1, 2016.
- Starting with the financial statements for the first quarter of 2017, it is required to implement in full the guidelines of the letter.

Implementation of the new instructions had no material impact on the financial statements, except for the manner of presentation and disclosure. Notes 11 and 11A have been modified in order to include the new disclosure, subject to the transitional instructions as detailed above.

4. The Supervisor of Banks stated that, as from July 1, 2015, credit granted within the framework of State funds for the encouragement of small and medium sized businesses which is secured by a State guarantee, measured on a collective basis and is in arrears for a period of between 150 days and two years, shall have an accounting write-off coeficient appropriate to the rate of realization of the guarantee in this period. Following this period, the remaining stated balance of the debt shall be fully written off. The provision in respect of debts secured as above, measured on a specific basis, has been adjusted to the said realization rate. The change in the said accounting policy has been applied retroactively, including restatement of the comparative data.

Following is the effect of the initial application of the guidelines of the Supervisor of Banks in the matter of software costs and the treatment of troubled debts secured by government guarantee:

			As of June 30, 2015
	As previously reported	Effect of retroactive application Troubled debts	As presently reported
Balance sheet items:			NIS millions
Credit to the public	71,449	(26)	71,423
Other assets	1,256	10	1,266
Retained earnings	6,134	(16)	6,118
Equity attributable to shareholders of the Bank	6,982	(16)	6,966

5. Collective provision for credit losses

In accordance with the guideline of the Supervisor of Banks on July 2016, and starting with the second quarter of 2016, it is required to include the rate of accounting writeoffs for the year 2011 in the average and range of the loss rate, used a s a basis for the determination of the collective provision for credit losses. In accordance therewith, determination of the collective provision in the year 2016 is based on the rates of writeoffs in the past six years, and in 2017 on the basis of the accounting wrieoffs in the past seven years.

In accordance with the public reporting instructions, until the first quarter of 2016, determination of the collective provision had been based on the rate of accounting writeoffs in the past five years.

Application of the guideline of the Supervisor of Banks, as stated above, resulted in an increase in credit loss expenses in the amount of NIS 57 million, before the tax effect, which are recognized in profit and loss of the Bank for the second quarter of the year.

E. New accounting standards and new directives of the Supervisor of Banks in the period prior to their implementation

1. Recognition of income from agreements with customers

A circular letter was issued on January 11, 2015, regarding the adoption of the revised accounting principles in the matter of "income from agreements with customers". The letter revises the public reporting instructions in the light of the publication of ASU 2014-09, which adopts a new standard relating to the recognition of income as part of US accepted accounting principles. This Standard states that income shall be recognized in the amount expected to be received in consideration for the delivery of goods or the granting of services to a customer. In accordance with the letter of the Supervisor of Banks regarding the transitional instructions for the year 2015, it is required to implement as from January 1, 2018, the amendments to the public reporting instructions in accordance with the circular letter regarding the adoption of the accounting principles in the matter of "income from agreements with customers", this in consequence of the revised US Standard ASU 2015-14, which deferred the date of initial application.

Upon the initial application, the Bank has the option of using the method of retroactive application with the restatement of the comparative data, or alternatively, using the "from now onwards" method, recognizing in equity at date of initial application, the cumulative effect of the change in accounting. The new Standard does not apply, among other things, to financial instruments or to contractual rights and liabilities to which

Chapter 310 of the Codification applies. Furthermore, it is clarified in Bank of Israel instructions that, as a general rule, the provisions of the new standards shall not apply to the accounting treatment of interest income and expenses and of non-interest financing income.

The Bank has not yet begun to examine the impact of the Standard upon its financial statements, and has not yet elected the method for the implementation of the transitional instructions.

2. Taxes on income

A circular letter was published on October 22, 2015, in the matter of the reporting by banking corporations and credit card companies in Israel according to US accepted accounting principles in the matter of taxes on income. According to the letter, it is required to implement the accounting principals accepted by US banks in the matter of taxes on income, among other, the presentation, measurement and disclosure rules in accordance with Chapter 740 of the Codification regarding "foreign currency issues - taxes on income".

The letter requires the implementation of the new rules as from January 1, 2017. Upon the initial implementation, it is required to act in accordance with the transitional instructions determined in the US standards, including the retroactive restatement of the comparative data, where required. There is no requirement to present in the financial statements for 2017, a disclosure regarding non-recognized tax benefits.

The Bank has begun examining the implications of the letter upon its financial statements.

3. Reporting by banking corporations in Israel in accordance with US accepted accounting principles in the matters of: foreign currency issues; accounting policy, changes in accounting assessments and errors; and events subsequent to balance sheet date

A circular letter was published on March 21, 2016, in the matter of the reporting by banking corporations and credit card companies in Israel in accordance with US generally accepted accounting principles. The circular revises the public reporting instructions and adopts US accepted accounting principles regarding the following matters:

- Accounting principles accepted by US banks regarding Item 830 of the Codification in respect of "foreign currency issues".
- Accounting principles accepted by US banks regarding accounting policy, changes in accounting assessments and errors, including Item 250 of the Codification regarding "changes in accounting policy and correction of errors".
- Accounting principles accepted by US banks regarding events subsequent to balance sheet date, in accordance with Item 855-10 of the Codification regarding "events subsequent to balance sheet date".

The instructions determined in the circular shall apply as from January 1, 2017, and thereafter. Upon the initial implementation, it is required to act in accordance with the transitional instructions regarding these matters determined by the US Standards, with the necessary modifications, including the retroactive restatement of the comparative data, if required by rules of the US Standards in these matters. It is emphasized that when applying the guidelines of Item 830 of the Codification regarding "foreign currency" in reported periods until January 1, 2019, banks shall not include exchange differences in respect of available-for-sale bonds as part of the adjustments to fair value of such bonds, but should continue to treat them as required by the public reporting instructions prior to the adoption of these rules.

Furthermore, the International Accounting Standard 29 regarding "financial reporting in hyper-inflationary economies", as adopted by the public reporting instructions, shall not be implemented as from date of effect of the circular letter. It is clarified that there is no change in the date on which the adjustment to inflation of financial statements of banking corporations had been terminated, and that the financial statements should be stated on the basis of reported amounts, unless stated otherwise in the public reporting instructions.

The Bank has not yet begun to examine the impact of the circular letter upon its financial statements.

4. Letter regarding the amendment to the public reporting instructions in the matter of restructured credit.

A letter was published on May 22, 2016, amending the public reporting instructions by adopting revisions in accepted accounting principles applying to US banks, in the matter of the treatment of credit that had been restructured. In particular, the amendment to the public reporting instructions includes clarifications as regards everything related to the manner of identification of debt arrangements defined as the restructure of a troubled debt, as well as stating terms, upon the existence of which, a following restructure of debts, in respect of which, a restructure of a troubled debt had been executed in the past (hereinafter – "a following restructure") would permit banks to discontinue the treatment of such debts as restructured debts. The instructions determined in the letter adopt the revised US accounting standard (ASU 2011-02) as well as certain guidelines of the US supervisory authorities (OCC).

The principal changes made to the instructions in comparison with those in effect as of now; include, inter alia, the following changes:

- Guidelines have been stated regarding the determination as to whether during the restructuring of a debt the banking corporation has granted a waiver to the debtor.
- Determination of the fact that a renewal of a substandard debt constitutes a restructure of a troubled debt to the extent that the banking corporation does not introduce an additional underwriting process upon renewing a substandard debt, or where there is no change in the pricing of the debt, or where the pricing is not modified to reflect the risk profile of the debt, or to the extent that as part of the arrangement of the debt, the customer does not provide additional collateral in order to compensate the increase in risk stemming from the financial difficulties of the borrower.
- Markings are included in respect of the determination as to whether the borrower is in financial difficulties.
- Terms are included in respect of the discontinuation of the treatment of the debt as a restructured debt. These terms include, inter alia, the following:
  - The execution of a following restructure of the debt.
  - Upon the execution of a following restructure of a debt, the debtor is not in financial difficulties, and
  - According to the terms of the following restructure, the bank has not granted a waiver to the debtor.

  Regarding debts complying with the said terms, the provision for credit loss shall be computed on a collective basis and no change would apply to the stated balance thereof, unless as part of the restructure, a cash amount had been paid or received.
  - It is required that at date of restructure of a troubled debt, the provision for credit loss should not be reduced as a result of the transition from measuring the provision on a collective basis to a provision measured on a specific basis.

The revisions included in the letter shall apply to restructures made or renewed as from December 31, 2016 (though earlier application is permitted).
The Bank examines the implications of the instructions and is preparing to implement them. Implementation of the instructions is not expected to have a material impact.

NOTE 2 - INTEREST INCOME AND EXPENSES

(NIS million)

		For the three months ended June 30		For the six months ended June 30

A. SIGNIFICANT BENEFITS

1. Pension and Severance Pay

A part of the Group's liabilities for severance pay and pensions is covered by current deposits, in the name of the employees, with provident and pension funds or by the purchase of insurance policies. The liability for severance pay and pension included in the balance sheet represents the portion of the liabilities which is not covered by deposits and/or insurance policies, as stated above. This liability is measured on an actuarial basis, using actuarial and other assumptions, including the discounting rate, increase in compensation, increased severance pay, mortality and retirement rates.

2. Benefit in respect of nonutilized sick leave

Employees of the Bank are entitled to a benefit in respect of nonutilized accumulated sick leave. Towards the retirement date, this benefit is convertible into vacation days to be actually utilized, based on a determined convertion formula. This liability is measured on an actuarial basis using actuarial and other assumptions, including the discounting rate, the rate of increase in salaries, mortality and retirements rates.

3. Other post-employment benefits

Employees of consolidated subsidiaries are entitled to an award in respect of unutilized sick leave. This liability is measured on an actuarial basis using actuarial and other assumptions, including the discounting rate, the rate of increase in salaries, mortality and retirements rates.

4. Other post-retirement benefits

Employees of the group are entitled to certain post-retirement benefits. This liability is measured on an actuarial basis using actuarial and other assumptions, including the discounting rate, mortality and retirements rates.

5. Vacation pay

Employees of the Bank are entitled by law and by labor agreements to paid annual vacation. The provision for vacation pay is calculated on the basis of the most recent salary amounts of employees and the vacation days accumulated in their favor, with the addition of the required related expenses.

B. See note 16 as to the conversion of employee rights to jubillee awards.

NOTE 8 - CAPITAL ADEQUACY ACCORDING TO DIRECTIVE OF THE SUPERVISOR OF BANKS

Starting January 1, 2014 the bank has implemented Proper Banking Management Directives Nos. 201-211 in the matter of measurement and capital adequacy, as updated, in order to modify them to the Basel guidelines.

It is noted that the Basel instructions determine significant changes in the computation of the regulatory capital requirements, among other things, in everything related to:

- Components of the regulatory capital;
- Deductions from capital and regulatory adjustments;
- Treatment of exposure to financial corporations;
- Treatment of exposure to credit risk in respect of impaired debts;
- Allocation of capital in respect of CVA risk.

The instructions were implemented in a gradual manner, in accordance with the transitional instructions stated in Proper Banking Management Directive No, 299 in the matter of measurement and capital adequacy - regulatory capital - transitional instructions, this in order to allow compliance with the new instructions of the regulatory capital within the framework of the implementation of Basel, and determine a transitional period until their implementation in full. Among other things, the transitional instructions relate to the regulatory adjustments and the deductions from capital, as well as to capital instruments that are not qualified for inclusion in the regulatory capital in accordance with the new criteria determined in the Basel instructions. In particular, according to the transitional instructions, the regulatory adjustments and deductions from capital as well as the non-controlling interest that is not qualified to be included in the regulatory capital, shall be gradually deducted from capital at the rate of 20% in each year starting with January 1, 2014 and until January 1, 2018. The capital instruments no longer qualified as regulatory capital shall be recognized up to a maximum of 80% on January 1, 2014, this maximum level being reduced by an additional 10% until January 1, 2022. As of January 1, 2016, the rate of deductions from the regulatory capital amounts to 60% and the maximum level of instruments qualified as supervisory capital amounts to 60%.

(1) Minimal capital ratio requested according to the Supervisor of Banks' directives effective from January 1, 2015. To these relations, as of January 1, 2015 will be added capital requirement of 1% of housing loans balance for the reporting date. This requirement is applied gradualy until January 1, 2017. In accordance therewith, the minimum Tier I equity capital ratio and the minimum comprehensive capital ratio, that would be required as of January 1, 2017, as instructed by the Supervisor of Banks, according to the consolidated data as of the reporting date, are 9.28% and 12.78%, respectively, and according to the data of Otsar Hahayal as of the reporting date, are 9.02% and 12.52%, respectively. As regards additional capital requirements regarding the matter of capital adequacy, see Section E below.

(2) Initial implementation of accounting standards and instructions of the Supervisor of Banks. See Note 1.D.4.

(3) As for the amount of NIS 107 million, with coordination of the Supervisor of Banks, the Bank implemented the transition instructions of Basel regarding the PUT option granted to noncontrolling interests (30.6.15 - NIS 151 million, 31.12.15 - NIS 154 million).

E. Capital adequacy goals

The Group's policy, as approved by the Board of Directors and Management, is to maintain an adequate level of capital, in accordance with the capital target determined by an internal process, and which would not be less than the minimum capital goals required by the Supervisor of Banks. The capital target determined by the Board of Directors and Management reflects in the opinion of the Group, the proper capital level required in accordance with the risk profile and risk appetite of the Group.

As part of the gradual process of adoption of the Basel instructions in Israel, The Supervisor of Banks published on March 28, 2012, a guiding letter in the matter of Basel framework - minimum core capital ratios, requiring banks and credit card companies to attain a Tier I equity capital ratio of 9% and a total capital ratio of 12.5%, and this until January 1, 2015. It has been determined, in addition, that a bank, the total stated assets of which on a consolidated basis amount to at least 20% of the total amount of assets of the banking industry, would have to increase the said ratios by one additional percentage point and to attain a minimum Tier I equity capital ratio of 10% and a minimum total capital ratio of 13.5%, and this until January 1, 2017. In accordance with the above, the minimum ratio of Tier I equity capital ratio that would be required from the Bank is 9% and the minimum total capital ratio that would be required from the Bank is 12.5%. In addition according to the directive of the Supervisor of Banks regarding "restrictions on extension of housing loans", the banking entities are demanded to increase the targeted tier 1 capital in a rate constituting 1% of the balance of the housing loans. The targeted tier 1 capital will be increased in constatnt quarterly rates from January 1, 2015 until January 1, 2017. For the balabce of the housing loans see note 29.B.3 to the financial statements for 2015.

Within the framework of the ICAAP process, the Board of Directors has determined minimum capital targets in relation to Tier I equity capital and to comprehensive capital, in the case of regular business situation and in stress tests. The capital targets have, inter alia, been determined in view of the above, in view of the ICAAP findings and data as of June 30, 2015. Set out below are the minimum capital targets:

- In a regular business situation – the Tier I equity capital ratio shall not be lower than 9.30%, the comprehensive capital ratio being determined gradually, and shall not be lower than 12.70% by June 30, 2016, and not lower than 12.73% by December 31, 2016.
- Under stress tests - the Tier I equity capital ratio shall not be lower than 6.50%, and the comprehensive capital ratio shall not be lower than 9.00%.

The distribution of dividends shall be made possible only to the extent that it would not impair the ability of the Bank to comply with the new capital requirements.

NOTE 8 - CAPITAL ADEQUACY, LEVERAGE AND LIQUIDITY ACCORDING TO DIRECTIVE OF THE SUPERVISOR OF BANKS (CONT'D)

F. Raising of regulatory capital by debt notes including loss absorbing mechanism

On June 26, 2016, the First International Issuance Ltd. (hereinafter – "International Issuance"), a wholly owned subsidiary of the Bank, issued to the public deferred debt notes (Series 22), having a debt absorption mechanism, in a total amount of NIS 580 million. The proceeds of the issue of the deferred debt notes have been deposited with the Bank.

The said deferred debt notes are compatible with the qualification terms of the Basel III Rules and are recognized as Tier II capital.

The deferred debt notes include a loss absorption mechanism in the event that the Tier I equity capital of the Bank falls below a rate of 5%, or upon the occurrence of a constitutive event concerning the existence of the Bank, this in accordance with a decision of the Supervisor of Banks. In such cases, the deferred debt notes may be erased in part or in full.

In the event that the Tier I equity capital ratio of the Bank rises over the minimum capital ratio determined for the Bank by the Supervisor of Banks, the Bank would be entitled, at its own discretion, to announce the partial or full cancellation of the erasure of the principal amount of the debt until June 26 2031.

After five years since the date of issue, the Bank is entitled to a one-time only premature redemption of the debt. In the event that no such premature redemption is made by the Bank, the annual interest rate would be revised in accordance with the difference between the basic interest rate at that date and the basic interest rate at the original date of issue of the deferred debt notes.

G. Capital requirements in respect of exposure to central counterparties

The Supervisor of Banks published on October 22, 2015, a final letter in the matter of "Capital requirements in respect of exposure to central counterparties" (hereinafter - "the letter"). The letter amends Proper Conduct of Banking Business Directives 203 and 204, in order to match them to the Basel Committee recommendations in everything relating to the capital requirements with respect to exposure of banking corporations to central counterparties. The letter details the new guidelines applying to exposure to central counterparties arising from OTC derivatives, marketable derivative transactions and transactions financing securities. The guidelines differentiate between an unqualified central counterparty and a qualified central counterparty; where in respect of the latter, lower capital requirements have been established.

The The guidelines regularize, among other things, the following classes of exposure:

- Exposure of a clearinghouse member banking corporation to a central counterparty. As a general rule, such exposure is allotted a risk weight of 2% (in contrast to zero exposure prior to the Amendment). Notwithstanding, the Directive includes a minimum formula which might lead to the doubling of trading exposure at a risk weight of 20%.
- Exposure of a banking corporation to customers active on the Stock Exchange. According to the Amendment, the capital requirements in respect of such exposure should be computed as in the case of a two-sided transaction, including the allocation of capital in respect of the CVA risk. The computation

method which was in effect to date according to the Directive – computation according to the Stock Exchange rules – is cancelled.

- Exposure to a customer corporation operating through a clearinghouse member.
- Transfers of a clearinghouse member banking corporation to the risk fund.
- Collateral deposited by a banking corporation with a clearinghouse member or with a central counterparty.
- Exposure to an unqualified central counterparty shall be averaged according to the relevant risk weight of the counterparty, while transfers to the risk fund shall be averaged by 1,250%.

The content of the letter applies as from January 1, 2017, while until June 30, 2017, it is possible to consider the Tel Aviv Stock Exchange as a qualified central counterparty.

The Bank is updating the mode of computing the capital ratios and the leverage ratios in accordance with the updated Directive, as above.

According to estimates of the Bank, the expected effect of the adoption of the letter, as of the reporting date, is a decrease of 0.11% in the Tier I equity capital ratio, and a decrease of 0.15% in the comprehensive capital ratio of the Bank.

NOTE 8 - CAPITAL ADEQUACY, LEVERAGE AND LIQUIDITY ACCORDING TO DIRECTIVE OF THE SUPERVISOR OF BANKS (CONT'D)

H. Leverage ratio in accordance with instructions of the Supervisor of Banks

The Supervisor of Banks issued on April 28, 2015, Proper Banking Management Directive No. 218 in the matter of leverage ratio. The Directive states a simple and transparent leverage ratio that is not risk based, which would serve as a supplementary and reliable measurement of the risk based capital requirements, and which is intended to restrict the accumulation of leverage at a banking corporation.

The leverage ratio is expressed in percentages, and is defined as the ratio between the measurement of capital and the measurement of exposure. Capital for the purpose of measuring leverage is the Tier I capital as defined in Proper Banking Management Directive No. 202, taking into consideration the determined transitional arrangements. The total measurement of exposure of the Bank is the total of the balance sheet exposures, exposure to derivatives and to transactions financing the purchase of securities and off-balance sheet items. As a general rule, measurement is consistent with accounting values and risk weights are not taken into consideration. Furthermore, the Bank is not permitted to use physical or financial collateral, guarantees or other credit risk reducing techniques, in order to reduce exposure measurement, unless this is specifically permitted by the Directive. Balance sheet assets, deducted from Tier I capital (in accordance with Directive No. 202) are deducted from exposure measurement. In accordance with the Directive, the Bank computes exposure in respect of derivatives in accordance with the provisions of Appendix "C" of Proper Banking Management Directive No. 203, and exposure in respect of off-balance sheet items by converting the imputed amount of the items by the conversion coefficients for credit, as determined in Proper Banking Management Directive No. 203.

In accordance with the Directive, a banking corporation shall maintain a leverage ratio of not less than 5% on a consolidated basis. A banking corporation, the total stated consolidated assets of which comprises 20% or more of the total stated assets of the banking industry, shall maintain a leverage ratio of not less than 6%. In accordance with the above, the minimum leverage ratio required from the Bank is 5%.

NOTE 8 - CAPITAL ADEQUACY, LEVERAGE AND LIQUIDITY ACCORDING TO DIRECTIVE OF THE SUPERVISOR OF BANKS (CONT'D)

A banking corporation is required to maintain the minimum leverage ratio as from January 1, 2018. A banking corporation, which at date of publication of the Directive maintains already the minimum leverage ratio applying to it, shall not reduce the ratio below the minimum determined by the Directive. A banking corporation, which at date of publication of the Directive did not attain the minimum leverage ratio requirement applying to it, is required to increase the leverage ratio by fixed quarterly installments until January 1, 2018.

I. Reporting the liquidity coverage ratio in accordance with instructions of the Supervisor of Banks

The Supervisor of Banks issued on September 28, 2014, a circular letter which added Proper Conduct of Banking Business Directive No. 221 in the matter of "liquidity coverage ratio". The Directive adopts the recommendations of the Basel Committee in the matter of liquidity coverage ratio as regards the banking industry in Israel. The liquidity coverage ratio examines a range of thirty days in a stress test, and is intended to ensure that a banking corporation shall have an inventory of high quality liquid assets serving the liquidity needs of the corporation within that period of time. The Directive specifies the manner of computation of the liquidity coverage ratio, including the definitions of characteristics and operational requirements for the "inventory of high quality liquid assets" (numerator) and security coefficients in its respect, as well as the anticipated cash outflows in the stress test, as defined in the Directive for the thirty calendar days (denominator)after measurement date.

The stress test stated in the Directive includes a stress situation that combines a specific stress to the corporation with a system stress, within the framework of which, standard withdrawal rates have been defined for cash outflows and cash deposit rates for cash inflows, in accordance with the different categories of outstanding balances.

A banking corporation, the liquidity coverage of which drops below the minimal requirement, is required to immediately report such deviation to the Supervisor of Banks. A banking corporation, the liquidity coverage ratio of which was below the minimal requirement for a period of three days, must report this fact to the Supervisor of Banks together with a scheme for the rectification of the difference.

The liquidity coverage ratio requirements apply as from April 1, 2015.

In accordance with the transitional instructions, as from April 1, 2015, the minimum requirement will be 60%, rising gradually to 80% on January 1, 2016 and to 100% on January 1, 2017 and thereafter. Not withstanding, in periods of financial pressure, a banking corporation may reduce the ratio to below the said minimum requirements.

Following the adoption of the Basel rules in Israel, as stated above, the Board of Directors of the Bank has decided that the targeted ratio of the Bank and of the Group as from April 1, 2015, would be 10% higher than the minimal requirement.

During the reported period the Bank and the Group hold the liquidity coverage ratio as required.

NOTE 8 - CAPITAL ADEQUACY, LEVERAGE AND LIQUIDITY ACCORDING TO DIRECTIVE OF THE SUPERVISOR OF BANKS (CONT'D)

In addition, on September 28, 2014, the Supervisor of Banks issued a circular letter in the matter of the provisional instruction - implementation of disclosure requirements according to pillar III of Basel - disclosure in respect of liquidity coverage ratio (hereinafter - "the letter"). Within the framework of the letter, amendments were made to the public reporting requirements in order to implement the disclosure requirements that banks will have to include as part of the adoption of the liquidity coverage ratio.

C. In the ordinary course of business, legal actions have been filed against the Bank and certain of its subsidiaries, including motions for approval of class actions. In the opinion of the Management of the Bank, based on legal opinions, as to the prospects of these actions, including the motions for approval of class actions as detailed in this section, adequate provisions have been included in the financial statements, where required, to cover losses which might be sustained as a result of these actions.

With respect to the legal actions and motions for approval of class actions, see Note 25G to the financial statements for the year 2015.

Following are details of actions filed in the past against the Bank and against a consolidated subsidiary, in which changes occurred in relation to that stated in the financial statements for 2015:

1. In April 2007, an action together with a motion for its approval as a class action was filed against the Bank and additional banks alleging that the Bank had illegally collected a brokerage commission from mutual funds related to it, at rates that were higher than commission rates paid by other customers of the Bank.

   The claim against the Bank amounts to NIS 75.5 million. On May 10, 2016, the Tel Aviv District Court dismissed the motion for approval of the action as a class action.

2. On April 1, 2015,, a consolidated subsidiary received notice of a motion for approval of a lawsuit in the amount of NIS 661 million as a class action suit. It is alleged in this case that the consolidated subsidiary had misled customers as to the nature of State guarantee provided in respect of loans granted to businesses by the consolidated subsidiary, which are secured by State guarantees. The Plaintiffs argue that as guarantors for such loans, they were not told that the State guarantee is a residual guarantee, which the consolidated subsidiary may realize only after realization of collateral

and taking every action to collect the debt from the guarantors. On July 13, 2016, the District Court dismissed the motion for approval of the action as a class action

The additional exposure of the Bank and of the subsidiary companies as of June 30, 2016, to pending claims, which in the opinion of Management of the Bank the probability of their realization, in full or in part, is not remote, and in respect of which no provisions have been included, amounts to NIS 28 million.

D. Moreover, pending against the Bank and against a consolidated subsidiary are actions and motions for approval of class actions, as detailed below. In the opinion of the Management of the Bank, based on Counsel's opinion, it is not possible at this stage to assess the prospects of these actions and no provision has been included in respect thereof.

1. On January 7, 2016, the Bank received notice of an action together with a motion for its approval as a class action suit filed against the Bank. The Plaintiff alleges that the Bank had provided investment consulting services to its customers regarding the purchase and/or sale of ETF notes, without having the qualifications required to provide professional service in the matter, due to the lack of computerized systems supporting such investment decisions, thus allegedly violating fiduciary, fidelity and care duties applying to the Bank. In addition, the Plaintiff claims damages in respect of consultation regarding the purchase/sale of ETF notes not at their fair value. The Plaintiff assesses the damage caused to the class at not less than NIS 30 million, and alternatively, not less than NIS 143 million.
2. On January 31, 2016, The Bank received notice of a lawsuit together with a motion for its approval as a class action suit, in an amount of NIS 698 million, filed against the Bank, a subsidiary company and against three additional banks hereinafter altogether – "the banks"), of which, NIS 658 million in respect of a nonmonetary damage and NIS 40 million in respect of a monetary damage.

   The Plaintiffs claim that the banks do not maintain branches (or do not maintain a sufficient number of branches) in the Arab populated areas and do not provide this population with access to their banking services. Thus, as alleged by the Plaintiffs, the banks violate Section 3(a) of the Non-discrimination regarding Products, services and Entry into Places of Entertainment and Public Places Act, 2000, Section 2 of the Banking Act (Customer service), 1981 and the Human Dignity and Liberty Basic Act. The class which the Plaintiffs propose to represent relates to all citizens of the State of Israel Moslems, Christians and Druze, who suffer from discrimination in accessing banking services provided by the banks, due to the absence of bank branches in the areas in which they reside.
3. On February 18, 2016, The Bank received notice of a lawsuit together with a motion for its approval as a class action suit filed with the Tel Aviv District Court against the Bank and four additional banks (hereinafter altogether –" the Respondents").

   According to the Plaintiff, the Respondents discriminate on grounds of age between "young students" and "not-so-young" students, in a way which deprives "not-so-young" students from benefits and/or discounts offered to "young students" only.

   The Plaintiff has defined the class as follows: "… all students discriminated against due to age in comparison with younger students, thus depriving them from benefits granted to students during the past seven years and at least as from July 15, 2014…".

The Plaintiff claims that the conduct of the banks caused monetary and nonmonetary damages to the class, and requests the charging of the banks, jointly and severally, with a payment to the class of NIS 219 million.

4. On June 26, 2016, the Bank received notice of a motion for approval of an action as a class action, that had been filed against the Bank, Otzar Hachayal Bank Ltd., Mizrahi-Tfachot Bank Ltd. and Yahav Bank for State Employees Ltd. (hereinafter together – "the banks"), in a total amount of NIS 167 million. According to the Plaintiffs, it would seem that the share of the Bank and of its consolidated subsidiary in the said amount is NIS 82 million. The Plaintiffs argue that the banks caused the class both monetary and nonmonetary damage due to discriminating against handicapped persons, in that they advertise, offer and grant exemption from commission fees (and other benefits) to employed persons who open accounts and deposit therein a monthly salary of at least a certain amount, but at the same time, these banks do not offer and grant the same benefits to handicapped persons who are able to deposit a monthly allowance of the same amount or even higher.

E. 1. Several motions for the approval of actions as class actions are pending against an affiliated company, Israel Credit Cards Ltd. ("ICC"), the amounts claimed therein are material. See Note 25I to the financial statements for 2015. Following are details of actions in which changes occurred in relation to that stated in the annual report for 2015:

A. On April 14, 2013, notice was received of an action and a motion for approval and conduct of the action as a class action suit under the Class Actions Act, 2006, filed with the Tel Aviv District Court against ICC and against Castro Models Company Ltd. (hereinafter – "the Respondents").

The subject matter of the claim is the marketing of "Wish U" cards. The Appellant alleges that the marketing of these gift cards was made by the Defendants under misleading presentations while imposing prohibited terms, in violation of the provisions of the Consumer Protection Act, 1981 and the regulations under it. The Plaintiff claims that these acts had misled him and prevented him from making transactions to which he was legally entitled.

The Plaintiff assessed the amount of the claim on behalf of the whole class at NIS 214 million, on the assumption that the class numbers approximately half a million customers. Mediation proceedings have been conducted in this case between the Appellant and Castro.

On March 7, 2016, the parties informed the Court that a motion for a compromise agreement would be filed by them.

On April 7, 2016, the representatives of the Appellant informed the Court that the representatives of Castro had withdrawn from agreements while ICC continues to stand behind the compromise reached. The Court, therefore, was requested to fix a memorandum hearing in presence of the parties in order to examine ways for continuing the conduct of the case. On June 26, 2016, Castro informed the Court that in continuation of the hearing and considering the comments of the Court regarding the compromise; it had decided to continue the compromise negotiations. Until August 20, 2016, the parties are required to inform the Court regarding the progress made with respect to the compromise agreement.

B. An action and a motion for its approval and conduct as a class action suit under the Class Actions Act, 2006, were filed on January 30, 2014, with the Tel Aviv Yaffo District Court, against ICC and against Israel Discount Bank Ltd. (hereinafter - "the claim and the motion"). The Appellant argues that ICC, at its discretion, charges the account of the holder of an "Active" credit card with only a minimal amount out of the amounts accumulated to the debit of the credit card, the remaining balance turning into a loan carrying interest at especially high rates. It is further argued that upon the marketing of this scheme, ICC refrained from emphasizing to the customers that cancellation of the credit requires an explicit request by the customer, and also refrained from providing information as to the cost of the credit granted. Encumbering the customers with a revolving credit mechanism and charging them with interest, has been done with no valid contractual basis while impairing the autonomy of customer.

   The Appellant stated the amount of the claim in respect of all class members at NIS 2,225 million.

   On August 19, 2014, the District Court ruled for the dismissal of the action against Discount Bank Ltd.

   On January 20, 2016, the Supreme Court dismissed the appeal of the Appellant, upholding the decision of the District Court to dismiss in limine the motion for approval against Discount Bank. The proceedings against ICC continue. Interrogation of the Declarers in the motion was held on April 13, 2016. On June 14, 2016, The Appellant submitted his summing-up brief and ICC has to submit its summing-up brief by September 14, 2016.

2. The amount of exposure due to claims submitted against ICC, the prospect of materialization of all or part of these claims is reasonably possible, totals NIS 1,469 million.
3. Pending against ICC are motions for approval of actions as class actions as well as other actions, as detailed below. ICC notes in its financial statements that in the opinion of Management of ICC, based on Counsel's opinion, it is not possible at this stage to assess its prospects, and therefore no provision has been included in respect thereof.

   A. On April 28, 2014, ICC received notice of an action and a motion for approval and conduct of the action as a class action under the Class Actions Act, 2006, filed with the District Court, Central District against ICC and other credit card companies (hereinafter - "the claim and motion").

      The motion refers to two binding arrangements with respect to immediate debit cards ("debit cards") and to "prepaid" cards, which, as alleged by the Appellants, amount to systematic and continuous deception of customers of credit card companies.

      The Appellants stated the amount of the claim in respect of all class members and regarding all the Defendants, at NIS 1,736 million.

      On February 24, 2015, the Appellants, with the consent of the Responders, filed a motion for withdrawal from the claim and from the request for approval of a class action, with no order for expenses.

      On April 19, 2015, a motion was filed with the Court, requesting the Court to order the replacement of the Appellants who had filed for withdrawal, as above, and their representatives, by the new Appellant and his representative, and to instruct the continuation of the proceedings through the new Appellant.

It is alleged in this motion, that the request for withdrawal does not state the reasons meriting the request for withdrawal, and that it relies only on future action to be taken by the Regulator (Bank of Israel) with no compensation in respect of the past.

On July 1, 2015 the Court approved the withdrawal. Concurrently, the Court instructed that a replacement of the Appellant and its representative be found, who would take upon themselves the management of the proceedings in the name of the group.

Following the decision of the Court of July 1, 2015, the representatives for the Appellants presented on July 6, 2015, the text of a newspaper advertisement regarding the withdrawal from the claim which had been approved by the Court.

On June 9, 2016, an amended motion for approval of the class action was filed ("the amended motion"), in which the damage in relation to all Respondents was assessed at NIS 7 billion.

ICC has to respond to the amended motion no later than November 1, 2016.

B. As detailed to ICC by Israel Discount Bank Ltd. (hereinafter - -"Discount"), Discount received notice on May 7, 2015, of an action and a motion for its approval as a derivative action, were filed with the Tel Aviv-Yafo District Court. The Court is being asked to approve a derivative action against sixteen officers and other executives who officiated in the relevant period at ICC and at ICC international Ltd. (including former officers in Discount and the Bank), which on December 31, 2009 was merged into ICC and struck-off the Companies Register and the damage expected to be caused to it, as alleged, in connection with the international clearing activity of ICC and of ICC International in the years 2006-2009.

The Appellant claims that the responded officers and other executives have, among other things violated their duties and caused the alleged damage, which is assessed by him at NIS 100 million. The Appellant further refers to a potential risk of forfeiture of funds to the tune of NIS billions, within the framework of criminal proceedings, if these are instituted, and to reputation and other damage, not yet assessed, all as alleged by the Appellant.

On June 21, 2016, ICC (with the consent of the other parties) submitted a motion for an extension in submitting the response by the Respondents, among other things, due to criminal proceedings conducted in the matter. The Court has admitted the motion, and therefore, ICC and the other respondents have to respond to the motion by November 1, 2016.

4. ICC reported in its financial statements as of June 30, 2016, as follows:

A. In the second half of 2009 and in 2010, VISA Europe and the MasterCard International (hereinafter together – "the international organizations") raised arguments against ICC as to the prima facie violations of the rules of these organizations pertaining to the field of clearing of international electronic trading, with respect to transactions cleared by the subsidiary of ICC, ICC International (since merged with and into ICC). In this framework, penalties were imposed on ICC and its operations in this field were restricted for a period of several months.

ICC took immediate action for the implementation of a reduction plan for the purpose of complying with the requirements of the international organizations, within the framework of which, various measures have been adopted by ICC, including changes in its management. Several trading houses and coordinators have raised demands regarding the burdening upon them of the monetary sanctions and the reduction in the international electronic trading clearing with them, causing them, as alleged by them, heavy damage.

B. The announcement of the State Prosecution: following the investigation conducted by the police, ICC received on December 3, 2014, a notice from the economic department at the State Prosecution, informing that the file concerning the investigation of suspicions against ICC had been submitted for review by the State Prosecution. On April 20, 2015, ICC received notice from the State Prosecution, to which was attached a "suspicion brief", according to which, the State Prosecution is considering the serving of an indictment against ICC in respect of the commitment of offences consisting of deceitful receipt under aggravating circumstances and money laundering.

The "suspicion brief" details two cases in which, according to the Prosecution, ICC is involved together with others. It is argued in the first case that during the period from 2006 to 2009 (hereinafter – "the relevant period") ICC through the one who acted as the CEO of ICC in the relevant period and the CEO of ICC International in the relevant period (hereinafter jointly and severally – "the managers") together with others, acted deceitfully with respect to the coding of transactions cleared by ICC, as well as acted together in contravention of the Money laundering Prohibition Act. In the second case, it is argued that ICC, through the managers together with other factors, displayed false presentations regarding the splitting of records of trading houses which cleared transactions through ICC, thereby receiving monies and fraudulently earning profits, as well as acting in violation of the provisions of the Money Laundering Prohibition Act. The turnover of the operations allegedly attributed to ICC with respect to the prima facie offences claimed against it, amounts to NIS billions.

As stated in the notice of the Prosecution, ICC had been given the right to apply to the Prosecution, whether in writing or by way of an oral hearing, requesting that no indictment should be served against it.

The representative of ICC received on May 2015 a copy of the principal investigation material in this case. The representative of ICC studied the material delivered to him and prepared his response to the matter, following which, a hearing was held in October 2015.

The legal advisors of ICC are of the opinion that ICC has good arguments against being indicted, and these were presented in the hearing that was held.

The decision whether to serve an indictment against ICC, if at all, as well as the decision as to the charges that would be brought and on what facts an indictment would be based, would be taken only after the Prosecution forms its position in the case.

According to the law, the Court is empowered to impose penalties on ICC in respect of the alleged offences, as well as to instruct the forfeiture of funds which were proved to be felony monies.

As estimated by ICC, and based on the opinion of its legal advisors, at this stage being prior to a decision as to whether charges should be brought against ICC, difficulties exist as to estimating whether an indictment would in fact be served, and if served, what would be the charges and against whom they would be brought. Furthermore, at this early stage, difficulties exist in estimating the results of the proceedings instituted, if at all, and its implications of ICC. Notwithstanding the above, and for reasons of care, based on a preliminary assessment, ICC recorded in the second quarter of 2016 a provision of NIS 40 million. Nothing in the above is considered as derogating from the position of ICC in everything relating to its defense arguments. In the event that the arguments raised in the suspicion brief are admitted, they may expose ICC to various additional risks, part of which cannot be assessed. Notwithstanding, ICC has good arguments in this respect. Among the possible risks are negative implications on the relations of ICC with the international organizations, which serve as a central layer in ICC's operations. On the basis of the actions taken by ICC over the years, the conduct of relations between ICC and the international organizations, and on the basis of other data and facts existing together in the hands of ICC, the Management of ICC estimates that the probability of realization of such risks is low.

On April 20, 2015, the Supervisor of Banks informed ICC that in view of the notice of the State Prosecution, as above, and the "suspicion brief" attached to it, his instruction to ICC is to refrain from the distribution of dividends until the proceedings are concluded and the results thereof and their implications on the financial position of ICC are clarified.

NOTE 11 - SUPERVISORY SEGMENTS OF OPERATION

A. General

In accordance with a letter of the Supervisor of Banks dated November 7, 2014, the reporting of supervisory segments of operations, as from the financial report for 2015, has to conform to the format and classifications determined in the public reporting instructions of the Supervisor of Banks.

B. Definitions

- **Private individuals** - individuals including those conducting a joint account, who at the reporting date have no indebtedness to the bank, or where their indebtedness has been classified to the "Private individuals – housing and other loans" segment.
- **Private banking segment** - private individuals the balance of their financial asset portfolio, on a consolidated basis, held with the bank (including monetary deposits, securities portfolios and other financial assets) exceeds NIS 3 million.
- **Households** - private individuals, excluding customers included in the private banking segment.
- **Business** - a customer not included in the "private individual" definition and who is not an instructional body or a banking corporation.
- **Business turnover** - annual sales turnover or volume of annual income.
- **Minute business** - a business the annual turnover of which is less than NIS 10 million.
- **Small business** - a business the annual turnover of which is higher than or equal to NIS 10 million and is lower than NIS 50 million.
- **Middle-market business** - a business the annual turnover of which is higher than or equal to NIS 50 million and is lower than NIS 250 million.
- **Large business** - a business the annual turnover of which is higher than or equal to NIS 250 million.

Where the income turnover of business customer does not represents its volume of activity, the activity of the business customer was classified according to the said below: where the total indebtness of the business customer is equal to or exceeds NIS 100 million, the customer was classified to large business segment.

According to the transition directive set in the FAQ file of the Bank of Israel, it was determined that business customer, which is indebtness to the bank is up to NIS 300 thousands (including credit facilities etc.) and the bank does not have information regarding its activity turnover, will be classified to the relevant supervisory segment of activity according to the total assets in the balance sheet of the business, and in the event that this information is also unavailable, the bank is entitled to classify the customer according to its total financial assets at the bank (including financial deposits, securities portfolio and other financial assets), where instead of total balance sheet assets the classification will be according to total financial assets after multiplying them by 10.

- **Financial management segment** includes the following activities: investment in marketable securities, market-making activity in securities and derivative instruments, activity in derivative instruments not intended as hedge and do not form part of the asset and liability management of the banking corporation, buyback and lending of securities transactions, short sale of securities, underwriting of securities; asset and liability management activity – including investment in available-for-sale bonds and in bonds held to maturity, which were not classified to other operating segments (where the borrower has no other indebtedness to the bank except for securities), hedge derivative instruments and derivative instruments being part of asset and liability management, deposits with banks and from banks in Israel and abroad, deposits of and with governments; non-financial investment activity – investment in available-for-sale equities and investment in business affiliates; other activity – management, operating, trusteeship and bank custodian services, consulting services, credit portfolio sale and management activity, development of financial products activity.
- **Other segment** - including discontinued operations, gains on funding and other results relating to employee rights not classified to other operating segments and adjustment of the total of all items related to segments to the total of items presented in the consolidated financial report.
- **Managed assets** - including assets of provident funds, mutual funds, further education funds, customer securities, loans managed by the bank and assets relating to operations based on the extent of collection of the loan.

Credit quailty - the status of debts in arrears

The credit risk policy of the Bank defines principal indicators for the examination of credit quality, among which are the default situation, rating of the customer, status of the collateral etc. The status of debts in arrears is monitored routinely, and serves as one of the key indicators of credit quality. The status of debts in arrears is determined based on actual days of arrears. Debts are treated as nonperforming debts (debts not accruing interest income) after 90 days of arrears. With regard to debts evaluated on a collective basis, the status of arrears effects the classification of the debt (the classification is more severe for more extensive arrears) and mostly after 150 days of arrears, the Bank performs an accounting write-off of the debt up to the extent of the collateral. With regard to housing loans, with the exception of loans without quarterly or monthly payments, the Bank establishes an allowance according to the method of the extent of arrears. The Bank also uses additional indications such as customer rating and status of collateral managed by computer systems in accordance with the credit risk management policy determined by the Board of Directors.

NOTE 14A - BALANCES AND FAIR VALUE ESTIMATES OF FINANCIAL INSTRUMENTS (CONT'D)

(NIS million)

A. Fair value of financial instruments.

The Note includes information regarding the fair value of financial instruments. There is no quotable "market value" for most of the financial instruments of the Bank since they are not traded in an active market. Therefore, the fair value is derived by accepted pricing models, such as discounting future cash flows at interest rates reflecting the credit risk inherent in the financial instrument.

Determination of fair value, estimated by discounting future cash flows and determining the relative interest rates is subjective. Furthermore, the fair value estimations for most of the financial instruments does not necessarily indicate the realizable value on the reporting date. The estimated fair value was calculated according to interest rates prevailing on balance sheet date and does not consider interest rate fluctuations. Given other interest rate assumptions fair value estimates may differ materially. This is mainly the case where financial instruments have fixed interest rates or do not bear interest.

In addition, in determining fair value, commissions to be received or paid as a result of the said transactions and tax effects, in respect of the gap between the fair value and the balances at the balance sheet, were not taken into consideration.

Furthermore, the difference between the balance sheet and the fair value amounts may not be realized as the Bank may hold the instruments until maturity. As a result of all of these it is necessary to emphasize that the data included in this note does not reflect the net worth of the Bank as a going concern. Also, as a result of the wide range of possible estimation techniques and methods, care should be taken when comparing fair value of different banks.

NOTE 14A - BALANCES AND FAIR VALUE ESTIMATES OF FINANCIAL INSTRUMENTS (CONT'D)

(NIS million)

B. Principal methods and assumptions used for the calculation of the fair value estimates of financial instruments

Deposits with banks, bonds and non-marketable securities and credit to the Government - By discounting future cash flows according to interest rates used by the Bank in similar transactions close to the reporting date.

Marketable securities - According to their value in the principal market. Where there are several markets on which the instrument is traded, the assessment is made according to the most beneficial market.

Credit to the public - The fair value of the credit to the public balance was estimated according to discounting the future cash flows in an appropriate discount rate. The balance was separated into homogenous categories. The receipts in each category were discounted at a discount rate which reflects the risk inherent in the category. In general, this discount rate is determined according to the interest at which the Bank transacts similar business at the reporting date.
The fair value of impaired debts is assessed using discount rates that reflect the high credit risk inherent in such debts. In any event, such discount rates are not lower than the highest interest rate used by the Bank in transacting business at the reporting date.
Anticipated future cash flows in respect of impaired debts and other debts have been assessed after deducting the effect of accounting write-offs and of provisions for credit losses in respect of the debts.
Accounting write-offs and provisions for credit losses are attributed, where possible, to periods in which these debts had been classified (example: where the provision was assessed on a specific basis, by the present value of future cash flows). In the absence of such data, accounting write-offs and provisions for credit losses are attributed proportionally to the outstanding balance of credit according to maturity periods at end of the period.

Deposits and subordinate capital notes - By discounting future cash flows according to interest rates used by the Group in raising similar deposits (if a quoted price on an active market is not available), or issuing similar capital notes, at reporting date. As regards bonds and subordinate debt notes that are traded as an asset on an active market, fair value is based upon quoted market prices.

Derivative financial instruments - Derivative financial instruments for which an active market exists have been estimated at market value, and where several active markets exist, have been estimated according to the most beneficial market.
Derivative financial instruments for which no active market exists have been calculated according to models which are used by the Group in current activity and take into account the inherent risks of the financial instrument (market risk, credit risk, etc.).

Off-balance sheet financial instruments and transactions the balance of which represents credit risk - the fair value has been assessed in accordance with commission earned in similar transactions at the reporting date, adjusted in respect of the remaining period of the transaction and the credit quality of the counterparty.

NOTE 15 - CHANGE IN THE RATE OF CORPORATION TAX

On January 4, 2016, the Knesset passed the Income Tax Ordinance Amendment Act (Amendment No. 216), 2016, which among other things, lowered the rate of corporation tax as from the tax year 2016 and thereafter, by 1.5%, so that the tax rate would be 25%. As a result of the said change, the statutory tax rate applying to financial institutions was lowered from 37.58% to 35.89% as from the year 2016 and thereafter.

The balance of deferred taxes as of June 30, 2016, has been computed in accordance with the new tax rate, as stated in the Income Tax Ordinance Amendment Act (Amendment No. 216), 2016, according to the tax rate expected to apply at date of reversal. The effect of the change on the financial statements as of June 30, 2016, is reflected in a reduction of NIS 18 million in the balance of deferred tax assets, against NIS 16 million in deferred tax expenses and against NIS 2 million in other comprehensive loss.

NOTE 16 – COVERSION OF EMPLOYEE RIGHTS TO JUBILEE AWARDS

On March 20, 2016, Bank Leumi announced the conversion of its employees' rights to jubilee awards into shares of Bank Leumi. Whereas the terms of the rights of the Bank's employees to jubilee awards are linked to those of the employees of Bank Leumi, the Board of Directors of the Bank resolved to approve the conversion of the rights to jubilee awards of all the Bank's employees, who under the collective labor agreements and arrangements are entitled to jubilee awards and jubilee vacation accrued to them, as well as of those of certain additional employees of MATAF entitled to jubilee awards, in a similar manner to the conversion of such rights effected by Bank Leumi.

Following discussions with the representative committee of managers and signatories of the Bank, the Board of Directors of the Bank decided on June 14, 2016, to approve a labor agreement with the said representative committee according to which the rights of he managers and signatories of the Bank to jubilee award redeemed in cash (and not converted into shares of the Bank). In accordance with the value of the jubilee award as stated in the books of the Bank as of December 31, 2015 (excluding the discount rate of 3.5% and other adjustments).

On June 30, 2016, the Bank signed a labor agreement with the representative committee of clerks of the Bank, according to which, also the rights to jubilee awards of employees represented by this committee, would be redeemed in cash (and not converted into shares of the Bank or into blocked share units), under the same terms for redemption of the jubilee award rights pertaining to the other relevant Bank employee.

Upon the redemption of the jubilee award rights of all relevant employees of the Bank by cash payment, all rights of the Bank employees to jubilee awards become null and void (both in respect of past employment periods and of future employment periods).

In view of the above, no issue of blocked share units will be performed by the Bank, in accordance with a statement in lieu prospectus published by the Bank on June 14, 2016, for the purpose of conersion of rights to jubilee awards of employees represented by the clerks representative committee, into blocked share units of the Bank (in this respect, the Bank shall also take no action for the self purchase of its shares as stated in the statement in lieu of prospectus).

NOTE 17 – SALE OF VISA EUROPE SHARES

VISA Inc. and VISA Europe Ltd. announce on November 2, 2015, the signing of an agreement according to which VISA Inc. would acquire VUSA Europe for a consideration that would be divided among members of VISA Europe, of a status of "Principal Members", in accordance with a distribution methodology determined by VISA Europe (hereinafter – "the transaction). It has been agreed that the consideration for the transaction would be paid as follows: 69% by an immediate payment in cash, 6% by a cash payment deferred for three years following the consummation of he transaction, and 25% by issue of preferred shares convertible into VISA Inc, shares, which would be blocked for periods as determined in the transaction documents. The conversion ration of the preferred shares may, under certain conditions be reduced in the future.

Consummation of the transaction had been subject to regulatory approvals which were received during June 2016, and the transaction was consummated on June 21, 2016.

The Bank's share in the consideration amounts to NIS 25.3 million in respect of the immediate cash payment, an amount estimated at NIS 2.1 million in respect of the deferred cash payment, and preferred shares blocked for periods of between 4 and 12 years, convertible into VISA Inc. shares, the value of which at the transaction date is estimated at NIS 4.4 million.

The gain on this transaction recognized in the second quarter of the year, amounts to NIS 68 million, net after the tax effect. This amount includes the bank's share in the consideration as above as well as its share in the gain earned by ICC on the transaction.

LIST OF TABLES -CORPORATE GOVERNANCE

Corporate Governance, Additional Information and Appendices to the Annual Report

CORPORATE GOVERNANCE

DISCLOSURE OF THE PROCESS OF APPROVAL OF THE FINANCIAL STATEMENTS

The office-holders engaged in the preparation of the financial statements of the Bank are the CEO of the Bank, Mrs. Smadar Barber Zadik, and the Chief Accountant, Nachman Nitzan CPA.

In accordance with the SOX 302 directives, a Disclosure Committee chaired by the CEO and with the participation of the Head of the Chief Accountant's Division, heads of divisions and department managers subordinate to the CEO and/or the Board of Directors, the Chief Disclosure Coordinator and the Bank's External Auditor meet every quarter. The Disclosure Committee discusses material matters that could have an effect on the data in the financial statements, and deficiencies that were discovered in the financial reporting control system, and monitors the rectification of those deficiencies.

Before the financial statements are presented to the plenum of the Board of Directors, initial discussions concerning them are held at the Bank's Management, at the Disclosure Committee and with the participation of the CEO, the Head of the Chief Accountant's Division and the Bank's External Auditor. Discussed at this forum are material issues that may arise in the preparation of the financial statements and the accounting policy that needs to be applied.

The Board of Directors has authorized the Audit Committee to act as the Committee for the Review of the Financial Statements, in accordance with the Companies Regulations (Terms and Conditions Concerning the Process of Approval of the Financial Statements), 2010. The Audit Committee is headed by an external director and most of its members are qualified as independent directors and all its members have declared themselves capable of perusing and comprehending financial statements.

In accordance with a resolution of the Board of Directors, at least two directors with accounting and financial speciality must serve on the Board of Directors and on the Audit Committee. Currently, 12 out of the 13 members of the Board of Directors and 5 out of the 6 members of the Audit Committee have accounting and financial speciality. The Audit Committee consists of six directors:

1. **Mr. Joseph Horowitz**, Chairman of the Audit Committee, Serves as external director under the Companies Law, 1999 (and as external director under Proper Conduct of Banking Business Regulation 301 of the Banking Supervision Division), and with qualification as an independent director. Has accounting and financial speciality and the ability to peruse and comprehend financial statements (and has signed on a declaration confirming this in accordance with the law), in view of the following: Served for 15 years as Chief Internal Auditor and member of the management of Bank Leumi Le-Israel B.M. and previously served in various senior functions at Bank Leumi.
2. **Mrs. Pnina Bitterman-Cohen,** a member of the Audit Committee, serves as an external director in accordance with the Companies Law, 1999 (and as external director in accordance with Proper Conduct of Banking Business Regulation 301 of the Banking Supervision Division) and is qualified as an independent director. Does not have accounting and financial speciality. Has the ability to peruse and comprehend financial statements (and has signed on a declaration confirming this in accordance with the law) in view of the following: has served for over 20 years as senior office-holder at a public company traded on the Tel Aviv Stock Exchange; has served for over 20 years as director of companies operating in various fields; and has attended courses on the analysis of financial statements and risk management.

3. **Mr. Zeev Ben-Asher**, a member of the Audit Committee, serves as external director in accordance with the Companies Law, 1999 (and as external director in accordance with Proper Conduct of Banking Business Regulation 301 of the Banking Supervision Division) and is qualified as an independent director. Has accounting and financial speciality. Has the ability to peruse and comprehend financial statements (and has signed on a declaration confirming this in accordance with the law) in view of the following: MBA from Tel Aviv University; Certificate of Advanced Management Program from Harvard University. Served as a member of the Board of Management of Bank Hapoalim and the First International Bank of Israel. Served as Director at Excellence Investments Ltd. and Clal Industries Ltd; managers coach.
4. **Mr. Dov Goldfriend**, a member of the Audit Committee. Serves as external director in accordance with Proper Conduct of Banking Business Regulation 301 of the Banking Supervision Division and is not qualified as an independent director. Has accounting and financial speciality. Has the ability to peruse and comprehend financial statements (and has signed on a declaration confirming this in accordance with the law) in view of the following: CPA, BA in Economic and accounting and MA in Business Management from the University of Tel Aviv. Served as the CEO of Poaley Agudat Israel Bank Ltd, as Deputy CEO and Chief Accounting Officer and member of management at The First International Bank of Israel Ltd. and as Director of companies.
5. **Mrs. Dalia Lev**, a member of the Audit Committee. Does not serve as an external director and is not qualified as an independent director. Has accounting and financial speciality, and has the ability to peruse and comprehend financial statements (and has signed on a declaration confirming this in accordance with the law) in view of the following: CPA, ISMP from Harvard University, Bar-Ilan University law graduate, qualified arbitrator, risk manager. Served as Chairman of the Board of Directors at Mei Avivim Ltd. and Supersal Ltd. Served as joined CEO at IDB Development company Ltd., and as Director at: Airports Authority, Paz Oil Refinery Ashdod Ltd. Serves as Director at: Strauss Group Ltd; Paz Oil Co. Ltd; Belgal Ltd.
6. **Mr. Ilan (Eilon) Aish**, a member of the Audit Committee, serves as external director in accordance with Proper Conduct of Banking Business Regulation 301 of the Banking Supervision Division and is qualified as an independent director. Has accounting and financial speciality. Has the ability to peruse and comprehend financial statements (and has signed on a declaration confirming this in accordance with the law) in view of the following: CPA, BA in Economic and accounting from the University of Tel Aviv. Served as external director in Israel Discount Bank Ltd. Serves as director and joined CEO at Harvest Capital Markets Ltd.

As in each quarter, the Board of Directors' Audit Committee at its meeting on August 2, 2016, discussed allowances for credit losses, in order to approve these allowances and the provisions for writedown in the nostro portfolio before the financial statements were submitted for approval by the Board of Directors. The discussion was attended by the members of the Audit Committee, the CEO, the Chief Accountant and the External Auditor of the Bank.

In addition, at its meeting on August 7, 2016 the Audit Committee discussed the findings of the Disclosure Committee in accordance with the provisions of SOX, and with the participation of the members of the Audit Committee, the CEO, the Chief Accountant and the External Auditor of the Bank.

The Board of Directors' Audit Committee held a detailed preliminary discussion of the draft financial statements. The discussion was held on August 7, 2016, and was attended by the members of the Audit Committee, the CEO, the Chief Accountant and the External Auditor of the Bank. Discussed at this meeting were material issues that may arise in the preparation of the financial statements and the accounting policy that was applied. Following the Audit Committee's discussion, the financial statements, amended as requested by the Audit Committee, were sent to the Board of Directors with the Committee's recommendation that the members of the Board approve the financial statements, since it had compiled recommendations to the Board in all the matters required in the Securities Regulations.

The Audit Committee sends its recommendations regarding the approval of the financial statements to the Board of Directors within a reasonable time period prior to their discussion at the Board of Directors, and reports any deficiency or problem discovered in the course of its review, if any.

When the Audit Committee and the Board of Directors are in the process of approving the financial statements, drafts of the financial statements and the Board of Directors Report are submitted for perusal and comments by the directors several days before the date of the meeting that is set for the discussion of the financial statements.

The Board of Directors is the ultimate control and auditing authority at the Bank.

The Board of Directors, at its meeting on August 15, 2016, discussed the approval of the financial statements of the Bank, with the participation of the members of Bank management, including the CEO, the Chief Accountant and the Bank's External Auditor. The aforementioned recommendations by the Audit Committee were submitted to the members of the Board of Directors on August 10, 2016, in due time before the plenary discussion. At the discussion by the plenum of the Board of Directors, the CEO presented the financial results of the Bank and a comparison with previous periods. At this stage, a discussion was held during which the Bank's office-holders answered the directors' questions on matters relating to the financial results and to the financial statements. At the end of the discussion, the Board of Directors resolved to adopt the aforementioned recommendations of the Audit Committee, to approve the Bank's financial statements and to authorize for the Chairman of the Board of Directors, the CEO and the Chief Accountant to sign the financial statements.

Mr. Yanon Shweika (who acted as General Manager of PAGI Bank until its merger with the Bank on December 31, 2015), was appointed on January 1, 2016, Vice President Member of Management and Head of the PAGI sub-division.

During January-June 2016, the Bank's Board of Directors held 15 meetings in plenary session and 31 meetings of its various Board Committees.

TRANSACTIONS WITH INTERESTED PARTIES

a. Amendment to the Securities Regulations (Periodic and Immediate Reports), 1970 - Reports on transactions with controlling shareholders.

From time to time the Bank concludes or is likely to conclude transactions in the normal course of business with controlling shareholders or their relatives or with corporations in which controlling shareholders at the Bank are likely to be regarded as having a personal interest (hereinafter: “controlling shareholders”).

Under the Amendment to the Securities Regulations (Periodic and Immediate Reports), 1970, of 2008 (hereinafter: "the Securities Regulations"), a reporting corporation must publish an immediate report on details of a transaction with a controlling shareholder or in which a controlling shareholder has a personal interest in its approval, including the main elements of the transaction or the contractual engagement, details of the competent organ that approved the transaction and a summary of its reasons for doing so, except in connection with transactions of a type which in the most recent financial reports were determined as negligible as implied by the term in Regulation 41(a)(6)(a) of the Securities Regulations (Annual financial statements), 2010. A similar instruction is applicable on reporting such transaction in the periodic report.

Since the Supervisor’s directives concerning the compilation of annual financial reports apply to the banks, and not the said regulations, the Association of Banks approached the Securities Authority regarding the matter of applying the directive concerning a “negligible transaction” with respect to the banks and the disclosure format.

As agreed between the Association of Banks and the Securities Authority, the banks received an exemption from immediate reporting with respect to banking transactions that are not exceptional, providing that the banks have determined criteria for exceptional and negligible transactions.

As a result of this approach to the Securities Authority and the meetings that were subsequently held as a result, the Authority instructed the Bank to provide disclosure in the Bank's prospectus and thereafter in the annual reports, in the format detailed below:

- Regarding banking transactions with controlling shareholders that are not exceptional transactions, the Bank will report within the framework of the prospectus and periodic reporting on balances of credit and balances of deposits, in accordance with the format appearing in the table at the end of this section.
- In the credit table, the disclosure will be split between the controlling shareholder's credit balance and the credit balance of the controlling shareholder's relatives (on a cumulative basis). Credit to any reporting corporation connected with the controlling shareholder will be reported at the level of the reporting corporation in the consolidated report.

In view of the aforementioned, the Bank’s Audit Committee determined criteria regarding the nature of the said transactions as exceptional or as unexceptional or as negligible, in connection with transactions with controlling shareholders or in which controlling shareholders have a personal interest.

The criteria will also be applied to transactions conducted in the ordinary course of business by companies that are controlled by the Bank, such as banking corporations that are controlled by the Bank.

It should be noted that the criteria are likely to be examined from time to time by the Audit Committee inter alia as the result of changes in the Bank's policy and business activities and in market conditions, and that the Audit Committee is likely to change them from time to time and/or add to them additional types of transactions and/or various criteria.

According to additional amendment of the securities regulation from 2015 (applicable from January 2016) the duty to publish an immediate report on such transaction was abolished and the requirement to report these transaction on the periodocal report remained.
Accordingly and with respect to banking transactions, the Bank published the report detailed at the end of this section.

In the matter of a non-banking transaction, the Bank has specified that a "negligible transaction" is a transaction that is conducted in the ordinary course of business at market conditions, which conforms to the criteria detailed below:
A one-time transaction for the purchase of services or products from a controlling shareholder, or a transaction as stated in which a controlling shareholder has a personal interest and whose amount does not exceed a minimum amount (as defined below) or a continuing transaction as stated (a number of essentially identical transactions with the same company) whose cumulative amount in the course of the calendar year does not exceed 0.75% of total operating and other expenses as reported in the most recent financial statements of the Bank. It is clarified that the aforementioned are not to be applied to a contractual engagement with a controlling shareholder or his relative regarding the terms of his service and employment. In this respect, the definition of the term "minimum amount" will be as defined in Proper Conduct of Banking Business Regulation 312 "Transactions of banking corporation with related persons".
Transactions involving the rental of premises from a controlling shareholder or transactions as said in which a controlling shareholder has a personal interest, which were approved in a single calendar year, providing that the overall amount of the transactions does not exceed the minimum amount.
Transactions involving the rental of property to a controlling shareholder or transactions as said in which a controlling shareholder has a personal interest, which were approved in a single calendar year, providing that the overall amount of the transactions does not exceed the minimum amount.
Any other transaction the amount of which does not exceed the minimum amount, or the total amount of transactions of its type for the calendar year which do not exceed the minimum amount.

In the matter of a banking transaction, the Bank has specified that a "negligible transaction" is a transaction that is conducted in the normal course of business at market conditions, which conforms to the criteria detailed below:

1. A transaction for which or as a result of which the indebtness amount does not exceed the minimum amount (as defined above).
2. Any other transaction for which its amount does not exceed the minimum amount.

An immediate report inasmuch as required under the Securities Regulations will be issued in respect of transactions as said that are not banking transactions and that are not negligible transactions.

In addition to the aforementioned, with respect to an indebtedness transaction to which Proper Conduct of Banking Business Regulation 312 does not apply, if the Bank is informed of the said transaction, the Bank undertakes to submit any such transaction for approval in accordance with Proper Conduct of Banking Business Regulation 312, and to provide disclosure on it in the Bank's annual report. The definitions "negligible transaction" and "exceptional transaction" with respect to these transactions will be the same as the above-mentioned definitions specified by the Bank with respect to the Securities Regulations.

b. Determination of criteria for the purpose of the Bank's transactions with interested parties

Under Paragraph 117 (1a) of the Companies Law, 1999 (hereinafter: "the Companies Law") which was amended as part of Amendment No. 16 to the Companies Law, the Audit Committee was charged with responsibility for deciding on the causative basis for the specification of the Bank's transactions with office-holders in it or for transactions in which office-holders have a personal interest and the Bank's transactions with controlling owners or transactions in which a controlling owner has a personal interest, whether these are exceptional or non-exceptional transactions. Paragraph 117 (1a) also stipulates that the Audit Committee may decide as said regarding a type of operation or transaction, on the basis of standards which it will determine once a year in advance.

Accordingly the Audit Committee of the Bank specified standards, and stipulated that once a year a discussion will be held for the purpose of determining or re-approving the standards.

The standards were determined on the basis of quantitative criteria, and it was stipulated that a transaction that is not exceptional is a transaction executed during the normal course of business at the Bank and at market terms. The audit committee determined standards regarding examination of market terms.

The said criteria will also apply to transactions during the normal course of business which are conducted by companies controlled by the Bank, such as banking corporations controlled by the Bank. The said criteria will not apply in connection with the Bank's transactions with corporations under its control. In addition, it is clarified that the criteria do not concern approval of terms of employment and service at the Bank.

It should be noted that the criteria are likely to be examined from time to time by the Audit Committee inter alia in view of changes in the Bank's policy and business activity or in market conditions, and that the Audit Committee is likely to change from time to time and/or add to the criteria additional types of transaction and/or criteria.

On January 2014, Paragraphs 117(1b) and 117(2a) of the Companies Law went into effect within the framework of an indirect amendment to the Companies Law, which was included in the Law for Increasing Competition and Reducing Concentration, 2013. Pursuant to the said paragraphs, the Audit Committee is required to stipulate a requirement to fulfill a competitive process with respect to transactions with controlling owners or in which a controlling owner has an interest, even if these are not extraordinary transactions, under the supervision of the committee or the person deciding in this matter and in accordance with standards that will be prescribed, or to stipulate that other process determined by the Audit Committee are to fulfilled before engagement in the said transactions, all this in accordance with the type of transaction, and is entitled to specify standards once a year in advance. In addition, pursuant to the said paragraphs, the Audit Committee is required to determine the manner in which non-negligible transactions are to be approved, and including in this respect to determine types of transactions as said which will require the Audit Committee's approval,

The Audit Committee approved standards concerning the obligation to perform competitive process according to paragraph 117(1b) to the Companies Act (they will be submitted for approval at least once a year) and the manner of approval of non-negligible transactions in accordance with paragraph 117(2a) to the Companies Act.

c. Transactions approved in accordance with Paragraph 270(4) of the Companies Law (including framework transactions still valid at the report date and transactions approved in accordance with the Companies Regulations (Relief regading Transactions with Interested Parties), 2000 (hereinafter: "the Relaxation Regulations"):

1. In view of the termination of a framework transaction dated October 2009, and following approvals of the Audit Committee, the Compensation Committee and the Board of Directors, the general meeting of shareholders of the Bank approved on June 29, 2014, the following resolutions concerning insurance for directors and officers:
   - Renewal of “directors and officers” insurance policy for a period of eighteen months beginning on July 1, 2014 (“the insurance period”) issued by Clal Insurance Co. Ltd. for the Bank and for the Bank Group, including subsidiaries of the Bank and the controlling owner, FIBI Holdings Ltd. (hereinafter – "Group companies"), which will apply to officers serving at the Bank and at Group companies from time to time, including the President and CEO, as well as officers who have a controlling interest in the Bank and/or their next of kin and/or persons the inclusion of whom in the insurance policy, might be the interest of holders of a controlling interest.
   - Prior approval, for the purchase by the Bank of an insurance policy, as stated above, covering the Bank and Group companies for a period of five years following the termination of the insurance period, including by way of extension of the original policies and/or by way of the purchase of new policies, which will apply with respect to officers who may serve at the Bank and at Group companies from time to time, including the President and CEO, as well as officers who have a controlling interest in the Bank and/or their next of kin and/or persons the inclusion of whom in the insurance policy, might be the interest of holders of a controlling interest.

     The said resolution comprises also a resolution for the approval of a framework transaction, as defined in item 1(3) of the Relief Regulations, as well as a resolution under Section 267A of the Companies Act, as part of the compensation policy of the Bank (as long as this policy remains in effect, details of which were published in an immediate report by the Bank dated January 5, 2014, Ref. No. 004648-01-2014), as stated in item 1B(1) of the Relief Regulations.
   - Approval of the manner in which the said insurance fees are to be allocated among FIBI Holdings Ltd., the Bank and Group's companies which elect to join the insurance policy as from July 1, 2014.

   The terms for the renewal of the policy following the termination of the insurance period within the framework transaction, the compensation policy and the manner of allocation of the insurance fees between FIBI Holdings Ltd., the Bank and the Bank's subsidiaries, are described in an immediate report of the Bank dated May 22, 2014 (Ref. No. 071067-01-2014). The contents of this report are presented here by way of reference.

   According to the above, on December 1, 2015 the Bank's Board of Directors passed a resolution, after obtaining the approval of the Audit Committee and the Remuneration Committee dated November 18, 2015, and in accordance to regulations 1(3), 1a1, 1b(5) and 1b1 to the relief regulations, to approve the renewal of the policy for an 18 months period starting January 1, 2016 till June 30, 2017 ("The current insurance period") through Menora-Mivtachim Insurance Ltd. For the companies in the group, as defined above. The policy include the President and CEO, as well as officers who have a controlling interest in the Bank and/or their next of kin and/or persons the inclusion of whom in the insurance policy, might be the interest of holders of a controlling interest. The terms of the policy for the current insurance period are detailed in the immediate report of the Bank dated December 1, 2015 (reference no. 2015-01-170883) and the contents of this report are presented here by way of reference.

2. On October 30, 2014, after obtaining the authorizations from the Compensation Committee and the Board of Directors of the Bank, the general meeting of shareholders approved the continued employment of Mrs. Yehudit Dagan, who is "a relative of a controlling shareholder" in the Bank, as a clerk in the Banking Operations Division at MATAF - Computing and Financial Operation Ltd. (hereinafter: "MATAF"), a wholly owned and wholly controlled subsidiary of the Bank, for a period of up to three additional years beginning on November 15, 2014 (date of expiry of three years since date of the general meeting's approval in 2011 of her continued employment) or until her retirement, whichever is earlier, at the existing terms of Mrs. Dagan's employment which are based on collective labor agreements. Also approved were certain potential changes in the terms of her employment, as is accepted and reasonable in the employment of an employee at the Bank and at MATAF of Mrs. Dagan's seniority and grade, all this as specified in the approval of her employment.
3. On September 23, 2014, after receipt of the approval of the Compensation Committee and in accordance with Regulation 1b. of the Companies Regulations (Reliefs in Transactions with Interested Parties), 2000, the Board of Directors of the Bank reapproved the continued payment of remuneration to directors from among the controlling shareholders of the Bank on the basis of the remuneration which was approved for all the directors (excluding the Chairman of the Board of Directors) at the general meeting of the Bank's shareholders of September 14, 2008. The amounts of remuneration approved are in accordance with the policy for the compensation for officers of the Bank, the details of which as regards directors' remuneration are specified in section 7 to the immediate report of January 5, 2014, and to the corrective report of that date (reference nos. 003511-01-2014 and 004648-01-2014, respectively), the contents thereof is presented herewith by way of reference. The approved amount of remuneration and the reasons for its approval are stated in an immediate report of the Bank dated September 23, 2014 (reference no. 163920-01-2014), the contents of which is presented herewith by way of reference.
4. The provision of indemnification obligations to directors and office-holders at the Bank (including directors from among the controlling shareholders in the Bank) and its revision in 2011, as detailed in Note 25.c to the financial statements for 2015.

d. Additional information on transactions with interested parties

1. The Group, including FIBI Holdings, jointly purchases various insurance policies, including liability insurance for directors and officers (including directors who are controlling owners and their relatives).
2. In addition, the Bank and its subsidiaries conduct transactions with interested parties in the Bank from time to time in the ordinary course of business and at market terms.

3. Set out below is a collation of data concerning banking transactions that were conducted by the Bank and companies under its control with the controlling owners at the Bank (including their relatives and companies in which controlling owners at the Bank are interested parties), including data concerning transactions conforming to the criteria that were determined with respect to negligible transactions (NIS thousand):

(1) Paz Oil Co. Ltd. and its subsidiaries and affiliated companies. Paz group is controlled by the Bank's controlling shareholders.
(2) FIBI Holdings Ltd. and its subsidiaries and affiliated companies. FIBI Holdings is the parent company of the Bank and is controlled by the Bank's controlling shareholders.
(3) Relatives of controlling shareholders of the Bank. As the term relative is defined in the Banking Law (licensing)-1981.
(4) On the basis of balances at the end of each day.

DETAILS OF THE OWNERS OF CONTROL IN THE BANK

FIBI Holdings Ltd. owns 48.34% of the issued share capital and voting rights in the Bank (a rate comprising the control core in accordance with the control permit granted by Bank of Israel). The controlling shareholders of FIBI are Mr. Zadik Bino and his children, Nessrs. Gil Bino, Hadar Bino-Shmueli and Daphna Bino-Or (hereinafter – "the Bino Family), Messrs. Michael and Helen Abeles and Messrs. Barry Lieberman, Casey Lieberman-Harris, Lee Lieberman and Joshua Lieberman (each of the said groups through corporations under their full control: Binohon Ltd., Instanz No. 2 Ltd. and Dolphin Energies Ltd.). The controlling shareholders are party to various arrangements concerning their holdings in FIBI, and indirectly, at the Bank, as detailed in the Chapter "Details regarding the stakeholders in the Bank" in the financial report for 2015.

In accordance with FIBI's reports as of date of this financial report, the holdings of the controlling stakeholders in FIBI (in equity and voting) are as follows: Binohon – 38.29%, Instanz No. 2 Ltd. – 15.66% and Dolphin Energies Ltd – 15.66%.

It is noted that in accordance with the provisions of the Promotion of Competition and Reduction in Centralization Act, 2013, and the list of centralized factors in the market that was published by the Committee for the Reduction in Centralization, the Bank has been defined as a significant financial institution and PAZ Oil Company Ltd. ("PAZ") has been defined as a significant non-financial corporation. In view of the above, and in accordance with the existing situation, at the end of a transitional period of six years from date of publication of the Centralization Act, the controlling shareholders of the Bank would not be pernmitted to control both the Bank and PAZ at the same time.

In addition, to the best of the Bank's knowledge, following the arrangements that had existed between FIBI and Israel Discount Bank Ltd. (hereinafter - "Discount"), when the latter was an interested party in the Bank (as detailed in Note 33.f to the financial report for 2015), the Antitrust Commissioner ruled in 2010, among other things, that Discount has to reduce its holdings in the Bank to a rate of holdings of less than 5% of the issued share capital of the Bank, no later than September 19, 2017.

On February 1, 2016, Discount reported that it had sold, in an off-market transaction, all of the shares of the Bank held by it (9,313,653 shares comprising approximately 9.3% of the equity in the Bank), at a price of NIS 44.70 per share (the consideration was paid on February 4, 2016). As from that date, Discount is no longer an interested party in the Bank.

ADDITIONAL INFORMATION

LABOR RELATIONS AT THE BANK

Two labor organizations exist at the Bank: the union of managers and signatories numbering approximately 800 employees and the clerks union numbring approximately 2,120 employees. A collective labor agreement is in effect at the Bank which links the employment terms of the clerks and managers to those agreed upon by the Management of Bank Leumi Le'Israel Limited (hereinafter – "Bank Leumi") and the unions of its employees.

A. On March 20, 2016, Leumi announced the conversion of the rights of its employees to "jubilee awards" into shares of bank Leumi. Whereas the terms of entitlement to jubilee awards for employees of the Bank are linked to those of Bank Leumi employees, the Board of Directors of the Bank decided to approve the conversion of the rights to jubilee awards of all employees of the Bank, who under the collective labor agreements are entitled to jubilee awards and jubilee vacation accrued in their favor and of certain employees of MATAF to whom jubillee awards are paid. The conversion will be carried out in the same maner to the conversion of rights in Bank Leumi.

   Following discussions with the union of managers and signatories, the Board of Directors decided on June 14, 2016 to approve a new working agreement with the union of managers and signatories at the Bank, according to which the rights to jubillee awards will be converted into cash payment (and not the Bank's shares), according to the value of the jubillee awards recorded in the Bank's books as of December 31, 2015 (except for the use of discounting rate of 3.5% and other reconciliations).

   On June 30, 2016 a working agreement with the clerks union was signed, according to which, the rights to jubillee awards of the employees represented by that union will be converted to cash payment (and not the Bank's share or blocked units) in the same condition of the conversion of the other relevant Bank's employees.

B. Otzar Hahayal

   The Histadrut labor federation declared labor dispute in Otzar Hahayal, which will enter into effect on May 22, 2016. The cause of the dispute are differences in the negotiation of payroll agreement and other organizational issues. The management of Otzar Hahayal and the employees' committee continue to negotiate on new payroll agreement.

LIMITATIONS REGARDING LEGISLATION, STANDARDS AND SPECIAL CONSTRAINTS AFFECTING THE BANK GROUP

GENERAL

The legislative coverage of banking in Israel applying to the Bank includes the Banking Order of 1941, The Bank of Israel Act of 2010, the Banking Act (Licensing) of 1981 and the Banking Act (Customer Services) of 1981. Under these Acts, the Bank is subject to supervision by the Bank of Israel and, in particular, by the Governor of the Bank of Israel and the Supervisor of Banks, and the directives, regulations, guidelines and orders of the Supervisor of Banks ("banking legislation") applying to the Bank. The banking legislation constitutes the legal and primary basis for the activity of the Bank Group.

Apart from the banking legislation, the Bank is subject to parallel legislative systems that govern its operations in such areas as capital market activity and mortgage activity. In addition to the primary legislative provisions, the Bank is bound by the directives, regulations and guidelines of such competent State authorities as the Securities Authority, the Capital Market, Insurance and Savings Commissioner at the Ministry of Finance, the Stock Exchange and the Antitrust Authority. Additional laws on special subjects impose specific requirements and directives on the banking system. Examples in this respect are the Anti Money Laundering and Terrorism Financing Act, regulation concerning operation with foreign citizens and FATCA.

The Bank Group acts in compliance with the provisions of the law and the regulations applying to it.

Set out below are brief details of legislative changes and legislative initiatives relevant to the period of the report, which have an effect on or are likely to affect the Bank's activity.

BANKING

Banking Rules (Customer service) (Commissions fees) (Amendment), 2016

The Banking Rules (Customer service) (Commission fees) (Amendment), 2016, were published on July 19, 2016. In acdcordance with these Rules banks would be required once a year, on their own initiative and giving notice to the customer, to attach to the basic commission channel customers classified as "senior citizens" or "handicapped", and which according to criteria determined in the Rules, may benefit from the transfer to the basic channel. The customer is entitled to cancell the attachment to the channel, as stated.

Moreover, the Rules include restrictions on commission fees charged in respect of delivery of certain documents following the closure of an account and in respect of the change in the repayment date of a housing loan. Also published was the Banking Order (Customer service) (Control over standard reports service at the customer's request), 2016, and a maximum amount was determined for commission fee charged in respect of standard reports at the customer request, provided to private individuals and small businesses.

Letter of Bank of Israel regarding measures with respect to commission fees.

In a letter dated January 24, 2016, Bank of Israel nnounced that as part of its dealing with exceptional commission fees, it intends to perform in the course of 2016, a comprehensive survey of all prices for banking services included in the first Addendum to the said Commission Rules, with the aim of idendifying and dealing with such commission fees. Specific guidelines would be issued to the banks in accordance with the findings of this survey.

Proper Conduct of Banking Business Directive No. 425 in the matter of "annual reports to customers of banking corporations"

Bank of Israel published on June 21, 2015, Proper Conduct of Banking Business Directive regarding annual reports to customers of banking corporations. The Directive introduces the duty of providing customers with an annual report and defines the manner of its delivery detailing the information to be included therein. The report should include comprehensive information regarding the assets and liabilities of the customer.

The Directive applies to private individuals and small businesses and entered into effect on February 28, 2016.

Proper Conduct of Banking Business Directive No. 432 in the matter of "the transfer of banking activity and the closing of a customer's account"

Bank of Israel published on December 21, 2014, an amendemnt to Proper Conduct of Banking Business Directive in the matter of the transfer of banking activity and the closing of customer accounts. The principal points of the amendment refer to increasing the possibilities of closing a bank account or the transfer of banking activity by neans of additional communication channels, as well as the delivery of information to a customer in a format similar to that stated in Directive 425 of Bank of Israel regarding annual reports to customers.

The Directive applies to private individuals and small businesses and entered into effect in full on February 28, 2016.

Proper Conduct of Banking Business Directive No. 454 – Premature repayment of non-housing loan

Bank of Israel published on June 21, 2015, an amendment to Proper Banking Business Directive in the matter of the premature repayment of non-housing loans. The purpose of the amendment is to expand the scope of the existing arrangement stipulated in the Directive, to establish a uniform and visible mechanism for setting the interest rate used to calculate the discount component and to create uniformity, to the extent possible, between the prepayment of housing loans and the prepayment of non-housing credit. Pursuant to the amendment, the said arrangement will apply to loans granted to private individuals or to small businesses, as defined in the public reporting instructions, in contrast to the previous version which applied only to loans the original amount of which did not exceed NIS 750 thousand and were granted for a minimum period of 6 months ("protected loans"). Moreover, a new mechanism for the calculation of the discounting component was established in respect of protected loans, which is based on the average rate of interest and eliminates the risk premium applying to the borrower in the case of premature repayment. In addition, customer disclosure requirements have been expanded in respect of all loans, among other things, by means of an explanatory note to be provided also upon the granting of the loan.

The amendment took effect on April 1, 2016.

On July 11, 2016, Bank of Israel published an amendment to the above Directive, in which it is inter alia clarified, that the premature redemption of loans granted prior to April 1, 2016, shall be made according to the classification of the customer (private individual/tiny business/other) at date of repayment, while the premature redemption of loans granted after the above date shall be made according to the classification of the customer at date of granting the loan. It is also determined that the presentation of the capitalization component formula and its conputation shall be made on the Internet website of the bank instead of in a news letter.

Steps to expand the distribution and use of immediate debit cards

On June 30, 2015, Bank of Israel issued instructions for the integration of the use of immediate debit cards in Israel and for the enhancement of competition in the credit card market, as detailed below:

1. Within the framework of the amendment of Proper Conduct of Banking Business Directive No. 470, two chapters have been added to the Directive – Chapter regarding "immediate debit card and rechargeable card", which includes reference to dates for the transfer of money in immediate debit transactions (from date of charging the card holder to date of crediting the trading house), as well as to the manner of disclosure to the customer of immediate debit transactions, including within the framework of a current account.

   Chapter regarding the use of debit cards under EMV Standard" ("clever cards"), which includes instructions for the conversion of the debit card layout (issuing, clearing, automatic appliances) to the EMV Standard.

   The amendment to the Directive are taking effect gradually as from October 1, 2015 and until December 31, 2018.
2. Letter of the Supervisor of Banks in the matter of expanding the distribution of immediate debit cards – banking corporations are required to take active action with respect to existing and new customers, offering them immediate debit cards, as well as maintain follow-up and periodic reporting to Bank of Israel regarding the distribution of immediate debit cards.
3. Banking Order (Customer services) (Supervision over the service provided by an issuer to the clearing agent in respect of cross-clearing of immediate debit transactions (Provisional instruction)), 2015 – the cross commission for immediate debit transactions has been declared as a price controlled fee, at a rate of 0.3% (in contrast to the average cross commission of 0.7% in practice at the present time for ordinary charge transactions). This will apply as from April 1, 2016, for a period of one year, in order to allow preparations for the determination of the fee by the Antitrust Commissioner. The Order was published on August 26, 2015.

   Furthermore, the Banking Rules (Customer services) (Fees) (Amendment No. 2), 2015, was published on June 28, 2015, which, among other things, includes restrictions on the charging of card fees for immediate debit cards, including a prohibition on the charging of card fees for an immediate debit card issued to a customer having already a valid credit card that had been issued by the same banking corporation. This for a period of 36 months from date of issue of the immediate debit card.

The Bank is preparing for the implementation of the said instructions.

Circular letter by Bank of Israel in the matter of restrictions on indebtedness of a borrower and of a group of borrowers.

The Supervisor of Banks issued on June 9, 2015, a circular letter amending Proper Conduct of Banking Business Directive No. 313 regarding restrictions on indebtedness of a borrower and a group of borrowers. The letter reduces the capital definition in respect of Tier I capital, thus stiffening the restrictions on the granting of credit to a single borrower and gtoups of borrowers. Furthermore, the restriction applying to the indebtedness of a banking borrower group to a banking corporation has been changed, forming now 15% of the said capital instead of 25%.

The amendments to the Directive took effect on January 1, 2016, except for the change in the definition of capital the reduction thereof shall be effected gradually over twelve quarters until December 31, 2018.

Draft Memorandum of the Banking Act (Customer service) (Amendment No. 20), 2015

The draft, published on September 3, 2015, includes several items, among which:

1. Determination of a disputable status according to which, refusal on the part of a banking corporation to provide service, shall be considered a reasonable refusal if it stems from the customer's refusal to provide information required by law, and in particular by the Prevention of Money Laundering Order and of Proper Conduct of Banking Business Directive No. 411. Furthermore, refusal on the part of a banking corporation to provide service where there is a reasonable basis for the assumption that the transaction pertains to money laundering or the finance of terror, shall also be considered a reasonable refusal according to Section 2(a) to the Banking Act (Service to customer).
2. Expanding the arrangement for the removal of pledges securing a debt that had been already settled, also to caveats and to commitments to register a mortgage, registered to secure such debts, allowing also their removal by the customer himself, including authorizing the Supervisor of Banks to impose a monetary sanction in respect of a violation of this duty (replacing the fine in effect at the present time).
3. Amendment of the definition "customer" in relation to commissions, in a manner that would allow the definition of an individual who maintains a bank account for business purposes as a "small business" or as a "large business", in accordance with his business turnover, this according to the amendment already made to the Banking Rules (Customer service) (Commissions), 2008, the effect of which had been suspended until the said amendment to the Banking Act (Customer service) takes effect.
4. Authorizing the Supervisor of Banks to publish data of banking corporations regarding their actual average income from charges to customers for services rendered, as well as the rates of interest actually payable to customers on shekel deposits, and actually charged to customers for credit granted.

Draft Proper Conduct of Banking Business Directive No. 450 in the matter of "procedures for the collection of debts"

Bank of Israel published on April 7, 2016, an amended draft directive in the matter of debt collection procedures aimed at regularizing the actions which a banking corporation should adopt in the area of bank/customer relations, and creating higher transparancy and fairness in the process of debt collection. Among the principal issues of the draft are – requirement for determining a policy in respect of the collection of customer debts, creating a new function for this matter, determination of a maximum rate for interest on arrears of a loan, including an approved credit facility in an account, and the required proper disclosure.

Proper Conduct of Banking Business Directive No. 367 regarding online banking

On July 21, 2016, Bank of Israel published a Proper Conduct of Banking Business Directive. The aim of the Directive is the removal of existing barriers hindering the continued development of digital banking, and allowing flexibility in accordance with the changing technology, this without requiring banking corporations to apply to Bank of Israel with respect to a change or addition to the service, to the extent that these are not material.

Therefore, the Directive refers mainly to principles, and only where Bank of Israel considered that these were required, specific guidelines have been included. The Directive regularizes and updates issues, which up till now had been regularized in the Chapter "Online banking services" in Proper Conduct of Banking Business Directive No.357 and in Proper Conduct of Banking Business Directive No. 418 – the opening of accounts via the Internet, as well as additional issues, including the agreement for the granting of online banking services. The Directive imposes on banking corporations increased responsibility for the risk management involved in the expansion of distance banking activity and for customer data protection, including the addition of controls, the monitoring of irregular operations, delivery of warning notices to customers and guidance provided to customers.

Amendment of Proper Conduct of Banking Business Directive No. 420 in the matter of delivery of notices via the Internet

On July 25, 2016, Bank of Israel published an amended Proper Conduct of Banking Business Directive in the matter of online notices. The principal items of the Directive are:

- Increasing the classes of notices and documents , which may be digitally delivered, inter alia, allowing banks to deliver in this way also notices and instruction documents given at the branches.
- Allowing the delivery of legal notices via SMS where it has been determined that the sending of notices in this manner is legal.
- Requiring banks to deliver warning notices via SMS in cases where five checks had been dishonored and in cases where limitations had been imposed on an account.
- Relief regarding the terms of attaching a joint account to the service of online notices.

Draft amendment of a letter of the Supervisor of Banks in the matter of classes of accounts and terms upon which the signature of a customer on an agreement would not be required

On August 7, 2016, Bank of Israel issued an amendment of a letter regarding classes of accounts and terms upon which the signature of a customer on an agreement would not be required. The principal items of the amendments are:

- Addition of classes of agreements not requiring customer signature.
- Determination of classes of agreements which may be entered into by means of a recorded conversation or by means of a computerized answering service, and the terms according to which such agreements may be entered into.

A project for locating dormant deposits and accounts of deceased persons

Bank of Israel published on May 19, 2016, a draft Proper Conduct of Banking Business Directive in the matter of a project for locating dormant deposits and accounts of deceased persons. This project, which is to be operated by means of an Internet platform of the Supervisor of Banks, is intended to assist bank customers and their heirs in locating dormant deposits and accounts of deceased persons. The draft Directive regularizes various aspects regarding the operation of the project, including the factors dealing with the customers, identification procedures required for the delivery of information or the receipt of funds, etc.

Electronic clearing of checks Act, 2016

The Act was formally published on January 10, 2016.

The Act eliminates the need for the physical conveying of checks, their storage and retrieval, thus making the clearing process more efficient. It allows the use of advanced electronic means for the depositing of checks, regularizes the manner of returning a dishonored check, and admittance of an electronic check as evidence in legal proceedings. The scope of responsibility of a bank toward its customers shall not change following the change in the clearing process. The Act takes effect six months after date of publication. During a period of eighteen month from the date on which the Act takes effect, it would be possible to simultaneously clear checks both physically and electronically, thereafter, only electronic clearing would be possible.

The Insolvency and Economic Recovery Bill, 2016

The Bill passed its first reading on March 9, 2016. It includes a comprehensive reform of insolvency legislation, while determining one legislative framework that includes the two classes of debtors – corporations and individuals, as well as reference to the unique aspects relating to each. Among other things, the Bill includes the following new premises:

The definition of insolvency would be based on the cash flow test, and an entity would be considered insolvent if it cannot repay its debt on the due date. This, instead of the assets test in practice today;

A future creditor would not be entitled to request the opening of insolvency proceedings, otherwise than in the case where the debtor is acting with intention to deceive his credirors;

The Court authorized to deal with insolvency proceedings of an individual would be the Magistrate court, while insolvency proceedings of a corporation shall continue to be dealt with at a District Court;

As regards corporations, the Court shall decide on the appropriate manner for dealing with insolvency of a corporation – economic recovery proceedings or liquidation proceedings;

As regards individuals, proceedings shall be conducted before a Magistrate Court or before administrative authorities, depending on the scope of debts of the debtor. During an examination period, the economic condition and conduct of the debtor will be examined and a stay of proceedings will apply. At the end of the examination period, a recovery plan would be formed for the debtor, whereupon the conclusion thereof, the individual would be exempted from his debts. Where the individual has no ability to repay his debts, he would be immediately exempted;

The majority of preferential debts would be cancelled;

A creditor secured by a floating pledge, would be entitled to an amount equal to 75% of the value of the assets subject to the floating pledge, unless the floating pledge had been registered prior to the publication of the Act, subject to terms detailed in the Bill;

A secured creditor would be entitled to receive interest in arrears on the secured debt, payable out of the proceeds of realization of the pledged assets, only after the debts of the ordinary creditors have been repaid in full;

Directors of an insolvent corporation are required to take reasonable measures in order to reduce the scope of the insolvency;

The Minister of Justice shall appoint an officer in charge of insolvency and economic recovery proceedings, who would have enforcement authority with respect to offences relating to insolvency proceedings.

The Pledge Bill, 2015

On July 17, 2015, the Knesset passed, in first reading, the Pledge Bill.

The Bill proposes to establish a comprehensive reform of the pledge laws and to replace the provisions of the existing Pledge Act and of the Companies Ordinance in this matter.

Among the central changes of the Bill are: the right of an individual to pledge an asset not yet in his possession or even an asset that has not yet come into existence; revocation of the concept of a "floating pledge" – the borrower company would be able to create a fixed pledge upon its future assets, and the status of such pledge would not be automatically inferior to specific pledges; cancellation of the possibility of a creditor to limit the power of the debtor to effect transactions regarding the pledged asset, and more.

The Credit Data Act, 2016

The Credit data Act, 2016, was published on April 12, 2016, replacing the Credit Data Service Act, 2002. The Act, regularizes the establishment of a credit data participation system, having at its center a public credit database to be established, managed and operated by Bank of Israel. The Act introduces several central changes, among which: the scope of information provided and received with respect to customers of a bank would be enlarged. This scope will be determined in continuation, by the Minister of Justice, with the consent of the Governor of Bank of Israel and the Minister of Finance; the database will maintain credit data of a customer, unless that customer requests that no data should be collected in his respect; the holder of a credit data service license would be permitted to provide a credit report to a provider of credit, on condition that he obtained the consent of the customer to the delivery of a credit report in his respect; imposing a personal liability on officers of a corporation in respect of violation of the provisions of the Act, and authorizing the officer in charge of participation in credit data, appointed by the Governor of Bank of Israel, to impose a monetary sanction in respect of the violations stated in Section 85 of the Act.

In order to ensure that on date of the establishment of the public credit database, it would have a satisfactory volume of credit data enabling its operation, Bank of Israel published on June 21, 2016 a provisional instruction with respect to the maintenance of information for the purpose of delivery to to the database. According to the instruction, banks and credit card companies are required to safekeep the required information for the purpose of delivery to the database as from May 2016. The provisional instructions details the required fields of information and the format for safekeeping the information

The Regulation of Off-banking Loans Bill (Amendment No. 3), 2015 (the "Fair Credit Bill")

The Bill passed its first reading on July 27, 2015. This Bill follows the recommendations of the team appointed to examine the increasing of competition in the banking sector, and its aim is to equalize the norms applying to non-institutional lenders to those applying to institutional lenders, including the banking sector. According to the proposed amendment, all the provisions of the Regulation of Off-banking Loans Act, including provisions in respect of the process of credit granting and collection thereof, shall apply also to institutional lenders, on condition only that this does not derogate from the duties pertaining to an institutional lender under another law. The Bill proposes to add a definition to the maximum rate of credit cost, and to establish a uniform formula for the calculation of the maximum interest rate charged by all lending entities granting credit to individuals or to corporations of a class to be determined by the Minister of Justice.

Bank of Israel letter regarding operating efficiency in the banking sector in Israel

On January 12, 2016, Bank of Israel published a letter regarding operating efficiency in the banking sector in Israel. The letter states, that the economic activity, the regulatory and the changing technological environments of the banking sector in Israel, may materially impact the volume of earnings of the banking sector. It is further stated, that an analysis of the Israeli banking sector data and the use of different performance indices, indicate a low level of efficiency, as compared with banking systems in other advanced countries. In accordance therewith, and in order to ensure long-term stability, banking corporations are required to outline a multi-annual program for increasing efficiency. The program has to determine specific actions for the range of the next five years, as well as principles for improving efficiency in the longer term. In order to encourage the implementation of an efficiency program, the Supervisor of Banks shall grant banks, subject to fulfillment of certain conditions, a deferment in dates set for attainment of the capital adequacy goals determined for them, based on the effect of the estimated reduction in the regulatory capital at date of approval of the program, caused by the defined costs involved in the implementation of the efficiency program.

The letter also includes instructions regarding the accounting treatment of long-term efficiency measures, including a voluntary retirement plan. The reliefs stated in the letter shall apply to efficiency programs that would be approved as from date of publication of the letter and until December 31, 2016.

Increase in competition regarding prevalent banking and financial services

The committee for the increase in competition regarding prevalent banking and financial services" and the Increase in Competition and Reduction in Concentration in the Banking Market in Israel Bill (Legislation amendments), 2016.

On July 6, 2016, The committee for the increase in competition regarding prevalent banking and financial services, headed by Adv. Dror Strom, published its recommendations. was appointed, headed by Adv. Dror Strom. The task of the Committee was to recommend measures required to increase competition in the said sectors. On July 31, 2016, the Government and the Ministers' Committee on Legislation Matters approved the Increase in Competition and Reduction in Concentration in the Banking Market in Israel Bill (Legislation amendments), 2016, aimed at implementing certain of the recommendations of the Committee. Among the main items of the Bill are: a bank having a wide scope of operations, the value of its assets, as stated in its most recent financial statements prepared on a consolidated basis ("balance sheet assets") exceeds 20% of the said assets of all banks in Israel ("a large banking corporation") shall not engage in the issue of debit cards and in the clearing of transactions made by debit cards, shall not control and shall not hold means of control in a corporation engaged in in the issue and clearing as stated above (a bank shall be entitled to operate the issue of debit cards through another entity or to engage with a clearing agents).The said restrictions on a large banking corporation (if it controlled or held means of control immediately prior to the date of publication of the Act) would apply three years from date of publication of the Act, and under certain conditions – four years from data of publication of the Act.

It is further proposed that as from the end of four years from date of publication of the Act and until six years from that date, The Minister of Finance will have the authority to determine that the said restrictions would apply

also to a banking cprporation which is not a large banking corporation, provided that the value of ots balance sheet assets does not exceed 10% of the total balance sheet assets of all banks in Israel.
As of date of publication of the Bill the value of the balance sheet assets of the Bank is less than 10% of total balance sheet assets of all banks in Israel.

In order to assist new players in the market, including credit card companies separated from banks, to compete with the existing banking corporations, a transitional period of five years since date of publication of the Act has been determined ("the transitional period"), within the framework of which restrictions would be imposed on banks that issue debit cards and prior to date of publication of the Act controlled or held means of control in a debit card company (including the Bank). It is, inter alia, proposed that as from the end of one year from date of publication of the Act and until the end of the transitional period, banks, as stated, would be required to perform the debit card issue operation through at least one debit card company, and with respect to a large banking corporation and to any other bank not engaged in issueance operations (including the Bank), by means of at least two companies provided that at least one of which is not controlled by that bank and it does not hold means of control in that company. It is further proposed that as from the end of two years from date of publication of the Act and until the end of the transitional period, a bank, as stated, would not perform through one debit card company the operation and issue of over 52% of the total number of new debit cards which it issues to its customers. Additional restrictions apply to a large banking corporation during the transitional period with respect to the issuance of debit cards.
Credit cards companies are entitled to make use of the name of the customer and the details of engagment with him, if lregally obtained until the end of the transitional period while performing the issue of a debit card on behalf of a bank, for the purpose of approching the customer offering him a debit card or the granting of credit, this even without obtaining the consent of the customer (so long as the customer has not requested that use would not be made of the said information).
The Bill includes further instructions applying to all banking corporations, the aim of which is to increase competition in the market of banking and financial services, among which, the transfer of information, at the customer's request, to financial bodies regarding balances on current account, the issue of credit cards of issuers engaged with the banking corporation in an issue agreement and presentation of data to the customer, at his request, also regarding transactions made by credit card that had not been issued by the bank and payments therefore were made by charging the account of the customer with the bank, prohibiting the changing to the worse of engagement terms and prohibiting the prevention of competition and access to information of financial bodies.
The Bill proposes to addd to the areas of operation of banking corporations included in the Banking Act (Licensing) the sale of computer and operating services and the leasing of premises for computer and operating services under conditions stated in the Bill.
The recommendations of the Committee include additional matters, which will be separately regularized, including the supervision of bodies which are not institutional bodies operating in the off-banking credit granting field, currency services, issuance of debit cards and the small banking field, which includes benevolence credit and credit associations. With respect to these issues the Supervision over Financial Services Bill (Regularized financial services), 2016, has neen published, and the Supervision over Financial Services Bill Memorandum (Credit and deposit services), 2016.

The issue of the ownership structure of corporations like Automatic Bank Services Ltd., which are responsible for the interface between issuers and clearing agents, is supposed, according to the Supervisor of Banks, to be regularized at a later stage.

Additional recommendations of the Committee: requiring all banks to insure the deposits made with them with the insuring authority; permitting the cooperation between between banks which are not large banking corporations, among themselves or with other off-banking institutions, the joint pool of technological resources, subject to terms to be determined by the Supervisor of Banks (from data protection aspects) and to the provisions of the anti trust law; regularization of all payment services, based on international regulations; terms of access to controlled payment systems and enabling customers to digitally search for and compare costs between banks.

Draft letter of Bank of Israel dated June 14, 2016, regarding an outline for the establishment of a new bank in Israel: a new policy of the Supervisor of Banks for the removal of entry barriers

As part of the measures which the Supervisor of Banks promotes for increasing comperirion in the banking sector in Israel and as support for the changes outlined by the Committee for promoting competition in the financial markets, Bank of Israel has published a draft outline for the removal of barriers on the establishment of new banks in Israel, including relief for credit card companies, with the aim of facilitating their transformation into banks or digital banks, if they wish to turn into such banks.

The measures of this policy, as detailed by bank of Israel in the said draft letter, remove significant barriers existing until now with respect to the establishmenmt of a new Bank in Israel, in the field of technological systems, the setting up of branches, capital requirements, and creating a more facilitating process for obtaining a banking license. Positive incentives have in addition been offered, such as the possibility of digital banks to engage in the maeketing of insurance, which would assist the establishment of a new bank.

Document of Bank of Israel dated July 18, 2016, in the matter of principles and related steps for the development of of a protocol for effecting transactions by debit card and the use thereof

As part of promoting competition in the debit card m,arket and within the framework of the committee established in respect of debit card, Bank of Israel has published a document the aim of which was to allow entry of new palyers, all through the line of carrying out a transaction by means of a depit card. The document of principles includes, inter alia, decisions for the adoption of international standards, determination of a central uniform characteristics of the protocol, enabling easy movement between playes at each stage all along the line of executing the transaction, as well as recommendations for related measures.

Document of Bank of Israel dated July 31, 2016 regarding the opening of the audited payment systems to new players and the condition of approaching them

As part of the steps carried out by the Bank of Israel to remove the barriers for the competition in the payment systems in Israel, Bank of Israel published the approach conditions to the audited payment systems and the threshhold conditions to participate in them, in order to enable off-banking entities to participate in the payment systems in indirect or direct maner.

THE CAPITAL MARKET

A. Mutual funds

Mutual Investment Trusts Act (Amendment no. 23), 2014

The Mutual Investment Trusts Act (Amendment no. 23), 2014, was published on July 30, 2014. Among other things, the proposed Amendment regulates, inter alia, the terms of offering to the public in Israel units of a foreign fund, which had been approved by the supervisory authority in its country of origin, which allows also the issue of instructions by the Minister of Finance in the matter of the payment of a distribution commission by the manager of the foreign fund.

The Act took effect three months from the date of publication, but the chapter regulating the offerings of foreign funds shall become effective upon the entry into effect of regulations designed to ensure the interests of the investor population in Israel. The said regulations were published on May 5, 2016, taking effect within six months since date of publication, so the the amendment of the Act dealing with the offer of foreign mutual funds, will take effect on November 5, 2016.

B. Provident funds

The Capital Market Group at the Ministry of Finance published on May 24, 2016, a draft of the Supervision over Financial Services Regulations (Provident funds) (Purchase, sale and holding of securities) (Amendment), 2016, and the draft Supervision over Financial Services Regulations (Provident funds) (Provident funds under personal management) (Amendment), 2016, which amend drafts published on July 29, 2015, in the same matter.

The new draft amendment of the purchase, delivery and holding of securities Regulations, does not include the prohibition appearing in the previous version, according to which, an institutional investor being a member of a group of investors, where one of them has an agreement with a banking corporation for the provision of management or operating services, is not permitted to to purchase of sell securities or foreign currency, and is not permitted to hold or settle securities, by means of that banking corporation or from it. In accordance with the new draft, an institutional investor is not permitted to purchase or sell securities or foreign currency by means of parties related to the institutional investor or from them. Similarly to the previous draft, the present draft offers an expansion of the rules and number of participants in a competitive process regarding the purchase and sale of securities, and adds a requirement for a competitive process, at least once in every three years, with respect to the holding of securities. The draft adds an instruction whereby an institutional investor who had engaged in a direct agreement with a global custodian (excluding a bank, a mortgage bank or a foreign bank holding a license from bank of Israel) for the holding of securities – shall be exempted from the duty to hold a competitive processm for obtaining holding services.

The new draft of the amendment of the Provident Funds (Under personal management) Regulations, proposes to amend the number of participants in a competitive process regarding the purchase and sale of securities, as well as the terms under which, a management company may purchase or sell securities by means of a related party.

C. Securities Bill (Amendment No. 60) (Change in the structure of the Stock Exchange), 2016

The above Bill was published on July 13, 2016,, the aim of which is to establish a change in the ownership structure of the Stock Exchange and the clearing houses, while severing the link between the ownership of the Stock Exchange and of the clearing houses and the membership therein, turning them into profit-earning companies. Following the structural change, access to trading and/or clearing would no longer be dependent on ownership rights in the Stock Exchange and/or the clearing houses, but would be based upon a contractual engagement between the Stock Exchange and/or the clearing houses and the potential members. The Bill regularizes the licensing, holding and manner of management of the Stock exchange and/or the clearing houses subsequantly to the change.

The Bill states that a Stock Exchange member or a banking corporation shall not be permitted to obtain a holding permit of over 5% or a control permit in the Stock Exchange and in the clearing houses following the change in the structure of ownership.

Moreover, the Bill states that the proceeds from the sale of the means of control by existing Stock Exchange members, which are in excess of their proportionate part in the equity of the Stock Exchange, in accordance with its financial statements for 2015, shall be paid over to the Stock Exchange and used exclusively for the reduction in commission fees and for investment in technological infrastructure.

On background of earlier drafts of the Bill and as a preliminary stage, the General Meeting of Shareholders of the Stock Exchange approved on July 30, 2015, a proposal for an arrangement plan regarding the present members of the Stock Exchange, among themseleves and between them and the Stock Exchange, for the implementation of the change in structure of the Stock Exchabge and the turning of it into a profit earning corporation, having only one class of share capital; this by way of allottment of shares to the present members of the Stock Exchange, on the basis of an economic model, while making several adjustments (hereinafter – "the arrangement plan"). In accordance with the approved outline, the share of the Bank Group (prior to allottment of shares to employees and officers of the Stock Exchange) will amount to 21.6%.

In addition, the arrangement plan will include a framework for the implementation of a capital compensation plan to employees and officers of the Stock Exchange and of the clearing houses presently owned by it. The arrangement plan, of whatever format, is primarily subject to the completion of the relevant legislation. In addition, if the legislation proceedings are completed and subject to the final provisions determined in the legislation, The Stock Exchange intends to submit a detailed arrangement plan for approval of its members, in accordance with a procedure under Section 350 of the Companies Act.

The Bill states that the Stock Exchange would submit to the Court, within six month from date of publication of the Act, a motion for approval of the arrangement plan. Upon the termination of a five tear period from date of approval of the arrangement plan by the Court, or until the date of a public offer of shares of the Stock Exchange and their registartion for trading, if at all, and the earlier of the two, the present members of the Stock Exchange would not be allowed to hold means of control in the Stock Exchange exceeding 5%. During the said period, members may not purchase holdings in means of control in excess of the rate permitted by law, as well as any rights attaching to such holdings.

In addition to the above, the Bill states that trading on the Stock Exchange will take place on week days from Monday to Friday.

CORPORATE GOVERNANCE AND COMPANIES

Compensation of Officers of Financial Corporations Act (Special approval and the non-deductibility tax wise of expenses relating to exceptional compensation), 2016.

The Compensation of Officers of Financial Corporations Act (Special approval and the non-deductibility tax wise of exceptional compensation), 2016, was published on April 12, 2016. The Act includes two principal rulings. The one, the establishment of a corporate mechanism for the approval of an engagement for the granting of compensation to a senior officer or to an employee of a financial corporation, the expected expense in respect thereof exceeds NIS 2.5 million per annum (linked). The compensation amount is to be computed on a cumulative basis for all member companies of a financial group. The mechanism includes the approval by the compensation committee, and in the absence of which, by the audit committee, if such exists, the approval by the board of directors, with the majority of external/independent directors (where such exist), and the approval by the general meeting of shareholders. In the case of a corporation which is a public corporation, approval by the meeting of shareholders requires a supermajority vote by the minority shareholders. It is determined within the framework of this arrangement that in any event, no compensation may be approved, if the expected expense in respect thereof exceeds the said amount, where such amount is 35 times higher than the lowest amount of compensation payable to an employee of that corporation (including outsourcing employees as defined in the Act) (hereinafter – "ratio limitation"). The other rule states that in computing the taxable income of a financial corporation, deductions shall not be allowed in respect of payroll of senior officers and employees in an amount equal to twice the difference between the payroll cost and the amount of NIS 2.5 million (linked) per annum, while from that maximum amount shall be deducted also the amount of annual expense relating to the granting of shares or to the right to receive shares.

The definition of financial corporations to which the Act applies includes banking corporations, insurers, provident fund management companies, mutual fund management companies, investment portfolio management companies, companies engaging in the issue of indices products and corporations controlling any of the above and to which apply additional criteria stated in the Act.

The Act shall apply to engagements approved as from date of publication of the Act onwards. Engagements that had been approved prior to the publication of the Act, require approval until the end of six months from date of publication of the Act. It is noted that, according to the Act, the provision that limits the amount deductible tax wise from the taxable income of a financial corporation, shall take effect on January 1, 2017, in respect of engagements approved subsequently to the date of publication of the Act, and as regards engagements approved prior to the date of publication of the Act, the provision will take effect six months following the publication of the Act.

Two motions regarding this Act were submitted during June 2016, to the High Court of Justice (the hearing of which has been combined). One motion was submitted by the Union of Banks while the other was submitted by the Union of Insurance Companies. The two motions request the cancellation of the ratio limitation determined in the Act. The motion of the Union of Banks requests also to state clearly that the provisions of the Act do not impair and cannot impair the rights stemming from the length of the period of service of employees of financial corporations prevailing until date of entry into effect of the Act, or which are computed according to this period of service. The motion of the Union of Insurance Companies requests to state that that the increased burden of the tax would apply only to the difference between the cost of the salary and the amount of NIS 2.5 million, and not to twice the amount of the difference.

At the request of the Union of Banks, the High Court of Justice issued on July 11, 2016, an Interim Order according to which, employees and officers of banking corporations who woud inform of the termination of their office at these corporations within 45 days from date of the decision in the motion or date of cancellation of the Interin Order, shall not loose their present rights to receive the full amount of the compensation that should have been paid to them upon termination of employer/employee relations or termination of their office, had these relations been terminated at date of submission of the motion.

On April 7, 2016, on background of the passing of the Act, which, *inter alia,* creates uncertainty as to the past rights of longstanding employees of banks, the Supervisor of Banks approched all banks, requesting them, *inter alia,* to assess the possible implications and risk affecting each of the banks as a result of the Act taking effect, including the possibility of resignation of key officers at the various administrative levels, and the impact it may have upon the long-term plans of banks, including the ability to carry out significant efficiency programs. The Bank responded on April 20 2016, to the approach of the Supervisor, after holding a discussion in the matter by the Board of Directors. At this stage, it seems that the Act may be detrimental to the existing terms of office and employment of the Chairman of the Board and of the President and CEO. Moreover, in view of the uncertainty prevailing at this stage as to a part of the provisions of the Act and the interpretation thereof, the Bank continues to study the possible implications and impact of the Act. At this stage the bank estimates that the impact of such uncertainty on the efficiency program of the Bank, to the extent of it being approved in the future, is not material, and in any event it shall be examined within the framework of approval of the said program.

Proper Conduct of Banking Business Directive No. 301A – Compensation policy of a banking corporation

Bank of Israel issued on August 13, 2015, an amendment to the above Directive. The Amendment focuses on three principal issues. The first – an instruction that all members of the Board of Directors including the chairman of the board shall be entitled to fixed compensation only. In addition, regarding the chairman of the board, criteria have been set for the manner of examining the amount of the fixed compensation and it was set that social benefits can be paid to the chairman as for all other officers in the banking corporation. As for the other directors, it was set, as is the practice at the Bank, that the fixed compensation will be determined according to the mechanism for external directors. The second – a requirement that the variable compensation granted to central employees of a banking corporation shall be refundable in particularly exceptional circumstances, to be determined by the banking corporation, taking into account circumstances determined in the instruction. It has also been determined that a banking corporation shall take all reasonable steps in order to reimburse itself with an appropriate amount, where circumstances for reimbursement exist. The period for reimbursement has been fixed for five years, with the possibility of extension, for office holders, for additional two years on the occurance of the circumstences set in the directive. The compalsory will not occure if the total variable compensation for central employee does not exceed 1 sixth of the fixed compensation which he received in one calendary year. The third – (to take effect six months after date of publication), a directive that each corporation in the banking group will carry the costs of its officers and employees, as well as prohibitting receipt of comensation by central employees (which are not directors, but including the chairman and external directors) of a banking corporation from the owner of the control permit or from a major stakeholder in the banking corporation, including his family members and corporations controlled by any of them and which do not belong to the banking group. It has been clarified that the requirements under the

Amendment shall not apply to rights accrued prior to the Amendment. Furthermore, a transitional instruction has been included according to which, it was, among other things, set that with respect to compensation agreements signed prior to the publication the Amendment, the amendment shall apply no later than December 31, 2017. As to compensation agreements signed after date of publication of the Amendment, including the change of exisiting compensation agreement – the Directive shall apply immediately.

On July 14, 2016, a revised draft of the amendment to the Directive was published, which includes the principal amendments as detailed below. The one, reduction of the group of central employees, so that it is not mandatory to include therein as a central employee a manager who reports directly to a manager who reports directly to the President ans CEO. The second, The option not to define as a central employee, an employee who is not an officer, to whom Amendment No. 20 of the Companies Act applies, if the compensation paid to him in the past two years does not exceed NIS 500,000 per year, or his variable compensation in the past two years does not exceed 20% of the annual compenstion. The third, a determination that for the purpose of the variable compensation, criteria determined in advance may include a discretion component, on condition that the amount of this component should not exceed an amount equal to three montly salaries per year. The fourth, cancellation of the requirement that at least 50% of the variable compensation in a calendat year shall be granted in the form of a capital compensation. The fifth, cancellation of the requirement to defer and spread the variable compensation in respect of a central employee, whose maximum amount of compensation agrees with the new Compensation Act, and the total of the variable compensation granted to him in a calendar year does not exceed 40% of the fixed compensation for that years. The sixth, changing the definition of a fixed compensation, so that the compensation (including shares), which is blocked for realization at date of granting thereof, may be considered as fixed compensation. Furthermore, the draft amendment to the FAQ file with respect to the implementation of the Directive dated July 14, 2016, added, inter alia, a clarification that in accordance with the amended Regulations under the Companies Act, an immaterial change in the terms of employment of of a senior officer directly responsible to the President and CEO, shall not require the approval of the Compensation Committee, if it had been approved by the President and CEO, on condition that the compensation policy permits the approval of such a change by the President and CEO and the terms of employment agree with the compensation policy. The draft amendment to the FAQ file included also various adjustments and restrictions regarding changes proposed in respect of the Directive itself.

Foreign Account Tax Compliance Act - FATCA

Under the provisions of the Foreign Account Tax Compliance Act (FATCA), foreign financial institutions, including banks worldwide, are required to provide information regarding accounts which US entities hold with them. For this purpose, the foreign financial institutions must conclude an agreement with the Internal Revenue Service (IRS) in the USA. A financial institution that does not sign an agreement as said and/or does not act in accordance with the said provisions will be subject inter alia to a requirement to deduct tax at source at a rate of 30% of the payments owing to the bank and/or its customers from American sources. On June 30, 2014, a bilateral agreement was signed between Israel and the USA concerning application of the FATCA. (Agreements on this subject have been reached between the USA and other countries.) This agreement turns the Israeli Tax Authority into an intermediary between Israeli financial institutions and the IRS in the USA.

On April 6, 2014, the Supervisor of Banks issued a letter concerning the preparations for the implementation of the FATCA provisions. In this letter, the Supervisor clarifies that refusal to open a new account for a customer

who does not cooperate with the banking corporation in the manner required for the implementation of the FATCA provisions, and refusal to provide bank services in respect of an existing account, which expose the banking corporation to the risk of being considered a collaborator of the customer in evading the provisions of FATCA, shall be considered a "reasonable refusal" for the purpose of the Banking Act (Customer Service), 1981.
As required from non-US financial institutions, the Bank and its relevant subsidiaries in the Bank's Group, have registered with the US Tax Authorities.
The Bank is following legislative developments in this respect and has made the appropriate dispositions.

Automatic exchange of information with OECD countries regarding tax matters relating to financial accounts

On October 28, 2014, the Ministry of Finance informed the Organization for Economic Cooperation of the Developed Countries that Israel decided to adopt the procedures for the automatic exchange of information regarding tax matters of financial accounts (Common Reporting Standards - CRS), this being part of the effort for the reduction of "black" capital. In accordance with this procedure, financial institutions, including banks, have to institute identification measures in respect of owners of accounts held with them and to provide the Tax Authorities with information relating to account owners who are foreign residents. The information is to include the balance of the account as well as financial income.
Legislative amendments as well as the signing of agreements between the authorities in the different countries will be required for the implementation of the said procedure.
On November 24, 2015, Israel joinned the multilateral treaty regarding mutual administrative assistance concerning tax matters, which had been developed by the OECD and the European Union Council, as a tool for the cooperation regarding tax matters and struggle against avoidance and evasion of taxes. Until now, 98 countries, including all member countries of the OECD signed the treaty. According to the provisions of the treaty, the tax authorities of the different countries will assist each other, among other things, in the exchange of information required by a country for the purpose of its tax laws, either according to a specific request regarding a certain taxpayer or a transaction, or automatically in respect of each period according to predetermined categories.
The Income Tax Ordinance Amendment Act (No. 207), 2015, was passed on November 26, 2015. The Act enables the State of Israel to share information, under certain conditions, with both another country, with which the State of Israel has a treaty for the avoidance of double taxation, as well as with a country with which the State has an agreement for the exchange of information.
The Minister of Finance shall publish a formal notice regarding agreements for the exchange of information, which had been signed.
The Amendment took effect on January 1, 2016.

The Income Tax Ordinance Amendment Act (No. 227), 2016

In order to be able to implement the FATCA agreement already signed and agreements for the automatic exchange of information to be signed by the competent authorities in the format determined by the OECD, as stated above, the Income Tax Ordinance Amendment Act (No. 227), 2016 was published on July 14, 2016. In accordance with this Act, Israeli financial institutions are required to obtain from holders of accounts managed

with them or from whoever applies to open an account with them, information required for the identification of the account holder and his country of residence for tax purposes or his citizenship, and with respect to an entity, also information required for its classification and clarifying the identity of its controlling shareholders, their country of residence for tax purposes or their citizenship. The Act requires reporting Israeli financial institutions to provide information, as defined in the Act, regarding the account holder and the controlling shareholders of the entity owning the account and regarding a financial account. In terms of the Act, a montary sanction may be imposed on reporting Israeli financial institutions in respect of unidentified details, or due to deficiencies in transmitting them, and this without derogating from the criminal responsibility of a person stemming from violation of an instruction ,as stated, comprising an offence.
Moreover, the Act includes an amendment to the definition of a controlling shareholder appearing in the Prohibition of Money Laundering Act, with a view of agreeing this definition with the recommendations of the international organization for the combat against money laundering and the finance of terror (FATF). The Act will take effect on date of publication of the Regulations to be enacted by the Minister of Finance regarding identification of account holders and transmission of details, and the amendment to the definition of a controlling shareholder in the Money Laundering Act will become effective within six months from date of publication of the said Regulations.
On July 17, 2016, the Minister of Finance submitted to the Finance Committee of the Knesset the draft Income Tax Regulations (Implementation of the FATCA Agreement), 2016, which states the duties applying to financial institutions for the purpose of implementation of the FATCA Agreement, and regularize the various procedures that financial institutions have to apply in respect of a due diligence examination of financial accounts for the identification of the account holders and the classification thereof as accounts that should be reported under the agreement. The Regulations include also the duty of informing the customer regarding information provided to the Tax Authorities, the duty of reporting and withholding of tax imposed on financial institutions which are not participating in the implementation of the FATCA Agreement, and a transitional instruction applying to an entity intending to incorporate as a "public benefit company" or as an association,and operate as a "public institution" under Section 29 of the Income Tax Ordinance, and states the terms under which the entity would be recognized as a "public institution", as stated, for the purpose of the Fatca Agreement.

Management of risks associated with cross-border transactions
On March 16, 2015, the Supervisor of Banks issued a draft circular letter regarding the management of risks associates with cross-border transactions. In accordance with the circular, in view of the growing risks involved in the activity regarding foreign residents, a banking corporation has to review and update its policy, procedures and controls with respect to operations of foreign residents. It is further stated in the circular that refusal to open a new account for a customer who does not cooperate with the banking corporation in the manner required for the implementation of the policy and procedures of that banking corporation with respect to the cross-border risks, and refusal to provide banking services with respect to an existing account, which expose the banking corporation to the risk of being considered a collaborator of the customer in evading the foreign legislation applying to the customer, shall be considered "reasonable refusal" in terms of the Banking Act (Customer service), 1981.
In the months of September to November 2014, the Supervisor of Banks approached the Bank and certain other banks in the Group (hereinafter – "the Bank") (and to the best knowledge of the Bank, also other banks) in the

matter of its preparations regarding regulation risks concerning banking operations of its foreign resident customers. In the opinion of the Supervisor of Banks, the intensified regulation and enforcement on the part of foreign tax authorities and the efforts made in discovering taxable funds transferred by their citizens through foreign banking corporations may have implications on the manner of conduct of customers, thereby exposing the bank to compliance and reputation risks.

The Bank is aware of the risks involved in the operations of foreign residents and of the intensified regulation and enforcement exercised by the foreign tax authorities, including risks regarding possible tax evasion by customers subject to US tax laws ("American customers"). The Bank has a policy within the framework of the prohibition on money laundering and measures for the facing of risks involved in the activity with foreign residents being part of the different procedures of the Bank, alongside the preparations for the implementation of the FATCA rules, as described in this Chapter. The Bank had adopted in the past and is adopting also at the present time examination and monitoring measures as regards exposure, also with respect to activity with customers, in order to reduce to the extent possible, concerns regarding unreported accounts. In this respect,, as regards American customers, and even prior to the passing of the FATCA Regulations, the Bank had adopted preventive measures, including close supervision of over the relevant unit at the Bank, the examination of transfers of funds from Switzerland and other countries defined as international financial centers (recognized as tax havens), to accounts owned or controlled by American customers, as well as restrictions regarding the opening of new accounts for American customers. In accordance with the approach of the Supervisor of Banks, the Bank has adopted additional measures, including the adoption of a designated policy document dealing with the regulatory risk management arising from operations of foreign residents, and performance of internal audit at the banks in the Group, with the assistance of a firm of independent accountants, with respect to the appropriateness of the legal and regulatory risks management process inherent in the activity of foreign residents and regarding American customers.

For additional details regarding possible exposure to American customers, see the financial report for 2015 in the Chapter "Legislative Restrictions, Legislation and Special Constraints applying to the Bank Group" and the Chapter on Corporate Governance.

Prohibition on money laundering and compliance with Israeli tax laws

Prohibition of Money lLaundering Act (Amendment No. 14), 2016

The Amendment, published on April 7, 2016, adds to the offences of origin mentioned in the First Addendum to the Prohibition on Money Laundering Act, 2000, tax offences committed in amounts and under certain circumstances.

It is further determined that in the case where a money laundering offence has been committed, the origin of which is a tax offense, by a person who is not the one liable for the tax, than the tax evasion offence would be considered an offence of origin, with no additional circumstances or terms.

Furthermore, the investigative power of the tax Authority and its entitlement to information from the Prohibition of Money Laundering and Finance of Terror Authority, have been expanded, in order to assist it in the uncovering and investigation of money laundering offenses originating in tax offenses.

The Amendment takes effect within six months of date of its formal publication.

The Bank is studying the Amendment to the Act and its implications on the operations of the Bank and the Group, and is preparing accordingly.

Draft letter of Bank of Israel tobanking corporations in the matter of preparations for compliance risk management in view of tax offences being determined as offences of origin

In accordance with the said letter, banking corporations are required to examine the changes required in their policy, in risk assessment and in procedures, following Amendment No. 14 to the Money Laundering Act, and the addition of tax offences as offence of origin. An appendix was attached to the draft letter detailing "red flags" with the view of assisting banking corporations in the management of the risk, due to concerns regarding their utilization for tax evasion.

The Intensification of Tax Collection and of Enforcement (Mean for enforcement of tax payments and for determent of money laundering) (Legislation amendments), 2015.

In accordance with this Bill, published on August 31, 2015, financial institutions, including banking corporations, shall be obliged to provide the Tax Authorities with current reports regarding operations conducted in business accounts of their customers (accounts of corporations and any account defined by them as a business account).

Furthermore, the tax authorities will be authorized to demand information from financial institutions with respect to a group of customers having joint characteristics, due to the suspicion that such customers had violated the tax laws in a manner causing the loss of tax revenues in an other than insignificant scope.

It is further proposed to amend the Prevention of Money Laundering Act by adding severe tax offenses as original offences, including offences under Section 220 of the Income Tax Ordinance and additional tax offenses characterized by a special basic mental intention to evade the payment of tax.

The Emir Reform

In 2012 rules were issued in the USA for the purpose of applying the Dodd Frank Wall Street Reform and Consumer Protection Act, which was enacted in the USA in 2010 (hereinafter: "DF reform"). The purpose of the DF reform inter alia is to reduce the credit risk in trading in the OTC derivatives market and the systemic risks deriving from them, and to increase the transparency in that market.

Under the DF reform, rules were prescribed inter alia regarding settlement of transactions by a central clearer, collateral requirements and the reporting of transactions to trade repositories.

Concurrent with the Dodd Frank reform published in the USA, a reform with similar principles, the European Market Regulation Infrastructure (EMIR) was published in Europe.

Since the EMIR reform applies to every European body, it is expected to affect the Bank's mode of operation in derivative instruments. The central clearing pursuant to the EMIR reform began in June 2016, for the European members of the clearing house.

The Bank is preparing for the implementation of the rules under the EMIR reform, inasmuch as they are relevant for the Bank.

LEGAL PROCEEDINGS

Note 9 to the financial statements includes details of material claims pending against the Bank and its subsidiary companies.

THE RATING OF THE BANK BY RATING AGENCIES

Set out below is the Bank's rating as determined by rating agencies in Israel and by an international rating agency:

- S&P Maalot rated the Bank ilAA+/Stable and its subordinated notes at ilAA and subordinated notes with loss absorption mechanism at ilA+.
- Midrug rated the Bank's internal finance resolution at Aa3.il/Stable, the Bank's short-term deposits P-1.il, its long-term deposits and senior debt Aa1.il/Stable and its subordinated notes Aa2.il/Negative.
- Moody's rates the Bank as follows: long and short-term foreign-currency and local currency deposits A3/Prime-2. The rating forecast is Stable.

CONTRIBUTION TO THE COMMUNITY

"Turning point" - the long running community project of the Bank, in operation already for eight years, in cooperation with MATAN- investing in the community and JOINT- "Ashalim" Organization. In its first years the project focused on young persons that were emmited from different frameworks with the aim of giving these young persons the oportunity to change their lives and leave a normative life within the Israeli society. Within the framework of the program the young persons were combined in business enterpenuers and different programs combining studies with work and grooming business enterpenuership by development of skills.

In 2014 The Bank launched new projects the purpose of which is to advance wellness, the quality of life and a healthy lifestyle in the community, with a focus on children and youth in risk situations concentrating on sport instruments, quality of life and healthy lifestyle.

The Bank encourages and supports the volunteers from among employees of the Bank, that are interested in taking part in the project and in contributing their time, experience and skills in favor of these young persons.

In addition to these projects, the Bank and its subsidiaries donate to various foundations and organizations.

APPENDIX 1 -
RATES OF INTEREST INCOME AND EXPENSES AND ANALYSIS OF CHANGES IN INTEREST INCOME AND EXPENSES (CONT'D)

D. Analyasis of changes in interest income and expenses (CONT'D)

NOTES:

(1) On the basis of opening balances, excluding the non linked Shekel segment in which calculated on daily balances.

(2) Before deduction of the average balance of provisions for credit losses including impaired debts which are non-bearing interest income.

(3) From the average balance of available for sale bonds was deducted the average balance of unrealized gains from adjustments to fair value of bonds, included in other comprehensive profit in the item "adjustments to fair value of available for sale securities" for the three months and six months ended on June 30, 2016 in the amount of NIS 4 million and NIS 24 million respectivly. (for the three months and six months ended June 30, 2015 in the amount of NIS 39 million).

(4) Including derivative instruments, other non-bearing interest assets and after deduction of provision for credit losses.

(5) Fees in the amount of NIS 25 million, NIS 35 million were included for the periods of three months ended June 30, 2016 and 2015, respectively, and amounts of NIS 50 million and NIS 70 million in the period of six months ended June 30, 2016 and 2015, respectively.

(6) Including derivative instruments.

(7) Net return- net interest income to total interest bearing assets.

(8) Change attributed to quantity was calculated by multiplying the price in the reported period by the change in the quantity in the compared periods.
Change attributed to price was calculated by multiplying the quantity in the previous period by the change in the price in the compared periods.
